27.304-2 Contracts placed by or for other Government agencies.

The following procedures apply unless an interagency agreement provides otherwise:

- (a) When a Government agency requests another Government agency to award a contract on its behalf, the request *should* explain any special circumstances surrounding the contract and specify the patent rights clause to be used. The clause *should* be selected and modified, if necessary, in accordance with the policies and procedures of this subpart. If, however, the request states that a clause of the *requesting agency* is required (*e.g.*, because of statutory requirements, a deviation, or exceptional circumstances), the awarding agency *shall* use that clause rather than those of this subpart.
- (1) If the request states that an agency clause is required and the work to be performed under the contract is not severable and is funded wholly or in part by the *requesting agency*, then include the *requesting agency* clause and no other patent rights clause in the contract.
- (2) If the request states that an agency clause is required, and the work to be performed under the contract is severable, then the *contracting officer shall* assure that the *requesting agency* clause applies only to that severable portion of the work and that the work for the awarding agency is subject to the appropriate patent rights clause.
- (3) If the request states that a *requesting agency* clause is not required in any resulting contract, the awarding agency *shall* use the appropriate patent rights clause, if any.
- (b) Any action requiring an agency determination, report, or deviation involved in the use of the *requesting agency*'s clause is the responsibility of the *requesting agency* unless the agencies agree otherwise. However, the awarding agency *may* not alter the *requesting agency*'s clause without prior approval of the *requesting agency*.
- (c) The *requesting agency may* require, and provide instructions regarding, the forwarding or handling of any invention disclosures or other reporting requirements of the specified clauses. Normally, the *requesting agency* is responsible for the administration of any *subject inventions*. This responsibility *shall* be established in advance of awarding any contracts.
