

32.203 Determining contract financing terms.

When the criteria in [32.202-1\(b\)](#) are met, the *contracting officer* may either specify the financing terms in the *solicitation* (see [32.204](#)) or permit each *offeror* to propose its own customary financing terms (see [32.205](#)). When the *contracting officer* has sufficient information on financing terms that are customary in the commercial marketplace for the item, those terms *may* be specified in the *solicitation*.
