46.407 Nonconforming supplies or services.

- (a) The contracting officer should reject supplies or services not conforming in all respects to contract requirements (see $\underline{46.102}$). In those instances where deviation from this policy is found to be in the Government's interest, such supplies or services may be accepted only as authorized in this section.
- (b) The *contracting* officer ordinarily *must* give the contractor an opportunity to correct or replace nonconforming *supplies* or services when this can be accomplished within the required delivery schedule. Unless the contract specifies otherwise (as *may* be the case in some cost-reimbursement contracts), correction or replacement *must* be without additional cost to the Government. Paragraph (e)(2) of the clause at <u>52.246-2</u>, *Inspection* of *Supplies*-Fixed-Price, reserves to the Government the right to charge the contractor the cost of Government reinspection and retests because of prior rejection.

(c)

- (1) In situations not covered by paragraph (b) of this section, the *contracting* officer ordinarily *must* reject *supplies* or services when the nonconformance is critical or major or the *supplies* or services are otherwise incomplete. However, there *may* be circumstances (*e.g.*, reasons of economy or urgency) when the *contracting officer* determines acceptance or conditional acceptance of *supplies* or services is in the best interest of the Government. The *contracting officer must* make this determination based upon-
- (i) Advice of the technical activity that the item is safe to use and will perform its intended purpose;
- (ii) Information regarding the nature and extent of the nonconformance or otherwise incomplete *supplies* or services;
- (iii) A request from the contractor for acceptance of the nonconforming or otherwise incomplete *supplies* or services (if feasible);
- (iv) A recommendation for acceptance, conditional acceptance, or rejection, with supporting rationale; and
- (v) The contract adjustment considered appropriate, including any adjustment offered by the contractor.
- (2) The cognizant *contract administration office*, or other Government activity directly involved, *must* furnish this data to the *contracting officer in writing*, except that in urgent cases it *may* be furnished orally and later confirmed *in writing*. Before making a decision to accept, the *contracting* officer *must* obtain the concurrence of the activity responsible for the technical requirements of the contract and, where health factors are involved, of the responsible health official of the agency concerned.
- (d) If the nonconformance is minor, the cognizant *contract administration office may* make the determination to accept or reject, except where this authority is withheld by the *contracting office* of the *contracting* activity. To assist in making this determination, the contract administration office *may* establish a joint contractor-contract administrative office review group. Acceptance of *supplies* and services with critical or major nonconformances is outside the scope of the review group.

- (e) The *contracting* officer *must* discourage the repeated tender of nonconforming *supplies* or services, including those with only minor nonconformances, by appropriate action, such as rejection and documenting the contractor's performance record.
- (f) When *supplies* or services are accepted with critical or major nonconformances as authorized in paragraph (c) of this section, the *contracting* officer *must* modify the contract to provide for an equitable price reduction or other consideration. In the case of conditional acceptance, amounts withheld from payments generally *should* be at least sufficient to cover the estimated cost and related profit to correct deficiencies and complete unfinished work. The *contracting officer must* document in the contract file the basis for the amounts withheld. For services, the *contracting officer* can consider identifying the value of the individual work requirements or tasks (subdivisions) that *may* be subject to price or fee reduction. This value *may* be used to determine an equitable adjustment for nonconforming services. However, when *supplies* or services involving minor nonconformances are accepted, the contract need not be modified unless it appears that the savings to the contractor in fabricating the nonconforming *supplies* or performing the nonconforming services will exceed the cost to the Government of processing the modification.
- (g) Notices of rejection *must* include the reasons for rejection and be furnished promptly to the contractor. Promptness in giving this notice is essential because, if timely nature of rejection is not furnished, acceptance *may* in certain cases be implied as a matter of law. The notice *must* be *in writing* if-
- (1) The *supplies* or services have been rejected at a place other than the contractor's plant;
- (2) The contractor persists in offering nonconforming *supplies* or services for acceptance; or
- (3) Delivery or performance was late without excusable cause.
- (h) The *contracting* officer *shall* provide disposition instructions for counterfeit or suspect counterfeit items in accordance with agency policy. Agency policy *may* require the *contracting officer* to direct the contractor to retain such items for investigative or evidentiary purposes.
