23.104 General procedures.

(a) *Maximum extent practicable*. If the requiring activity submits a written justification addressing the reasons described in <u>23.103</u>(a)(1), the *contracting officer may* consider it not practicable to procure sustainable *products* or services. A written justification *may* be for a specific product or service or at the *line item* or contract level. The *contracting officer shall* maintain the written justification in the contract file.

(b) Identification.

(1) Except as provided in paragraph (b)(2) of this section, the *contracting officer shall* ensure the *solicitation* and contract identifies—

(i) The *sustainable products and services*, including the purchasing program and type of product or service, that are applicable to the *acquisition*, as identified by the requiring activity; and

(ii) Any *products* and services that are not subject to the requirements of this subpart and the clause at 52.223-23, *Sustainable Products and Services*, based on the written justification under paragraph (a) of this section, an exception at 23.105, or an exemption at 23.106.

(2) The requirement in paragraph (b)(1) of this section does not apply if the justification, exception, or exemption covers the entirety of the *contract action* requirements.

(c) *Prioritization*. Agencies *shall* prioritize *sustainable products and services* as follows:

(1) Procure *products* and services that meet applicable statutory purchasing program requirements (see 23.107). When both an EPA-designated item (see 23.107-1) and a *biobased product* in a *USDA*-designated product category (see 23.107-2) could be used for the same purposes, and there is not an EPA-designated item that is also a *biobased product* in a *USDA*-designated product category that meets the agency's needs, procure the EPA-designated item.

(2) Consistent with other statutory *procurement* requirements, prioritize multi-attribute *sustainable products and services*, which are those that meet applicable statutory purchasing program requirements (see <u>23.107</u>) and one or more required EPA purchasing programs (see <u>23.108</u>).

(3) If no statutory purchasing program requirements apply, procure *sustainable products and services* that meet required EPA purchasing program requirements (see <u>23.108</u>).

(d) *Resource*. The Green *Procurement* Compilation (GPC) available at <u>https://sftool.gov/</u> <u>greenprocurement</u> provides a comprehensive list of *sustainable products and services* and other related *sustainable acquisition* guidance. In addition to the resources identified for each purchasing program listed in <u>23.107</u> and <u>23.108</u>, agencies *should* consult the GPC when determining which purchasing programs apply to a specific product or service.
