## 22.1904 Annual Executive Order Minimum Wage Rate.

- (a) For the E.O. minimum wage rate that becomes effective on January 30, 2022, and annually thereafter, the *Administrator* will-
- (1) Notify the public of the new E.O. minimum wage rate at least 90 days before it becomes effective by publishing a notice in the Federal Register;
- (2) Publish and maintain on *Wage Determinations at SAM.gov*, <a href="https://www.sam.gov">https://www.sam.gov</a>, or any successor site, the E.O. minimum wage rate; and
- (3) Include a general notice on wage determinations which are issued under the *Service Contract* Labor Standards statute or the Wage Rate Requirements (*Construction*) statute. The notice will provide information on the E.O. minimum wage and how to obtain annual updates.

(b)

- (1) The contractor *may* request a price adjustment only after the effective date of a new annual E.O. minimum wage determination published pursuant to paragraph (a). Prices will be adjusted only for increased labor costs (including subcontractor labor costs) as a result of the annual E.O. minimum wage, and for associated labor costs (including those for subcontractors). Associated labor costs *shall* include increases or decreases that result from changes in social security and unemployment taxes and *workers*' compensation *insurance*, but will not otherwise include any amount for general and administrative costs, overhead, or profit.
- (2) The wage rate price adjustment under this clause is the lowest amount calculated by subtracting from the new E.O. wage rate the following: the current E.O. minimum wage rate; the current service or *construction* wage determination rate under the contract (if the wage rate is applicable to that *worker*); or the actual wage currently paid the *worker*. If the amount is zero or below, there will be no increase paid for this *worker*.
  - (i) Example 1 New E.O. wage rate is \$16.10.

Previous E.O. wage rate is \$15.70. The current service or *construction* wage determination rate applicable to this *worker* under the contract is \$15.75.

Analysis: The calculation is \$16.10 - \$15.80 = \$.30. The price adjustment for this *worker* is \$.30.

The actual wage currently paid to the *worker* is \$15.80.

(ii) Example 2 - New E.O. wage rate is \$15.50.

Previous E.O. wage rate is \$15.10. The current service or *construction* wage determination rate applicable to this *worker* under the contract is \$15.75.

Analysis: The calculation is \$15.50 - \$15.80 = -\$.30. There is no price adjustment for this *worker*.

The actual wage currently paid to the worker is \$15.80.

(3) The *contracting officer shall* not adjust the contract price for any costs other than those identified in paragraph (b)(1) of this section, and *shall* not provide duplicate price adjustments with any price adjustment under clauses implementing the *Service Contract* Labor Standards statute or the Wage Rate Requirements (*Construction*) statute.
