

515.3700 Scope of section.

The INFORM procedures prescribed in this section provide a standardized approach to GSA's post-award communications with offerors and provide all offerors fair access to data, *i.e.*, successful and unsuccessful offerors with detailed information about their submissions. GSA's INFORM procedures are designed to strengthen the relationship between GSA and industry by providing:

- (a) A clear understanding of the underlying rationale of GSA's evaluation and selection process;
- (b) Useful feedback which can assist industry with future submissions; and
- (c) Sufficient information on why the offeror did or did not receive the award.
