

536.7002-4 Procedures.

(a) Sources for art in architecture contracts shall be selected in accordance with the procedures in this subpart rather than the solicitation or source selection procedures prescribed in FAR parts 13, 14, and 15.

(b) The solicitation for art in architecture services should be issued only after the architect-engineer services or design-build construction solicitation for the project has been published so that both contract awards can be aligned and the artist and architect-engineer contractor can collaborate during the design phase of the project.

(c) The solicitation must require submission of a technical proposal, which addresses the selection criteria in 536.7003-1(a), and a price proposal, which addresses the line items or options in 536.7001-3(e). Artists on the GSA National Artists Registry may use their registry submission (*i.e.*, GSA Form 7437) as part of their technical proposal.

(d) The statement of work for art in architecture contracts should:

(1) Require the artist to collaborate with the architect-engineer or design-build contractor to avoid any duplication of labor, any removal and reconstruction of building elements affected by an artwork, and any negative impact to the project schedule;

(2) Task the artist to review the building design documents to ensure that art is an integral component of the building project;

(3) Clarify that no discussions between artists and other contractors, tenant agencies, or community representatives shall be considered as a change to the contract unless incorporated by the contracting officer through a modification;

(4) Require a preliminary concept design which complies with the GSA Art in Architecture (AiA) Policies and Procedures Guide at <https://gsa.gov/artinarchitecture> and includes drawings, models, photographs, or digital renderings and animations, as applicable;

(5) Require a final concept design which complies with the GSA Art in Architecture (AiA) Policies and Procedures Guide at <https://gsa.gov/artinarchitecture>;

(6) Require site visit(s), if warranted; and

(7) Require the artist to provide professional photographic documentation of the fully completed and installed artwork; information on the artwork's meaning, defining characteristics, fabrication, materials, and installation; and any special maintenance instructions for the artwork.

(8) Stipulate that the artist's final concept design, and fully completed and installed artwork will become the property of GSA.

(e) Art in architecture contract submissions (*e.g.*, preliminary and final concept design) must be reviewed and approved by the contracting officer, in collaboration with the project manager and fine arts officer.

(f) Legal concurrence and head of contracting activity written approval must be provided to terminate, delay or stay an art in architecture contract for any reason; this includes a determination not to exercise a fabrication or installation option.

(g) The fully completed and installed artwork will be accessioned into the GSA Fine Arts Collection.
