5207.105 Contents of written acquisition plans.

Notwithstanding the requirements in FAR 7.105 and DFARS 207.105, the Navy acquisition planning process is streamlined to describe the irreducible minimum content allowed for a STRAP. The specific content of STRAPs shall conform to the templates found in Annexes 17 through 20 (see 5207.103 for additional details, including approvals). For revisions to an individual contract within a previously approved PSTRAP or PSTRAP-M (as appropriate), use of an ISTRAP or ISTRAP-M for the individual contract is acceptable.

(S-90) (a) The planner shall submit a PSTRAP, using Annex 17 or Annex 19, when the requirements office chooses to write a single plan for all known program actions.

(b) The planner shall submit an ISTRAP, Annex 18 or Annex 20, when there is only one contract, task or delivery order to be covered by the plan.
