

Subpart 27.1 - General

Parent topic: [Part 27 - Patents, Data, and Copyrights](#)

27.101 Applicability.

This part applies to all agencies. However, agencies are authorized to adopt alternative policies, procedures, *solicitation* provisions, and *contract clauses* to the extent necessary to meet the specific requirements of laws, executive orders, treaties, or international agreements. Any agency adopting alternative policies, procedures, *solicitation* provisions, and *contract clauses* *should* include them in the agency's published regulations.

27.102 General guidance.

- (a) The Government encourages the maximum practical commercial use of inventions made under Government contracts.
- (b) Generally, the Government will not refuse to award a contract on the grounds that the prospective contractor *may* infringe a patent. The Government *may* authorize and consent to the use of inventions in the performance of certain contracts, even though the inventions *may* be covered by U.S. patents.
- (c) Generally, contractors providing *commercial products* and *commercial services* *should* indemnify the Government against liability for the infringement of U.S. patents.
- (d) The Government recognizes rights in data developed at private expense, and limits its demands for delivery of that data. When such data is delivered, the Government will acquire only those rights essential to its needs.
- (e) Generally, the Government requires that contractors obtain permission from copyright owners before including copyrighted works, owned by others, in data to be delivered to the Government.
