SUBPART 5804.71 - UNIFORM CONTRACT LINE ITEM NUMBERING SYSTEM

Parent topic: [PART 5804 - ADMINISTRATIVE MATTERS](#)

5804.7103-2 Numbering procedures

(S-90) Contract line items for the base period are to be numbered 000x.

(S-91) Contract line items for the option periods are to be numbered sequentially: 100x for the first option year line items, 200x for the second option year line items, 300x for the third option year line items, 400x for the fourth option year line items, etc.

(S-92) Line Item structure shall be accomplished in accordance with this DFARS subpart. In accordance with Defense Pricing and Contracting (DPC)/ memorandum, Line Item Structure, dated 14 Nov 2014 "line item quantity and unit of measure must match the actual deliveries that are required of the contractor". 1 LOT or 1 EA shall not be used if there are multiple items/systems required to be delivered by the contractor.

Each item/system shall be identified individually on a separate Contract Line Item with the appropriate quantity and unit of measure for the item/system. For further guidance, see DFARS PGI 204.7103 and 7105.

5804.7105 Contract Exhibits and Attachments

The contracting officer shall use separate Contract Line Item Numbers (CLIN) for hardware requirements of less than 10 line items. The contracting officer may use an exhibit (the CLIN must reference the exhibit) when hardware requirements exceed 10 line items (generally, listed on an electronic products list). During the fourth quarter of the fiscal year, the HCO may determine to reduce the 10-CLIN threshold to a number that is reasonably needed for efficiency. The contracting officer must also adhere to DFARS PGI 204-7105 policy on the use of exhibits.
