

## 36.210 Inspection of site and examination of data.

The *contracting officer should* make appropriate arrangements for prospective *offerors* to inspect the work site and to have the opportunity to examine data available to the Government which *may* provide information concerning the performance of the work, such as boring samples, original boring logs, and records and plans of previous *construction*. The data *should* be assembled in one place and made available for examination. The *solicitation should* notify *offerors* of the time and place for the site *inspection* and data examination. If it is not feasible for *offerors* to inspect the site or examine the data on their own, the *solicitation should* also designate an individual who will show the site or data to the *offerors*. Significant site information and the data *should* be made available to all *offerors* in the same manner, including information regarding any utilities to be furnished during *construction*. A record *should* be kept of the identity and affiliation of all *offerors'* representatives who inspect the site or examine the data.
