

12.602 Streamlined evaluation of offers.

(a) When evaluation factors are used, the contracting officer may insert a provision substantially the same as the provision at [52.212-2](#), Evaluation-Commercial Products and Commercial Services, in solicitations for commercial products or commercial services or comply with the procedures in [13.106](#) if the acquisition is being made using simplified acquisition procedures. When the provision at [52.212-2](#) is used, paragraph (a) of the provision shall be tailored to the specific acquisition to describe the evaluation factors and relative importance of those factors. However, when using the simplified acquisition procedures in [part 13](#), contracting officers are not required to describe the relative importance of evaluation factors.

(b) Offers shall be evaluated in accordance with the criteria contained in the solicitation. For many commercial products or commercial services, the criteria need not be more detailed than technical (capability of the item offered to meet the agency need), price, and past performance. Technical capability may be evaluated by how well the proposed products or services meet the Government requirement instead of predetermined subfactors. Solicitations for commercial products or commercial services do not have to contain subfactors for technical capability when the solicitation adequately describes the intended use of the commercial product or commercial service. A technical evaluation would normally include examination of such things as product or service literature, product samples (if requested), technical features, and warranty provisions. Past performance shall be evaluated in accordance with the procedures in section [13.106](#) or [subpart 15.3](#), as applicable. The contracting officer shall ensure the instructions provided in the provision at [52.212-1](#), Instructions to Offerors—Commercial Products and Commercial Services, and the evaluation criteria provided in the provision at [52.212-2](#), Evaluation—Commercial Products and Commercial Services, are in agreement.

(c) Select the offer that is most advantageous to the Government based on the factors contained in the solicitation. Fully document the rationale for selection of the successful offeror including discussion of any trade-offs considered.
