2.000 Scope of part.

(a) This part—

(1) Defines words and terms that are frequently used in the FAR;

(2) Provides cross-references to other definitions in the FAR of the same word or term; and

(3) Provides for the incorporation of these definitions in solicitations and contracts by reference.

(b) Other parts, subparts, and sections of this regulation (48 CFR Chapter 1) may define other words or terms and those definitions only apply to the part, subpart, or section where the word or term is defined (see the Index for locations).

Subpart 2.1—Definitions**2.101 Definitions.**

(a) A word or a term, defined in this section, has the same meaning throughout this regulation (48 CFR Chapter 1), unless—

(1) The context in which the word or term is used clearly requires a different meaning; or

(2) Another FAR part, subpart, or section provides a different definition for the particular part or portion of the part.

(b) If a word or term that is defined in this section is defined differently in another part, subpart, or section of this regulation (48 CFR Chapter 1), the definition in—

(1) This section includes a cross-reference to the other definitions; and

(2) That part, subpart, or section applies to the word or term when used in that part, subpart, or section.

“Acquisition” means the acquiring by contract with appropriated funds of supplies or services (including construction) by and for the use of the Federal Government through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when agency needs are established and includes the description of requirements to satisfy agency needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling agency needs by contract.

“Acquisition planning” means the process by which the efforts of all personnel responsible for an acquisition are coordinated and integrated through a comprehensive plan for fulfilling the agency need in a timely manner and at a reasonable cost. It includes developing the overall strategy for managing the acquisition.

“Adequate evidence” means information sufficient to support the reasonable belief that a particular act or omission has occurred.

“Advisory and assistance services” means those services provided under contract by nongovernmental sources to sup-

port or improve: organizational policy development; decision-making; management and administration; program and/or project management and administration; or R&D activities. It can also mean the furnishing of professional advice or assistance rendered to improve the effectiveness of Federal management processes or procedures (including those of an engineering and technical nature). In rendering the foregoing services, outputs may take the form of information, advice, opinions, alternatives, analyses, evaluations, recommendations, training and the day-to-day aid of support personnel needed for the successful performance of ongoing Federal operations. All advisory and assistance services are classified in one of the following definitional subdivisions:

(1) Management and professional support services, *i.e.*, contractual services that provide assistance, advice or training for the efficient and effective management and operation of organizations, activities (including management and support services for R&D activities), or systems. These services are normally closely related to the basic responsibilities and mission of the agency originating the requirement for the acquisition of services by contract. Included are efforts that support or contribute to improved organization of program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative technical support for conferences and training programs.

(2) Studies, analyses and evaluations, *i.e.*, contracted services that provide organized, analytical assessments/evaluations in support of policy development, decision-making, management, or administration. Included are studies in support of R&D activities. Also included are acquisitions of models, methodologies, and related software supporting studies, analyses or evaluations.

(3) Engineering and technical services, *i.e.*, contractual services used to support the program office during the acquisition cycle by providing such services as systems engineering and technical direction (see [9.505-1\(b\)](#)) to ensure the effective operation and maintenance of a weapon system or major system as defined in OMB Circular No. A-109 or to provide direct support of a weapon system that is essential to research, development, production, operation or maintenance of the system.

“Affiliates” means associated business concerns or individuals if, directly or indirectly—

(1) Either one controls or can control the other; or

(2) A third party controls or can control both.

“Agency head” or “head of the agency” means the Secretary, Attorney General, Administrator, Governor, Chairperson, or other chief official of an executive agency, unless otherwise indicated, including any deputy or assistant chief official of an executive agency.

“Alternate” means a substantive variation of a basic provision or clause prescribed for use in a defined circumstance. It

adds wording to, deletes wording from, or substitutes specified wording for a portion of the basic provision or clause. The alternate version of a provision or clause is the basic provision or clause as changed by the addition, deletion, or substitution (see [52.105\(a\)](#)).

“Architect-engineer services,” as defined in [40 U.S.C. 1102](#), means—

(2) Professional services of an architectural or engineering nature performed by contract that are associated with research, planning, development, design, construction, alteration, or repair of real property; and

(3) Those other professional services of an architectural or engineering nature, or incidental services, that members of the architectural and engineering professions (and individuals in their employ) may logically or justifiably perform, including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.

“Assignment of claims” means the transfer or making over by the contractor to a bank, trust company, or other financing institution, as security for a loan to the contractor, of its right to be paid by the Government for contract performance.

“Assisted acquisition” means a type of interagency acquisition where a servicing agency performs acquisition activities on a requesting agency’s behalf, such as awarding and administering a contract, task order, or delivery order.

“Basic research” means that research directed toward increasing knowledge in science. The primary aim of basic research is a fuller knowledge or understanding of the subject under study, rather than any practical application of that knowledge.

“Best value” means the expected outcome of an acquisition that, in the Government’s estimation, provides the greatest overall benefit in response to the requirement.

“Bid sample” means a product sample required to be submitted by an offeror to show characteristics of the offered products that cannot adequately be described by specifications, purchase descriptions, or the solicitation (*e.g.*, balance, facility of use, or pattern).

“Biobased product” means a product determined by the U.S. Department of Agriculture to be a commercial or industrial product (other than food or feed) that is composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials (including plant, animal, and marine materials) or forestry materials.

The manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials, articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not “building” or “work” within the meaning of this definition unless conducted in connection with and at the site of such building or work as is described in the foregoing sentence, or under the United States Housing Act of 1937 and the Housing Act of 1949 in the construction or development of the project.

“Bundled contract” means a contract where the requirements have been consolidated by bundling. (See the definition of bundling.)

“Bundling” means—

(1) Consolidating two or more requirements for supplies or services, previously provided or performed under separate smaller contracts, into a solicitation for a single contract that is likely to be unsuitable for award to a small business concern due to—

(i) The diversity, size, or specialized nature of the elements of the performance specified;

(ii) The aggregate dollar value of the anticipated award;

(iii) The geographical dispersion of the contract performance sites; or

(iv) Any combination of the factors described in paragraphs (1)(i), (ii), and (iii) of this definition.

This certification states that, to the best of the person’s knowledge and belief, the cost or pricing data are accurate, complete, and current as of a date certain before contract award. Cost or pricing data are required to be certified in certain procurements ([10 U.S.C. 2306a](#) and [41 U.S.C. 254b](#)).

“Change-of-name agreement” means a legal instrument executed by the contractor and the Government that recognizes the legal change of name of the contractor without disturbing the original contractual rights and obligations of the parties.

“Change order” means a written order, signed by the contracting officer, directing the contractor to make a change that the Changes clause authorizes the contracting officer to order without the contractor’s consent.

“Claim” means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. However, a written demand or written assertion by the contractor seeking the payment of money

exceeding \$100,000 is not a claim under the Contract Disputes Act of 1978 until certified as required by the Act. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim, by written notice to the contracting officer as provided in [33.206\(a\)](#), if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

“Classified acquisition” means an acquisition in which offerors must have access to classified information to properly submit an offer or quotation, to understand the performance requirements, or to perform the contract.

“Classified contract” means any contract in which the contractor or its employees must have access to classified information during contract performance. A contract may be a classified contract even though the contract document itself is unclassified.

(1)(i) Is owned by, is produced by or for, or is under the control of the United States Government; or

marketplace in time to satisfy the delivery requirements under a Government solicitation;

(3) Any item that would satisfy a criterion expressed in paragraphs (1) or (2) of this definition, but for—

(i) Modifications of a type customarily available in the commercial marketplace; or

(ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. Minor modifications means modifications that do not significantly alter the nongovernmental function or essential physical characteristics of an item or component, or change the purpose of a process. Factors to be considered in determining whether a modification is minor include the value and size of the modification and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a modification is minor;

(4) Any combination of items meeting the requirements of paragraphs (1), (2), (3), or (5) of this definition that are of a type customarily combined and sold in combination to the general public;

(5) Installation services, maintenance services, repair services, training services, and other services if—

(i) Such services are procured for support of an item referred to in paragraph (1), (2), (3), or (4) of this definition, regardless of whether such services are provided by the same source or at the same time as the item; and

(ii) The source of such services provides similar services contemporaneously to the general public under terms and conditions similar to those offered to the Federal Government;

(6) Services of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed or specific outcomes to be achieved and under standard commercial terms and conditions. For purposes of these services—

(i) “Catalog price” means a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or vendor, is either published or otherwise available for inspection by customers, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and

(7) Any item, combination of items, or service referred to in paragraphs (1) through (6) of this definition, notwithstanding the fact that the item, combination of items, or service is transferred between or among separate divisions, subsidiaries, or affiliates of a contractor; or

(ii) Recorded information comprising source code listings, design details, algorithms, processes, flow charts, formulas, and related material that would enable the computer program to be produced, created, or compiled.

(2) Does not include computer databases or computer software documentation.

“Consent to subcontract” means the contracting officer’s written consent for the prime contractor to enter into a particular subcontract.

“Construction” means construction, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other real property. For purposes of this definition, the terms “buildings, structures, or other real property” include, but are not limited to, improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, cemeteries, pumping stations, railways, airport facilities, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, canals, and channels. Construction does not include the manufacture, production, furnishing, construction, alteration, repair, processing, or assembling of vessels, aircraft, or other kinds of personal property (except that for use in subpart [22.5](#), see the definition at [22.502](#)).

“Contiguous United States (CONUS)” means the 48 contiguous States and the District of Columbia.

“Contingency operation” ([10 U.S.C. 101\(a\)\(13\)](#)) means a military operation that—

(1) Is designated by the Secretary of Defense as an operation in which members of the armed forces are or may become involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or

“Continued portion of the contract” means the portion of a contract that the contractor must continue to perform following a partial termination.

“Contract” means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; job orders or task letters issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications. Contracts do not include grants and cooperative agreements covered by [31 U.S.C. 6301](#), *et seq.* For discussion of various types of contracts, see [Part 16](#).

“Contract administration office” means an office that performs—

(1) Assigned postaward functions related to the administration of contracts; and

(2) Assigned preaward functions.

“Contract clause” or “clause” means a term or condition used in contracts or in both solicitations and contracts, and applying after contract award or both before and after award.

“Contract modification” means any written change in the terms of a contract (see [43.103](#)).

“Contracting” means purchasing, renting, leasing, or otherwise obtaining supplies or services from nonfederal sources. Contracting includes description (but not determination) of supplies and services required, selection and solicitation of sources, preparation and award of contracts, and all phases of contract administration. It does not include making grants or cooperative agreements.

“Contracting activity” means an element of an agency designated by the agency head and delegated broad authority regarding acquisition functions.

“Contracting office” means an office that awards or executes a contract for supplies or services and performs post-award functions not assigned to a contract administration office (except for use in [Part 48](#), see also [48.001](#)).

“Contracting officer” means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the contracting officer acting within the limits of their authority as delegated by the contracting officer. “Administrative contracting officer (ACO)” refers to a contracting officer who is administering contracts. “Termination contracting officer (TCO)” refers to a contracting officer who is settling terminated contracts. A single contracting officer may be responsible for duties in any or all of these areas. Reference in this regulation (48 CFR Chapter 1) to administrative contracting officer or termination contracting officer does not—

(1) Require that a duty be performed at a particular office or activity; or

(2) Restrict in any way a contracting officer in the performance of any duty properly assigned.

“Contracting officer’s representative (COR)” means an individual, including a contracting officer’s technical representative (COTR), designated and authorized in writing by the contracting officer to perform specific technical or administrative functions.

“Conviction” means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of *nolo contendere*. For use in [Subpart 23.5](#), see the definition at [23.503](#).

“Cost or pricing data” ([10 U.S.C. 2306a\(h\)\(1\)](#) and [41 U.S.C. 254b](#)) means all facts that, as of the date of price agreement, or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price, prudent buyers and sellers would reasonably expect to affect price negotiations significantly. Cost or pricing data are factual, not judgmental; and are verifiable.

While they do not indicate the accuracy of the prospective contractor's judgment about estimated future costs or projections, they do include the data forming the basis for that judgment. Cost or pricing data are more than historical accounting data; they are all the facts that can be reasonably expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred. They also include, but are not limited to, such factors as—

- (1) Vendor quotations;
- (2) Nonrecurring costs;
- (3) Information on changes in production methods and in production or purchasing volume;
- (4) Data supporting projections of business prospects and objectives and related operations costs;

- (3) Are consistent with the various elements of the offeror's technical proposal.

“Cost sharing” means an explicit arrangement under which the contractor bears some of the burden of reasonable, allocable, and allowable contract cost.

“Customs territory of the United States” means the 50 States, the District of Columbia, and Puerto Rico.

“Data other than certified cost or pricing data” means pricing data, cost data, and judgmental information necessary for the contracting officer to determine a fair and reasonable price or to determine cost realism. Such data may include the identical types of data as certified cost or pricing data, consistent with [Table 15-2](#) of [15.408](#), but without the certification. The data may also include, for example, sales data and any information reasonably required to explain the offeror's estimating process, including, but not limited to—

- (1) The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and
- (2) The nature and amount of any contingencies included in the proposed price.

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B), to identify unique business entities, which is used as the identification number for Federal contractors.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern.

(D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see [Subpart 32.11](#)) for the same concern.

“Day” means, unless otherwise specified, a calendar day.

“Debarment” means action taken by a debarring official under [9.406](#) to exclude a contractor from Government contracting and Government-approved subcontracting for a reasonable, specified period; a contractor that is excluded is “debarred.”

“Delivery order” means an order for supplies placed against an established contract or with Government sources.

“Depreciation” means a charge to current operations that distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life refers to the prospective period of economic usefulness in a particular contractor's operations as distinguished from physical life; it is evidenced by the actual or estimated retirement and replacement practice of the contractor.

(2) Classified contracts (see [2.101](#)) when registration in the CCR database, or use of CCR data, could compromise the safeguarding of classified information or national security;

(3) Contracts awarded by—

(1) Shall verify that the prospective contractor is registered in the CCR database (see paragraph (b) of this section) before awarding a contract or agreement. Contracting officers are encouraged to check the CCR early in the acquisition process, after the competitive range has been established, and then communicate to the unregistered offerors that they must register;

(2) Should use the DUNS number or, if applicable, the DUNS+4 number, to verify registration—

(i) Via the Internet via <https://www.acquisition.gov>;

(ii) By calling toll-free: 1-888-227-2423, commercial: (269) 961-5757, or Defense Switched Network (DSN) (used at certain Department of Defense locations): 932-5757; or

(iii) As otherwise provided by agency procedures; and

(3) Need not verify registration before placing an order or call if the contract or agreement includes the clause at

[52.204-7](#), or [52.212-4\(t\)](#), or a similar agency clause, except when use of the Governmentwide commercial purchase card is contemplated as a method of payment. (See [32.1108\(b\)\(2\)](#)).

(b) If the contracting officer, when awarding a contract or agreement, determines that a prospective contractor is not registered in the CCR database and an exception to the registration requirements for the award does not apply (see [4.1102](#)), the contracting officer shall—

(1) If the needs of the requiring activity allow for a delay, make award after the apparently successful offeror has registered in the CCR database. The contracting officer shall advise the offeror of the number of days it will be allowed to become registered. If the offeror does not become registered by the required date, the contracting officer shall award to the next otherwise successful registered offeror following the same procedures (*i.e.*, if the next apparently successful offeror is not registered, the contracting officer shall advise the offeror of the number of days it will be allowed to become registered, etc.); or

(2) If the needs of the requiring activity do not allow for a delay, proceed to award to the next otherwise successful reg-

istered offeror, provided that written approval is obtained at one level above the contracting officer.

(c) Agencies shall protect against improper disclosure of contractor CCR information.

(d) The contracting officer shall, on contractual documents transmitted to the payment office, provide the DUNS number, or, if applicable, the DUNS+4, in accordance with agency procedures.

4.1104 Disaster Response Registry.

Contracting officers shall consult the Disaster Response Registry via <https://www.acquisition.gov> when contracting for debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities inside the United States and outlying areas. (See [26.205](#)).

4.1105 Solicitation provision and contract clauses.

Except as provided in [4.1102\(a\)](#), use the clause at [52.204-7](#), Central Contractor Registration, in solicitations and contracts.

Subpart 4.12—Representations and Certifications

4.1200 Scope.

This subpart prescribes policies and procedures for requiring submission and maintenance of representations and certifications via the Online Representations and Certifications Application (ORCA) to—

(a) Eliminate the administrative burden for contractors of submitting the same information to various contracting offices; and

(b) Establish a common source for this information to procurement offices across the Government.

4.1201 Policy.

(a) Prospective contractors shall complete electronic annual representations and certifications at ORCA accessed via <https://www.acquisition.gov> in conjunction with required registration in the Central Contractor Registration (CCR) database (see FAR [4.1102](#)).

(b)(1) Prospective contractors shall update the representations and certifications submitted to ORCA as necessary, but at least annually, to ensure they are kept current, accurate, and complete. The representations and certifications are effective until one year from date of submission or update to ORCA.

(2) When any of the conditions in paragraph (b) of the clause at [52.219-28](#), Post-Award Small Business Program Rerepresentation, apply, contractors that represented they were small businesses prior to award of a contract must update the representations and certifications in ORCA as directed by the clause. Contractors that represented they were other than small businesses prior to award of a contract may update the representations and certifications in ORCA as directed by the clause, if their size status has changed since contract award.

(c) Data in ORCA is archived and is electronically retrievable. Therefore, when a prospective contractor has completed representations and certifications electronically via ORCA, the contracting officer must reference the date of ORCA verification in the contract file, or include a paper copy of the electronically-submitted representations and certifications in the file. Either of these actions satisfies contract file documentation requirements of [4.803\(a\)\(11\)](#). However, if an offeror identifies changes to ORCA data pursuant to the FAR provisions at [52.204-8\(d\)](#) or [52.212-3\(b\)](#), the contracting officer must include a copy of the changes in the contract file.

4.1202 Solicitation provision and contract clause.

Except for commercial item solicitations issued under FAR [Part 12](#), insert in solicitations the provision at [52.204-8](#), Annual Representations and Certifications. The contracting officer shall check the applicable provisions at

[52.204-8\(c\)\(2\)](#). When the clause at [52.204-7](#), Central Contractor Registration, is included in the solicitation, do not include the following representations and certifications:

(a) [52.203-2](#), Certificate of Independent Price Determination.

(b) [52.203-11](#), Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions.

Subpart 5.2—Synopsis of Proposed Contract Actions

5.201 General.

(a) As required by the Small Business Act ([15 U.S.C. 637\(e\)](#)) and the Office of Federal Procurement Policy Act ([41 U.S.C. 416](#)), agencies must make notices of proposed contract actions available as specified in paragraph (b) of this section.

(b)(1) For acquisitions of supplies and services, other than those covered by the exceptions in [5.202](#) and the special situations in [5.205](#), the contracting officer must transmit a notice to the GPE, for each proposed—

(i) Contract action meeting the threshold in [5.101\(a\)\(1\)](#);

(ii) Modification to an existing contract for additional supplies or services that meets the threshold in [5.101\(a\)\(1\)](#); or

(iii) Contract action in any amount when advantageous to the Government.

(2) When transmitting notices using electronic commerce, contracting officers must ensure the notice is forwarded to the GPE.

(c) The primary purposes of the notice are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities.

(d) The GPE may be accessed via the Internet at <http://www.fedbizopps.gov>.

5.202 Exceptions.

The contracting officer need not submit the notice required by [5.201](#) when—

(a) The contracting officer determines that—

(1) The synopsis cannot be worded to preclude disclosure of an agency's needs and such disclosure would compromise the national security (*e.g.*, would result in disclosure of classified information). The fact that a proposed solicitation or contract action contains classified information, or that access to classified matter may be necessary to submit a proposal or perform the contract does not, in itself, justify use of this exception to synopsis;

(2) The proposed contract action is made under the conditions described in [6.302-2](#) (or, for purchases conducted using simplified acquisition procedures, if unusual and compelling urgency precludes competition to the maximum extent practicable) and the Government would be seriously injured if the agency complies with the time periods specified in [5.203](#);

(3) The proposed contract action is one for which either the written direction of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government, or the terms of an international

agreement or treaty between the United States and a foreign government, or international organizations, has the effect of requiring that the acquisition shall be from specified sources;

(4) The proposed contract action is expressly authorized or required by a statute to be made through another Government agency, including acquisitions from the Small Business Administration (SBA) using the authority of section 8(a) of the Small Business Act (but see [5.205\(f\)](#)), or from a specific source such as a workshop for the blind under the rules of the Committee for the Purchase from the Blind and Other Severely Handicapped;

(5) The proposed contract action is for utility services other than telecommunications services and only one source is available;

(6) The proposed contract action is an order placed under subpart [16.5](#). When the order contains brand-name specifications, see especially [16.505\(a\)\(4\)](#);

(7) The proposed contract action results from acceptance of a proposal under the Small Business Innovation Development Act of 1982 (Pub. L. 97-219);

(8) The proposed contract action results from the acceptance of an unsolicited research proposal that demonstrates a unique and innovative concept (see [2.101](#)) and publication of any notice complying with [5.207](#) would improperly disclose the originality of thought or innovativeness of the proposed research, or would disclose proprietary information associated with the proposal. This exception does not apply if the proposed contract action results from an unsolicited research proposal and acceptance is based solely upon the unique capability of the source to perform the particular research services proposed (see [6.302-1\(a\)\(2\)\(i\)](#));

(9) The proposed contract action is made for perishable subsistence supplies, and advance notice is not appropriate or reasonable;

(10) The proposed contract action is made under conditions described in [6.302-3](#), or [6.302-5](#) with regard to brand name commercial items for authorized resale, or [6.302-7](#), and advance notice is not appropriate or reasonable;

(11) The proposed contract action is made under the terms of an existing contract that was previously synopsisized in sufficient detail to comply with the requirements of [5.207](#) with respect to the current proposed contract action;

(12) The proposed contract action is by a Defense agency and the proposed contract action will be made and performed outside the United States and its outlying areas, and only local sources will be solicited. This exception does not apply to proposed contract actions covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement (see [Subpart 25.4](#));

(13) The proposed contract action—

(i) Is for an amount not expected to exceed the simplified acquisition threshold;

(ii) Will be made through a means that provides access to the notice of proposed contract action through the GPE; and

(iii) Permits the public to respond to the solicitation electronically; or

(14) The proposed contract action is made under conditions described in [6.302-3](#) with respect to the services of an expert to support the Federal Government in any current or anticipated litigation or dispute.

(b) The head of the agency determines in writing, after consultation with the Administrator for Federal Procurement Policy and the Administrator of the Small Business Administration, that advance notice is not appropriate or reasonable.

5.203 Publicizing and response time.

Whenever agencies are required to publicize notice of proposed contract actions under [5.201](#), they must proceed as follows:

(a) An agency must transmit a notice of proposed contract action to the GPE (see [5.201](#)). All publicizing and response times are calculated based on the date of publication. The publication date is the date the notice appears on the GPE. The notice must be published at least 15 days before issuance of a solicitation, or a proposed contract action the Government intends to solicit and negotiate with only one source under the authority of [6.302](#), except that, for acquisitions of commercial items, the contracting officer may—

(1) Establish a shorter period for issuance of the solicitation; or

(2) Use the combined synopsis and solicitation procedure (see [12.603](#)).

(b) The contracting officer must establish a solicitation response time that will afford potential offerors a reasonable opportunity to respond to each proposed contract action, (including actions where the notice of proposed contract action and solicitation information is accessible through the GPE), in an amount estimated to be greater than \$25,000, but not greater than the simplified acquisition threshold; or each contract action for the acquisition of commercial items in an amount estimated to be greater than \$25,000. The contracting officer should consider the circumstances of the individual acquisition, such as the complexity, commerciality, availability, and urgency, when establishing the solicitation response time.

(c) Except for the acquisition of commercial items (see [5.203\(b\)](#)), agencies shall allow at least a 30-day response time for receipt of bids or proposals from the date of issuance of a solicitation, if the proposed contract action is expected to exceed the simplified acquisition threshold.

(d) Agencies shall allow at least a 30 day response time from the date of publication of a proper notice of intent to contract for architect-engineer services or before issuance of an order under a basic ordering agreement or similar arrangement if the proposed contract action is expected to exceed the simplified acquisition threshold.

(e) Agencies must allow at least a 45-day response time for receipt of bids or proposals from the date of publication of the notice required in [5.201](#) for proposed contract actions categorized as research and development if the proposed contract action is expected to exceed the simplified acquisition threshold.

(f) Nothing in this subpart prohibits officers or employees of agencies from responding to requests for information.

(g) Contracting officers may, unless they have evidence to the contrary, presume the notice was published one day after transmission to the GPE. This presumption does not negate the mandatory waiting or response times specified in paragraphs (a) through (d) of this section. Upon learning that a particular notice has not in fact been published within the presumed timeframes, contracting officers should consider whether the date for receipt of offers can be extended or whether circumstances have become sufficiently compelling to justify proceeding with the proposed contract action under the authority of [5.202\(a\)\(2\)](#).

(h) In addition to other requirements set forth in this section, for acquisitions covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement (see [Subpart 25.4](#)), the period of time between publication of the synopsis notice and receipt of offers must be no less than 40 days. However, if the acquisition falls within a general category identified in an annual forecast, the availability of which is published, the contracting officer may reduce this time period to as few as 10 days.

5.204 Presolicitation notices.

Contracting officers must provide access to presolicitation notices through the GPE (see [15.201](#) and [36.213-2](#)). The contracting officer must synopsise a proposed contract action before issuing any resulting solicitation (see [5.201](#) and [5.203](#)).

5.205 Special situations.

(a) *Research and development (R&D) advance notices.* Contracting officers may transmit to the GPE advance notices of their interest in potential R&D programs whenever market research does not produce a sufficient number of concerns to obtain adequate competition. Advance notices must not be used where security considerations prohibit such publication. Advance notices will enable potential sources to learn of R&D programs and provide these sources with an opportunity to submit information which will permit evaluation of their capabilities. Contracting officers must consider potential sources which respond to advance notices for a subsequent solicitation. Advanced notices must be entitled “Research and Development Sources Sought” and include the name and telephone number of the contracting officer or other contracting activity official from whom technical details of the project can be obtained. This will enable sources to submit information for evaluation of their R&D capabilities. Contracting officers

Subpart 6.3—Other Than Full and Open Competition

6.300 Scope of subpart.

This subpart prescribes policies and procedures, and identifies the statutory authorities, for contracting without providing for full and open competition.

6.301 Policy.

(a) [41 U.S.C. 253\(c\)](#) and [10 U.S.C. 2304\(c\)](#) each authorize, under certain conditions, contracting without providing for full and open competition. The Department of Defense, Coast Guard, and National Aeronautics and Space Administration are subject to [10 U.S.C. 2304\(c\)](#). Other executive agencies are subject to [41 U.S.C. 253\(c\)](#). Contracting without providing for full and open competition or full and open competition after exclusion of sources is a violation of statute, unless permitted by one of the exceptions in [6.302](#).

(b) Each contract awarded without providing for full and open competition shall contain a reference to the specific authority under which it was so awarded. Contracting officers shall use the U.S. Code citation applicable to their agency (see [6.302](#)).

(c) Contracting without providing for full and open competition shall not be justified on the basis of—

- (1) A lack of advance planning by the requiring activity; or
- (2) Concerns related to the amount of funds available (e.g., funds will expire) to the agency or activity for the acquisition of supplies or services.

(d) When not providing for full and open competition, the contracting officer shall solicit offers from as many potential sources as is practicable under the circumstances.

(e) For contracts under this subpart, the contracting officer shall use the contracting procedures prescribed in [6.102\(a\)](#) or (b), if appropriate, or any other procedures authorized by this regulation.

6.302 Circumstances permitting other than full and open competition.

The following statutory authorities (including applications and limitations) permit contracting without providing for full and open competition. Requirements for justifications to support the use of these authorities are in [6.303](#).

6.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

(a) *Authority.*(1) Citations: [10 U.S.C. 2304\(c\)\(1\)](#) or [41 U.S.C. 253\(c\)\(1\)](#).

(2) When the supplies or services required by the agency are available from only one responsible source, or, for DoD, NASA, and the Coast Guard, from only one or a limited number of responsible sources, and no other type of supplies

or services will satisfy agency requirements, full and open competition need not be provided for.

(i) Supplies or services may be considered to be available from only one source if the source has submitted an unsolicited research proposal that—

(A) Demonstrates a unique and innovative concept (see definition at [2.101](#)), or, demonstrates a unique capability of the source to provide the particular research services proposed;

(B) Offers a concept or services not otherwise available to the Government; and

(C) Does not resemble the substance of a pending competitive acquisition. (See [10 U.S.C. 2304\(d\)\(1\)\(A\)](#) and [41 U.S.C. 253\(d\)\(1\)\(A\)](#).)

(ii) Supplies may be deemed to be available only from the original source in the case of a follow-on contract for the continued development or production of a major system or highly specialized equipment, including major components thereof, when it is likely that award to any other source would result in—

(A) Substantial duplication of cost to the Government that is not expected to be recovered through competition; or

(B) Unacceptable delays in fulfilling the agency's requirements. (See [10 U.S.C. 2304\(d\)\(1\)\(B\)](#) or [41 U.S.C. 253\(d\)\(1\)\(B\)](#).)

(iii) For DoD, NASA, and the Coast Guard, services may be deemed to be available only from the original source in the case of follow-on contracts for the continued provision of highly specialized services when it is likely that award to any other source would result in—

(A) Substantial duplication of cost to the Government that is not expected to be recovered through competition; or

(B) Unacceptable delays in fulfilling the agency's requirements. (See [10 U.S.C. 2304\(d\)\(1\)\(B\)](#).)

(b) *Application.* This authority shall be used, if appropriate, in preference to the authority in [6.302-7](#); it shall not be used when any of the other circumstances is applicable. Use of this authority may be appropriate in situations such as the following (these examples are not intended to be all inclusive and do not constitute authority in and of themselves):

(1) When there is a reasonable basis to conclude that the agency's minimum needs can only be satisfied by—

(i) Unique supplies or services available from only one source or only one supplier with unique capabilities; or

(ii) For DoD, NASA, and the Coast Guard, unique supplies or services available from only one or a limited number of sources or from only one or a limited number of suppliers with unique capabilities.

(2) The existence of limited rights in data, patent rights, copyrights, or secret processes; the control of basic raw material; or similar circumstances, make the supplies and services

available from only one source (however, the mere existence of such rights or circumstances does not in and of itself justify the use of these authorities) (see [Part 27](#)).

(3) When acquiring utility services (see [41.101](#)), circumstances may dictate that only one supplier can furnish the service (see [41.202](#)); or when the contemplated contract is for construction of a part of a utility system and the utility company itself is the only source available to work on the system.

(4) When the agency head has determined in accordance with the agency's standardization program that only specified makes and models of technical equipment and parts will satisfy the agency's needs for additional units or replacement items, and only one source is available.

(c) *Application for brand-name descriptions.* (1) An acquisition or portion of an acquisition that uses a brand-name description or other purchase description to specify a particular brand-name, product, or feature of a product, peculiar to one manufacturer—

(i) Does not provide for full and open competition, regardless of the number of sources solicited; and

(ii) Shall be justified and approved in accordance with [6.303](#) and [6.304](#).

(A) If only a portion of the acquisition is for a brand-name product or item peculiar to one manufacturer, the justification and approval is to cover only the portion of the acquisition which is brand-name or peculiar to one manufacturer. The justification should state it is covering only the portion of the acquisition which is brand-name or peculiar to one manufacturer, and the approval level requirements will then only apply to that portion;

(B) The justification should indicate that the use of such descriptions in the acquisition or portion of an acquisition is essential to the Government's requirements, thereby precluding consideration of a product manufactured by another company; and

(C) The justification shall be posted with the solicitation (see [5.102\(a\)\(6\)](#)).

(2) Brand-name or equal descriptions, and other purchase descriptions that permit prospective contractors to offer products other than those specifically referenced by brand-name, provide for full and open competition and do not require justifications and approvals to support their use.

(d) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in [6.303](#) and [6.304](#).

(2) For contracts awarded using this authority, the notices required by [5.201](#) shall have been published and any bids, proposals, quotations, or capability statements must have been considered.

6.302-2 Unusual and compelling urgency.

(a) *Authority.* (1) Citations: [10 U.S.C. 2304\(c\)\(2\)](#) or [41 U.S.C. 253\(c\)\(2\)](#).

(2) When the agency's need for the supplies or services is of such an unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals, full and open competition need not be provided for.

(b) *Application.* This authority applies in those situations where—

(1) An unusual and compelling urgency precludes full and open competition; and

(2) Delay in award of a contract would result in serious injury, financial or other, to the Government.

(c) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in [6.303](#) and [6.304](#). These justifications may be made and approved after contract award when preparation and approval prior to award would unreasonably delay the acquisition.

(2) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

(d) *Period of Performance.* (1) The total period of performance of a contract awarded using this authority—

(i) May not exceed the time necessary—

(A) To meet the unusual and compelling requirements of the work to be performed under the contract; and

(B) For the agency to enter into another contract for the required goods and services through the use of competitive procedures; and

(ii) May not exceed one year unless the head of the agency entering into the contract determines that exceptional circumstances apply.

(2) The requirements in paragraph (d)(1) of this section shall apply to any contract in an amount greater than the simplified acquisition threshold.

(3) The determination of exceptional circumstances is in addition to the approval of the justification in [6.304](#).

(4) The determination may be made after contract award when making the determination prior to award would unreasonably delay the acquisition.

6.302-3 Industrial mobilization; engineering, developmental, or research capability; or expert services.

(a) *Authority.* (1) Citations: [10 U.S.C. 2304\(c\)\(3\)](#) or [41 U.S.C. 253\(c\)\(3\)](#).

(2) Full and open competition need not be provided for when it is necessary to award the contract to a particular source or sources in order—

(i) To maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization;

(ii) To establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center; or

(iii) To acquire the services of an expert or neutral person for any current or anticipated litigation or dispute.

(b) *Application.*(1) Use of the authority in paragraph (a)(2)(i) of this subsection may be appropriate when it is necessary to—

(i) Keep vital facilities or suppliers in business or make them available in the event of a national emergency;

(ii) Train a selected supplier in the furnishing of critical supplies or services; prevent the loss of a supplier's ability and employees' skills; or maintain active engineering, research, or development work;

(iii) Maintain properly balanced sources of supply for meeting the requirements of acquisition programs in the interest of industrial mobilization (when the quantity required is substantially larger than the quantity that must be awarded in order to meet the objectives of this authority, that portion not required to meet such objectives will be acquired by providing for full and open competition, as appropriate, under this part);

(iv) Limit competition for current acquisition of selected supplies or services approved for production planning under the Department of Defense Industrial Preparedness Program to planned producers with whom industrial preparedness agreements for those items exist, or limit award to offerors who agree to enter into industrial preparedness agreements;

(v) Create or maintain the required domestic capability for production of critical supplies by limiting competition to items manufactured in—

(A) The United States or its outlying areas; or

(B) The United States, its outlying areas, or Canada.

(vi) Continue in production, contractors that are manufacturing critical items, when there would otherwise be a break in production; or

(vii) Divide current production requirements among two or more contractors to provide for an adequate industrial mobilization base.

(2) Use of the authority in paragraph (a)(2)(ii) of this subsection may be appropriate when it is necessary to—

(i) Establish or maintain an essential capability for theoretical analyses, exploratory studies, or experiments in any field of science or technology;

(ii) Establish or maintain an essential capability for engineering or developmental work calling for the practical application of investigative findings and theories of a scientific or technical nature; or

(iii) Contract for supplies or services as are necessary incident to paragraphs (b)(2)(i) or (ii) of this subsection.

(3) Use of the authority in paragraph (a)(2)(iii) of this subsection may be appropriate when it is necessary to acquire the services of either—

(i) An expert to use, in any litigation or dispute (including any reasonably foreseeable litigation or dispute) involving the Government in any trial, hearing, or proceeding before any court, administrative tribunal, or agency, whether or not the expert is expected to testify. Examples of such services include, but are not limited to:

(A) Assisting the Government in the analysis, presentation, or defense of any claim or request for adjustment to contract terms and conditions, whether asserted by a contractor or the Government, which is in litigation or dispute, or is anticipated to result in dispute or litigation before any court, administrative tribunal, or agency; or

(B) Participating in any part of an alternative dispute resolution process, including but not limited to evaluators, fact finders, or witnesses, regardless of whether the expert is expected to testify; or

(ii) A neutral person, *e.g.*, mediators or arbitrators, to facilitate the resolution of issues in an alternative dispute resolution process.

(c) *Limitations.* Contracts awarded using this authority shall be supported by the written justifications and approvals described in [6.303](#) and [6.304](#).

6.302-4 International agreement.

(a) *Authority.*(1) Citations: [10 U.S.C. 2304\(c\)\(4\)](#) or [41 U.S.C. 253\(c\)\(4\)](#).

(2) Full and open competition need not be provided for when precluded by the terms of an international agreement or a treaty between the United States and a foreign government or international organization, or the written directions of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government.

(b) *Application.* This authority may be used in circumstances such as—

(1) When a contemplated acquisition is to be reimbursed by a foreign country that requires that the product be obtained from a particular firm as specified in official written direction such as a Letter of Offer and Acceptance; or

(2) When a contemplated acquisition is for services to be performed, or supplies to be used, in the sovereign territory of another country and the terms of a treaty or agreement specify or limit the sources to be solicited.

(c) *Limitations.* Except for DoD, NASA, and the Coast Guard, contracts awarded using this authority shall be supported by written justifications and approvals described in [6.303](#) and [6.304](#).

6.302-5 Authorized or required by statute.

(a) *Authority.*(1) Citations: [10 U.S.C. 2304\(c\)\(5\)](#) or [41 U.S.C. 253\(c\)\(5\)](#).

(2) Full and open competition need not be provided for when—

(i) A statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source; or

(ii) The agency's need is for a brand name commercial item for authorized resale.

(b) *Application.* This authority may be used when statutes, such as the following, expressly authorize or require that acquisition be made from a specified source or through another agency:

(1) Federal Prison Industries (UNICOR)—[18 U.S.C. 4124](#) (see [Subpart 8.6](#)).

(2) Qualified Nonprofit Agencies for the Blind or other Severely Disabled—[41 U.S.C. 46-48c](#) (see [Subpart 8.7](#)).

(3) Government Printing and Binding—[44 U.S.C. 501-504](#), 1121 (see [Subpart 8.8](#)).

(4) Sole source awards under the 8(a) Program (15 U.S.C. 637), but see [6.303](#) for requirements for justification and approval of sole-source 8(a) awards over \$20 million. (See subpart [19.8](#)).

(5) Sole source awards under the HUBZone Act of 1997—[15 U.S.C. 657a](#) (see [19.1306](#)).

(6) Sole source awards under the Veterans Benefits Act of 2003 ([15 U.S.C. 657f](#)).

(c) *Limitations.*(1) This authority shall not be used when a provision of law requires an agency to award a new contract to a specified non-Federal Government entity unless the provision of law specifically—

(i) Identifies the entity involved;

(ii) Refers to [10 U.S.C. 2304\(j\)](#) for armed services acquisitions or section 303(h) of the Federal Property and Administrative Services Act of 1949 for civilian agency acquisitions; and

(iii) States that award to that entity shall be made in contravention of the merit-based selection procedures in [10 U.S.C. 2304\(j\)](#) or section 303(h) of the Federal Property and Administrative Services Act, as appropriate. However, this limitation does not apply—

(A) When the work provided for in the contract is a continuation of the work performed by the specified entity under a preceding contract; or

(B) To any contract requiring the National Academy of Sciences to investigate, examine, or experiment upon any subject of science or art of significance to an executive agency and to report on those matters to the Congress or any agency of the Federal Government.

(2) Contracts awarded using this authority shall be supported by the written justifications and approvals described in [6.303](#) and [6.304](#), except for—

(i) Contracts awarded under (a)(2)(ii) or (b)(2) of this subsection;

(ii) Contracts awarded under (a)(2)(i) of this subsection when the statute expressly requires that the procurement be made from a specified source. (Justification and approval requirements apply when the statute authorizes, but does not require, that the procurement be made from a specified source); or

(iii) Contracts less than or equal to \$20 million awarded under (b)(4) of this subsection.

(3) The authority in (a)(2)(ii) of this subsection may be used only for purchases of brand-name commercial items for resale through commissaries or other similar facilities. Ordinarily, these purchases will involve articles desired or preferred by customers of the selling activities (but see [6.301\(d\)](#)).

6.302-6 National security.

(a) *Authority.*(1) Citations: [10 U.S.C. 2304\(c\)\(6\)](#) or [41 U.S.C. 253\(c\)\(6\)](#).

(2) Full and open competition need not be provided for when the disclosure of the agency's needs would compromise the national security unless the agency is permitted to limit the number of sources from which it solicits bids or proposals.

(b) *Application.* This authority may be used for any acquisition when disclosure of the Government's needs would compromise the national security (e.g., would violate security requirements); it shall not be used merely because the acquisition is classified, or merely because access to classified matter will be necessary to submit a proposal or to perform the contract.

(c) *Limitations.*(1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in [6.303](#) and [6.304](#).

(2) See [5.202\(a\)\(1\)](#) for synopsis requirements.

(3) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

6.302-7 Public interest.

(a) *Authority.*(1) Citations: [10 U.S.C. 2304\(c\)\(7\)](#) or [41 U.S.C. 253\(c\)\(7\)](#).

(2) Full and open competition need not be provided for when the agency head determines that it is not in the public interest in the particular acquisition concerned.

(b) *Application.* This authority may be used when none of the other authorities in [6.302](#) apply.

(c) *Limitations.*(1) A written determination to use this authority shall be made in accordance with [Subpart 1.7](#), by—

(i) The Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Homeland Security for the Coast Guard, or the Administrator of the National Aeronautics and Space Administration; or

(ii) The head of any other executive agency. This authority may not be delegated.

(2) The Congress shall be notified in writing of such determination not less than 30 days before award of the contract.

(3) If required by the head of the agency, the contracting officer shall prepare a justification to support the determination under paragraph (c)(1) of this subsection.

(4) This Determination and Finding (D&F) shall not be made on a class basis.

6.303 Justifications.

6.303-1 Requirements.

(a) A contracting officer shall not commence negotiations for a sole source contract, commence negotiations for a contract resulting from an unsolicited proposal, or award any other contract without providing for full and open competition unless the contracting officer—

(1) Justifies, if required in [6.302](#), the use of such actions in writing;

(2) Certifies the accuracy and completeness of the justification; and

(3) Obtains the approval required by [6.304](#).

(b) The contracting officer shall not award a sole-source contract under the 8(a) authority (15 U.S.C. 637(a)) for an amount exceeding \$20 million unless—

(1) The contracting officer justifies the use of a sole-source contract in writing in accordance with [6.303-2](#);

(2) The justification is approved by the appropriate official designated at [6.304](#); and

(3) The justification and related information are made public after award in accordance with [6.305](#).

(c) Technical and requirements personnel are responsible for providing and certifying as accurate and complete necessary data to support their recommendation for other than full and open competition.

(d) Justifications required by paragraph (a) of this section may be made on an individual or class basis. Any justification for contracts awarded under the authority of [6.302-7](#) shall only be made on an individual basis. Whenever a justification is made and approved on a class basis, the contracting officer must ensure that each contract action taken pursuant to the authority of the class justification and approval is within the scope of the class justification and approval and shall document the contract file for each contract action accordingly.

(e) The justifications for contracts awarded under the authority cited in [6.302-2](#) may be prepared and approved within a reasonable time after contract award when preparation and approval prior to award would unreasonably delay the acquisitions.

6.303-2 Content.

(a) Each justification shall contain sufficient facts and rationale to justify the use of the specific authority cited.

(b) As a minimum, each justification, except those for sole-source 8(a) contracts over \$20 million (see paragraph (d) of this section), shall include the following information:

(1) Identification of the agency and the contracting activity, and specific identification of the document as a “Justification for other than full and open competition.”

(2) Nature and/or description of the action being approved.

(3) A description of the supplies or services required to meet the agency’s needs (including the estimated value).

(4) An identification of the statutory authority permitting other than full and open competition.

(5) A demonstration that the proposed contractor’s unique qualifications or the nature of the acquisition requires use of the authority cited.

(6) A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable, including whether a notice was or will be publicized as required by [Subpart 5.2](#) and, if not, which exception under [5.202](#) applies.

(7) A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

(8) A description of the market research conducted (see [Part 10](#)) and the results or a statement of the reason market research was not conducted.

(9) Any other facts supporting the use of other than full and open competition, such as:

(i) Explanation of why technical data packages, specifications, engineering descriptions, statements of work, or purchase descriptions suitable for full and open competition have not been developed or are not available.

(ii) When [6.302-1](#) is cited for follow-on acquisitions as described in [6.302-1\(a\)\(2\)\(ii\)](#), an estimate of the cost to the Government that would be duplicated and how the estimate was derived.

(iii) When [6.302-2](#) is cited, data, estimated cost, or other rationale as to the extent and nature of the harm to the Government.

(10) A listing of the sources, if any, that expressed, in writing, an interest in the acquisition.

(11) A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

(12) Contracting officer certification that the justification is accurate and complete to the best of the contracting officer’s knowledge and belief.

(c) Each justification shall include evidence that any supporting data that is the responsibility of technical or requirements personnel (*e.g.*, verifying the Government’s minimum needs or schedule requirements or other rationale for other than full and open competition) and which form a basis for the

justification have been certified as complete and accurate by the technical or requirements personnel.

(d) As a minimum, each justification for a sole-source 8(a) contract over \$20 million shall include the following information:

(1) A description of the needs of the agency concerned for the matters covered by the contract.

(2) A specification of the statutory provision providing the exception from the requirement to use competitive procedures in entering into the contract (see [19.805-1](#)).

(3) A determination that the use of a sole-source contract is in the best interest of the agency concerned.

(4) A determination that the anticipated cost of the contract will be fair and reasonable.

(5) Such other matters as the head of the agency concerned shall specify for purposes of this section.

6.304 Approval of the justification.

(a) Except for paragraph (b) of this section, the justification for other than full and open competition shall be approved in writing—

(1) For a proposed contract not exceeding \$650,000, the contracting officer's certification required by [6.303-2\(b\)\(12\)](#) will serve as approval unless a higher approving level is established in agency procedures.

(2) For a proposed contract over \$650,000 but not exceeding \$12.5 million, by the competition advocate for the procuring activity designated pursuant to [6.501](#) or an official described in paragraph (a)(3) or (a)(4) of this section. This authority is not delegable.

(3) For a proposed contract over \$12.5 million, but not exceeding \$62.5 million, or, for DoD, NASA, and the Coast Guard, not exceeding \$85.5 million, by the head of the procuring activity, or a designee who—

(i) If a member of the armed forces, is a general or flag officer; or

(ii) If a civilian, is serving in a position in a grade above GS-15 under the General Schedule (or in a comparable or higher position under another schedule).

(4) For a proposed contract over \$62.5 million or, for DoD, NASA, and the Coast Guard, over \$85.5 million, by the senior procurement executive of the agency designated pursuant to the OFPP Act ([41 U.S.C. 414\(3\)](#)) in accordance with agency procedures. This authority is not delegable except in the case of the Under Secretary of Defense for Acquisition, Technology, and Logistics, acting as the senior procurement executive for the Department of Defense.

(b) Any justification for a contract awarded under the authority of [6.302-7](#), regardless of dollar amount, shall be

considered approved when the determination required by [6.302-7\(c\)\(1\)](#) is made.

(c) A class justification for other than full and open competition shall be approved in writing in accordance with agency procedures. The approval level shall be determined by the estimated total value of the class.

(d) The estimated dollar value of all options shall be included in determining the approval level of a justification.

6.305 Availability of the justification.

(a) The agency shall make publicly available the justification required by 6.303-1 as required by [10 U.S.C. 2304\(l\)](#) and [41 U.S.C. 253\(j\)](#). Except for the circumstances in paragraphs (b) and (c) of this section, the justification shall be made publicly available within 14 days after contract award.

(b) In the case of a contract award permitted under [6.302-2](#), the justification shall be posted within 30 days after contract award.

(c) In the case of a brand name justification under [6.302-1\(c\)](#), the justification shall be posted with the solicitation (see [5.102\(a\)\(6\)](#)).

(d) The justifications shall be made publicly available—

(1) At the Government Point of Entry (GPE) www.fedbizopps.gov;

(2) On the website of the agency, which may provide access to the justifications by linking to the GPE; and

(3) Must remain posted for a minimum of 30 days.

(e) Contracting officers shall carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before making the justifications available for public inspection. Contracting officers shall also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act ([5 U.S.C. 552](#)) and the prohibitions against disclosure in [24.202](#) in determining whether the justification, or portions of it, are exempt from posting. Although the submitter notice process set out in EO 12600, entitled "Predisclosure Notification Procedures for Confidential Commercial Information," does not apply, if the justification appears to contain proprietary data, the contracting officer should provide the contractor that submitted the information an opportunity to review the justification for proprietary data, before making the justification available for public inspection, redacted as necessary. This process must not prevent or delay the posting of the justification in accordance with the timeframes required in paragraphs (a) through (c).

(f) The requirements of paragraphs (a) through (d) do not apply if posting the justification would disclose the executive agency's needs and disclosure of such needs would compromise national security or create other security risks.

7.000 Scope of part.

This part prescribes policies and procedures for—

- (a) Developing acquisition plans;
- (b) Determining whether to use commercial or Government resources for acquisition of supplies or services;
- (c) Deciding whether it is more economical to lease equipment rather than purchase it; and
- (d) Determining whether functions are inherently governmental.

Subpart 7.1—Acquisition Plans**7.101 Definitions.**

As used in this subpart—

“Acquisition streamlining” means any effort that results in more efficient and effective use of resources to design and develop, or produce quality systems. This includes ensuring that only necessary and cost-effective requirements are included, at the most appropriate time in the acquisition cycle, in solicitations and resulting contracts for the design, development, and production of new systems, or for modifications to existing systems that involve redesign of systems or subsystems.

“Life-cycle cost” means the total cost to the Government of acquiring, operating, supporting, and (if applicable) disposing of the items being acquired.

“Order” means an order placed under a—

- (1) Federal Supply Schedule contract; or
- (2) Task-order contract or delivery-order contract awarded by another agency, (*i.e.*, Governmentwide acquisition contract or multi-agency contract).

“Planner” means the designated person or office responsible for developing and maintaining a written plan, or for the planning function in those acquisitions not requiring a written plan.

7.102 Policy.

(a) Agencies shall perform acquisition planning and conduct market research (see [Part 10](#)) for all acquisitions in order to promote and provide for—

- (1) Acquisition of commercial items or, to the extent that commercial items suitable to meet the agency’s needs are not available, nondevelopmental items, to the maximum extent practicable ([10 U.S.C. 2377](#) and [41 U.S.C. 251, et seq.](#)); and
- (2) Full and open competition (see [Part 6](#)) or, when full and open competition is not required in accordance with [Part 6](#), to obtain competition to the maximum extent practicable, with due regard to the nature of the supplies or services to be acquired ([10 U.S.C. 2301\(a\)\(5\)](#) and [41 U.S.C. 253a\(a\)\(1\)](#)).
- (3) Selection of appropriate contract type in accordance with part [16](#).

(b) This planning shall integrate the efforts of all personnel responsible for significant aspects of the acquisition. The purpose of this planning is to ensure that the Government meets its needs in the most effective, economical, and timely manner. Agencies that have a detailed acquisition planning system

in place that generally meets the requirements of [7.104](#) and [7.105](#) need not revise their system to specifically meet all of these requirements.

7.103 Agency-head responsibilities.

The agency head or a designee shall prescribe procedures for—

(a) Promoting and providing for full and open competition (see [Part 6](#)) or, when full and open competition is not required in accordance with [Part 6](#), for obtaining competition to the maximum extent practicable, with due regard to the nature of the supplies and services to be acquired ([10 U.S.C. 2301\(a\)\(5\)](#) and [41 U.S.C. 253a\(a\)\(1\)](#)).

(b) Encouraging offerors to supply commercial items, or to the extent that commercial items suitable to meet the agency needs are not available, nondevelopmental items in response to agency solicitations ([10 U.S.C. 2377](#) and [41 U.S.C. 251, et seq.](#)); and

(c) Ensuring that acquisition planners address the requirement to specify needs, develop specifications, and to solicit offers in such a manner to promote and provide for full and open competition with due regard to the nature of the supplies and services to be acquired ([10 U.S.C. 2305\(a\)\(1\)\(A\)](#) and [41 U.S.C. 253a\(a\)\(1\)](#)). (See [Part 6](#) and [10.002](#).)

(d) Ensuring that acquisition planners document the file to support the selection of the contract type in accordance with subpart [16.1](#).

(e) Establishing criteria and thresholds at which increasingly greater detail and formality in the planning process is required as the acquisition becomes more complex and costly, including for cost-reimbursement and other high-risk contracts (*e.g.*, other than firm-fixed-price contracts) requiring a written acquisition plan. A written plan shall be prepared for cost reimbursement and other high-risk contracts other than firm-fixed-price contracts, although written plans may be required for firm-fixed-price contracts as appropriate.

(f) Ensuring that the statement of work is closely aligned with performance outcomes and cost estimates.

(g) Writing plans either on a systems basis, on an individual contract basis, or on an individual order basis, depending upon the acquisition.

(h) Ensuring that the principles of this subpart are used, as appropriate, for those acquisitions that do not require a written plan as well as for those that do.

(i) Designating planners for acquisitions.

(j) Reviewing and approving acquisition plans and revisions to these plans to ensure compliance with FAR requirements including [7.104](#) and part [16](#). For other than firm-fixed-price contracts, ensuring that the plan is approved and signed at least one level above the contracting officer.

(k) Establishing criteria and thresholds at which design-to-cost and life-cycle-cost techniques will be used.

(l) Establishing standard acquisition plan formats, if desired, suitable to agency needs; and

(m) Waiving requirements of detail and formality, as necessary, in planning for acquisitions having compressed delivery or performance schedules because of the urgency of the need.

(n) Assuring that the contracting officer, prior to contracting, reviews:

(1) The acquisition history of the supplies and services; and

(2) A description of the supplies, including, when necessary for adequate description, a picture, drawing, diagram, or other graphic representation.

(o) Ensuring that agency planners include use of the metric system of measurement in proposed acquisitions in accordance with [15 U.S.C. 205b](#) (see [11.002\(b\)](#)) and agency metric plans and guidelines.

(p) Ensuring that agency planners—

(1) Specify needs for printing and writing paper consistent with the 30 percent postconsumer fiber minimum content standards specified in section 2(d)(ii) of Executive Order 13423 of January 24, 2007, Strengthening Federal Environmental, Energy, and Transportation Management, and section 2(e)(iv) of Executive Order 13514 of October 5, 2009 (see [11.303](#))

(2) Comply with the policy in [11.002\(d\)](#) regarding procurement of: biobased products, products containing recovered materials, environmentally preferable products and services (including Electronic Product Environmental Assessment Tool (EPEAT)-registered electronic products, nontoxic or low-toxic alternatives), ENERGY STAR® and Federal Energy Management Program-designated products, renewable energy, water-efficient products, and non-ozone depleting products;

(3) Comply with the Guiding Principles for Federal Leadership in High-Performance and Sustainable Buildings (Guiding Principles), for the design, construction, renovation, repair, or deconstruction of Federal buildings. The Guiding Principles can be accessed at http://www.wbdg.org/pdfs/hpsb_guidance.pdf; and

(4) Require contractor compliance with Federal environmental requirements, when the contractor is operating Government-owned facilities or vehicles, to the same extent as the agency would be required to comply if the agency operated the facilities or vehicles.

(q) Ensuring that acquisition planners specify needs and develop plans, drawings, work statements, specifications, or other product descriptions that address Electronic and Information Technology Accessibility Standards (see 36 CFR Part 1194) in proposed acquisitions (see [11.002\(e\)](#)) and that these standards are included in requirements planning, as appropriate (see [Subpart 39.2](#)).

(r) Making a determination, prior to issuance of a solicitation for advisory and assistance services involving the analysis and evaluation of proposals submitted in response to a solicitation, that a sufficient number of covered personnel with the training and capability to perform an evaluation and analysis of proposals submitted in response to a solicitation are not readily available within the agency or from another Federal agency in accordance with the guidelines at [37.204](#).

(s) Ensuring that no purchase request is initiated or contract entered into that would result in the performance of an inherently governmental function by a contractor and that all con-

tracts or orders are adequately managed so as to ensure effective official control over contract or order performance.

(t) Ensuring that knowledge gained from prior acquisitions is used to further refine requirements and acquisition strategies. For services, greater use of performance-based acquisition methods should occur for follow-on acquisitions.

(u) Ensuring that acquisition planners, to the maximum extent practicable—

(1) Structure contract requirements to facilitate competition by and among small business concerns; and

(2) Avoid unnecessary and unjustified bundling that precludes small business participation as contractors (see [7.107](#)) ([15 U.S.C. 631\(j\)](#)).

(v) Ensuring that agency planners on information technology acquisitions comply with the capital planning and investment control requirements in [40 U.S.C. 11312](#) and OMB Circular A-130.

(w) Ensuring that agency planners on information technology acquisitions comply with the information technology security requirements in the Federal Information Security Management Act ([44 U.S.C. 3544](#)), OMB's implementing policies including Appendix III of OMB Circular A-130, and guidance and standards from the Department of Commerce's National Institute of Standards and Technology.

(x) Encouraging agency planners to consider the use of a project labor agreement (see subpart [22.5](#)).

(y) Ensuring that contracting officers consult the Disaster Response Registry via <https://www.acquisition.gov> as a part of acquisition planning for debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities inside the United States and outlying areas. (See [26.205](#)).

7.104 General procedures.

(a) Acquisition planning should begin as soon as the agency need is identified, preferably well in advance of the fiscal year in which contract award or order placement is necessary. In developing the plan, the planner shall form a team consisting of all those who will be responsible for significant aspects of the acquisition, such as contracting, fiscal, legal, and technical personnel. If contract performance is to be in a designated operational area or supporting a diplomatic or consular mission, the planner shall also consider inclusion of the combatant commander or chief of mission, as appropriate. The planner should review previous plans for similar acquisitions and discuss them with the key personnel involved in those acquisitions. At key dates specified in the plan or whenever significant changes occur, and no less often than annually, the planner shall review the plan and, if appropriate, revise it.

(b) Requirements and logistics personnel should avoid issuing requirements on an urgent basis or with unrealistic delivery or performance schedules, since it generally restricts competition and increases prices. Early in the planning process, the planner should consult with requirements and logistics personnel who determine type, quality, quantity, and delivery requirements.

(c) The planner shall coordinate with and secure the concurrence of the contracting officer in all acquisition planning.

(f) If the ordering activity issues an RFQ, the ordering activity shall provide the RFQ to any schedule contractor that requests a copy of it.

(g)(1) Ordering activities shall publicize contract actions funded in whole or in part by the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5):

(i) Notices of proposed MAS orders (including orders issued under BPAs) that are for “informational purposes only” exceeding \$25,000 shall follow the procedures in [5.704](#) for posting orders.

(ii) Award notices for MAS orders (including orders issued under BPAs) shall follow the procedures in [5.705](#).

(2) When an order is awarded or a Blanket Purchase Agreement is established with an estimated value greater than the simplified acquisition threshold and supported by a limited-source justification at [8.405-6\(a\)](#), the ordering activity contracting officer must—

(i) Publicize the action (see [5.301](#)); and

(ii) Post the justification in accordance with [8.405-6\(a\)\(2\)](#).

(h) *Type-of-order preference for services.* (1) The ordering activity shall specify the order type (*i.e.*, firm-fixed price, time-and-materials, or labor-hour) for the services offered on the schedule priced at hourly rates.

(2) Agencies shall use fixed-price orders for the acquisition of commercial services to the maximum extent practicable.

(3)(i) A time-and-materials or labor-hour order may be used for the acquisition of commercial services only when it is not possible at the time of placing the order to estimate accurately the extent or duration of the work or to anticipate costs with any reasonable degree of confidence.

(ii) Prior to the issuance of a time-and-materials or labor-hour order, the contracting officer shall—

(A) Execute a determination and findings (D&F) for the order, in accordance with paragraph (h)(3)(iii) of this section that a fixed-price order is not suitable;

(B) Include a ceiling price in the order that the contractor exceeds at its own risk; and

(C) When the total performance period, including options, is more than three years, the D&F prepared in accordance with this paragraph shall be signed by the contracting officer and approved by the head of the contracting activity prior to the execution of the base period.

(iii) The D&F required by paragraph (h)(3)(ii)(A) of this section shall contain sufficient facts and rationale to justify that a fixed-price order is not suitable. At a minimum, the D&F shall—

(A) Include a description of the market research conducted (see [8.404\(c\)](#) and [10.002\(e\)](#));

(B) Establish that it is not possible at the time of placing the order to accurately estimate the extent or duration

of the work or anticipate costs with any reasonable degree of confidence;

(C) Establish that the current requirement has been structured to maximize the use of fixed-price orders (*e.g.*, by limiting the value or length of the time-and-materials/labor-hour order; or, establishing fixed prices for portions of the requirement) on future acquisitions for the same or similar requirements; and

(D) Describe actions to maximize the use of fixed-price orders on future acquisitions for the same requirements.

(iv) The contracting officer shall authorize any subsequent change in the order ceiling price only upon a determination, documented in the order file, that it is in the best interest of the ordering activity to change the ceiling price.

8.405 Ordering procedures for Federal Supply Schedules.

Ordering activities shall use the ordering procedures of this section when placing an order or establishing a BPA for supplies or services. The procedures in this section apply to all schedules. For establishing BPAs and for orders under BPAs see [8.405-3](#).

8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

(a) Ordering activities shall use the procedures of this subsection when ordering supplies and services that are listed in the schedules contracts at a fixed price for the performance of a specific task, where a statement of work is not required (*e.g.*, installation, maintenance, and repair). For establishing BPAs and for orders under BPAs see [8.405-3](#).

(b) *Orders at or below the micro-purchase threshold.* Ordering activities may place orders at, or below, the micro-purchase threshold with any Federal Supply Schedule contractor that can meet the agency’s needs. Although not required to solicit from a specific number of schedule contractors, ordering activities should attempt to distribute orders among contractors.

(c) *Orders exceeding the micro-purchase threshold but not exceeding the simplified acquisition threshold.* Ordering activities shall place orders with the schedule contractor that can provide the supply or service that represents the best value. Before placing an order, an ordering activity shall:

(1) Consider reasonably available information about the supply or service offered under MAS contracts by surveying at least three schedule contractors through the GSA Advantage! on-line shopping service, by reviewing the catalogs or pricelists of at least three schedule contractors, or by requesting quotations from at least three schedule contractors (see [8.405-5](#)); or

(2) Document the circumstances for restricting consideration to fewer than three schedule contractors based on one of the reasons at [8.405-6\(a\)](#);

(d) *For proposed orders exceeding the simplified acquisition threshold.* (1) Each order shall be placed on a competitive basis in accordance with (d)(2) and (3) of this section, unless this requirement is waived on the basis of a justification that is prepared and approved in accordance with [8.405-6](#).

(2) The ordering activity contracting officer shall provide an RFQ that includes a description of the supplies to be delivered or the services to be performed and the basis upon which the selection will be made (see [8.405-1\(f\)](#)).

(3) The ordering activity contracting officer shall —

(i) Post the RFQ on e-Buy to afford all schedule contractors offering the required supplies or services under the appropriate multiple award schedule(s) an opportunity to submit a quote; or

(ii) Provide the RFQ to as many schedule contractors as practicable, consistent with market research appropriate to the circumstances, to reasonably ensure that quotes will be received from at least three contractors that can fulfill the requirements. When fewer than three quotes are received from schedule contractors that can fulfill the requirement, the contracting officer shall prepare a written determination explaining that no additional contractors capable of fulfilling the requirement could be identified despite reasonable efforts to do so. The determination must clearly explain efforts made to obtain quotes from at least three schedule contractors.

(4) The ordering activity contracting officer shall ensure that all quotes received are fairly considered and award is made in accordance with the basis for selection in the RFQ.

(e) When an order contains brand-name specifications, the contracting officer shall post the RFQ on e-Buy along with the justification or documentation, as required by [8.405-6](#). An RFQ is required when a purchase description specifies a brand-name.

(f) In addition to price (see [8.404\(d\)](#) and [8.405-4](#)), when determining best value, the ordering activity may consider, among other factors, the following:

(1) Past performance.

(2) Special features of the supply or service required for effective program performance.

(3) Trade-in considerations.

(4) Probable life of the item selected as compared with that of a comparable item.

(5) Warranty considerations.

(6) Maintenance availability.

(7) Environmental and energy efficiency considerations.

(8) Delivery terms.

(g) *Minimum documentation.* The ordering activity shall document—

(1) The schedule contracts considered, noting the contractor from which the supply or service was purchased;

(2) A description of the supply or service purchased;

(3) The amount paid;

(4) When an order exceeds the simplified acquisition threshold, evidence of compliance with the ordering procedures at [8.405-1\(d\)](#); and

(5) The basis for the award decision.

8.405-2 Ordering procedures for services requiring a statement of work.

(a) *General.* Ordering activities shall use the procedures in this subsection when ordering services priced at hourly rates as established by the schedule contracts. The applicable services will be identified in the Federal Supply Schedule publications and the contractor's pricelists. For establishing BPAs and for orders under BPAs see [8.405-3](#).

(b) *Statements of Work (SOWs).* All Statements of Work shall include a description of work to be performed; location of work; period of performance; deliverable schedule; applicable performance standards; and any special requirements (e.g., security clearances, travel, special knowledge). To the maximum extent practicable, agency requirements shall be performance-based statements (see [Subpart 37.6](#)).

(c) *Request for Quotation procedures.* The ordering activity must provide the Request for Quotation (RFQ), which includes the statement of work and evaluation criteria (e.g., experience and past performance), to schedule contractors that offer services that will meet the agency's needs. The RFQ may be posted to GSA's electronic RFQ system, e-Buy (see [8.402\(d\)](#)).

(1) *Orders at, or below, the micro-purchase threshold.* Ordering activities may place orders at, or below, the micro-purchase threshold with any Federal Supply Schedule contractor that can meet the agency's needs. The ordering activity should attempt to distribute orders among contractors.

(2) *For orders exceeding the micro-purchase threshold, but not exceeding the simplified acquisition threshold.*

(i) The ordering activity shall develop a statement of work, in accordance with [8.405-2\(b\)](#).

(ii) The ordering activity shall provide the RFQ (including the statement of work and evaluation criteria) to at least three schedule contractors that offer services that will meet the agency's needs or document the circumstances for restricting consideration to fewer than three schedule contractors based on one of the reasons at [8.405-6\(a\)](#).

(iii) The ordering activity shall specify the type of order (i.e., firm-fixed-price, labor-hour) for the services identified in the statement of work. The contracting officer should establish firm-fixed-prices, as appropriate.

(3) For proposed orders exceeding the simplified acquisition threshold. In addition to meeting the requirements of [8.405-2\(c\)\(2\)\(i\)](#) and (iii), the following procedures apply:

(i) Each order shall be placed on a competitive basis in accordance with (c)(3)(ii) and (iii) of this section, unless this requirement is waived on the basis of a justification that is prepared and approved in accordance with [8.405-6](#).

(ii) The ordering activity contracting officer shall provide an RFQ that includes a statement of work and the evaluation criteria.

(iii) The ordering activity contracting officer shall—

(A) Post the RFQ on e-Buy to afford all schedule contractors offering the required services under the appropriate multiple-award schedule(s) an opportunity to submit a quote; or

(B) Provide the RFQ to as many schedule contractors as practicable, consistent with market research appropriate to the circumstances, to reasonably ensure that quotes will be received from at least three contractors that can fulfill the requirements. When fewer than three quotes are received from schedule contractors that can fulfill the requirements, the contracting officer shall prepare a written determination to explain that no additional contractors capable of fulfilling the requirements could be identified despite reasonable efforts to do so. The determination must clearly explain efforts made to obtain quotes from at least three schedule contractors.

(C) Ensure all quotes received are fairly considered and award is made in accordance with the evaluation criteria in the RFQ.

(4) The ordering activity shall provide the RFQ (including the statement of work and the evaluation criteria) to any schedule contractor who requests a copy of it.

(d) *Evaluation.* The ordering activity shall evaluate all responses received using the evaluation criteria provided to the schedule contractors. The ordering activity is responsible for considering the level of effort and the mix of labor proposed to perform a specific task being ordered, and for determining that the total price is reasonable. Place the order with the schedule contractor that represents the best value (see [8.404\(d\)](#) and [8.405-4](#)). After award, ordering activities should provide timely notification to unsuccessful offerors. If an unsuccessful offeror requests information on an award that was based on factors other than price alone, a brief explanation of the basis for the award decision shall be provided.

(e) *Use of time-and-materials and labor-hour orders for services.* When placing a time-and-materials or labor-hour order for services, see [8.404\(h\)](#).

(f) *Minimum documentation.* The ordering activity shall document—

- (1) The schedule contracts considered, noting the contractor from which the service was purchased;
- (2) A description of the service purchased;
- (3) The amount paid;
- (4) The evaluation methodology used in selecting the contractor to receive the order;
- (5) The rationale for any tradeoffs in making the selection;
- (6) The price reasonableness determination required by paragraph (d) of this subsection;
- (7) The rationale for using other than—

(i) A firm-fixed price order; or

(ii) A performance-based order; and

(8) When an order exceeds the simplified acquisition threshold, evidence of compliance with the ordering procedures at [8.405-2\(c\)](#).

8.405-3 Blanket purchase agreements (BPAs).

(a) *Establishment.*(1) Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. Ordering activities shall establish the BPA with the schedule contractor(s) that can provide the supply or service that represents the best value.

(2) In addition to price (see [8.404\(d\)](#) and [8.405-4](#)), when determining best value, the ordering activity may consider, among other factors, the following:

(i) Past performance.

(ii) Special features of the supply or service required for effective program performance.

(iii) Trade-in considerations.

(iv) Probable life of the item selected as compared with that of a comparable item.

(v) Warranty considerations.

(vi) Maintenance availability.

(vii) Environmental and energy efficiency considerations.

(viii) Delivery terms.

(3)(i) The ordering activity contracting officer shall, to the maximum extent practicable, give preference to establishing multiple-award BPAs, rather than establishing a single-award BPA.

(ii) No single-award BPA with an estimated value exceeding \$103 million (including any options), may be awarded unless the head of the agency determines in writing that—

(A) The orders expected under the BPA are so integrally related that only a single source can reasonably perform the work;

(B) The BPA provides only for firm-fixed priced orders for—

(1) Products with unit prices established in the BPA; or

(2) Services with prices established in the BPA for specific tasks to be performed;

(C) Only one source is qualified and capable of performing the work at a reasonable price to the Government; or

(D) It is necessary in the public interest to award the BPA to a single source for exceptional circumstances.

(iii) The requirement for a determination for a single-award BPA greater than \$103 million is in addition to any applicable requirement for a limited-source justification at [8.405-6](#). However, the two documents may be combined into one document.

(iv) In determining how many multiple-award BPAs to establish or that a single-award BPA is appropriate, the contracting officer should consider the following factors and document the decision in the acquisition plan or BPA file:

- (A) The scope and complexity of the requirement(s);
- (B) The benefits of on-going competition and the need to periodically compare multiple technical approaches or prices;
- (C) The administrative costs of BPAs; and
- (D) The technical qualifications of the schedule contractor(s).

(4) BPAs shall address the frequency of ordering, invoicing, discounts, requirements (e.g., estimated quantities, work to be performed), delivery locations, and time.

(5) When establishing multiple-award BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs in accordance with [8.405-3\(c\)\(2\)](#).

(6) Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

(7) *Minimum documentation.* The ordering activity contracting officer shall include in the BPA file documentation the—

- (i) Schedule contracts considered, noting the contractor to which the BPA was awarded;
- (ii) Description of the supply or service purchased;
- (iii) Price;
- (iv) Required justification for a limited-source BPA (see [8.405-6](#)), if applicable;
- (v) Determination for a single-award BPA exceeding \$100 million, if applicable (see (a)(3)(ii));
- (vi) Documentation supporting the decision to establish multiple-award BPAs or a single-award BPA (see (a)(3)(iv));
- (vii) Evidence of compliance with paragraph (b) of this section, for competitively awarded BPAs, if applicable; and
- (viii) *Basis for the award decision.* This should include the evaluation methodology used in selecting the contractor, the rationale for any tradeoffs in making the selection, and a price reasonableness determination for services requiring a statement of work.

(b) *Competitive procedures for establishing a BPA.* This paragraph applies to the establishment of a BPA, in addition to applicable instructions in paragraph (a).

(1) *For supplies, and for services not requiring a statement of work.* The procedures of this paragraph apply when establishing a BPA for supplies and services that are listed in the schedule contract at a fixed price for the performance of a specific task, where a statement of work is not required (e.g., installation, maintenance, and repair).

(i) *If the estimated value of the BPA does not exceed the simplified acquisition threshold.* (A) The ordering activity shall:

(1) Consider reasonably available information about the supply or service offered under MAS contracts by surveying at least three schedule contractors through the GSA Advantage! on-line shopping service, by reviewing the catalogs or pricelists of at least three schedule contractors, or by requesting quotations from at least three schedule contractors (see [8.405-5](#)); or

(2) Document the circumstances for restricting consideration to fewer than three schedule contractors based on one of the reasons at [8.405-6\(a\)](#).

(B) The ordering activity shall establish the BPA with the schedule contractor(s) that can provide the best value.

(ii) *If the estimated value of the BPA exceeds the simplified acquisition threshold.* The ordering activity contracting officer:

(A) Shall provide an RFQ that includes a description of the supplies to be delivered or the services to be performed and the basis upon which the selection will be made.

(B) (1) Shall post the RFQ on e-Buy to afford all schedule contractors offering the required supplies or services under the appropriate multiple award schedule(s) an opportunity to submit a quote; or

(2) Shall provide the RFQ to as many schedule contractors as practicable, consistent with market research appropriate to the circumstances, to reasonably ensure that quotes will be received from at least three contractors that can fulfill the requirements. When fewer than three quotes are received from schedule contractors that can fulfill the requirements, the contracting officer shall prepare a written determination explaining that no additional contractors capable of fulfilling the requirements could be identified despite reasonable efforts to do so. The determination must clearly explain efforts made to obtain quotes from at least three schedule contractors.

(C) Shall ensure all quotes received are fairly considered and award is made in accordance with the basis for selection in the RFQ. After seeking price reductions (see [8.405-4](#)), establish the BPA with the schedule contractor(s) that provides the best value.

(D) The BPA must be established in accordance with paragraphs (b)(1)(ii)(B) and (C) of this section, unless the requirement is waived on the basis of a justification that is prepared and approved in accordance with [8.405-6](#).

(2) *For services requiring a statement of work.* This applies when establishing a BPA that requires services priced at hourly rates, as provided by the schedule contract. The applicable services will be identified in the Federal Supply Schedule publications and the contractor's pricelists.

(i) *Statements of Work (SOWs).* The ordering activity shall develop a statement of work. All Statements of Work

shall include a description of work to be performed; location of work; period of performance; deliverable schedule; applicable performance standards; and any special requirements (e.g., security clearances, travel, and special knowledge). To the maximum extent practicable, agency requirements shall be performance-based statements (see subpart 37.6).

(ii) *Type-of-order preference.* The ordering activity shall specify the order type (i.e., firm-fixed price, time-and-materials, or labor-hour) for the services identified in the statement of work. The contracting officer should establish firm-fixed priced orders to the maximum extent practicable. For time-and-materials and labor-hour orders, the contracting officer shall follow the procedures at 8.404(h).

(iii) *Request for Quotation procedures.* The ordering activity must provide a RFQ, which includes the statement of work and evaluation criteria (e.g., experience and past performance), to schedule contractors that offer services that will meet the agency's needs. The RFQ may be posted to GSA's electronic RFQ system, e-Buy (see 8.402(d)).

(iv) *If the estimated value of the BPA does not exceed the simplified acquisition threshold.* The ordering activity shall provide the RFQ (including the statement of work and evaluation criteria) to at least three schedule contractors that offer services that will meet the agency's needs.

(v) *If estimated value of the BPA exceeds the simplified acquisition threshold.* The ordering activity contracting officer—

(A) Shall post the RFQ on e-Buy to afford all schedule contractors offering the required supplies or services under the appropriate multiple-award schedule an opportunity to submit a quote; or

(B) Shall provide the RFQ, which includes the statement of work and evaluation criteria, to as many schedule contractors as practicable, consistent with market research appropriate to the circumstances, to reasonably ensure that quotes will be received from at least three contractors that can fulfill the requirements. When fewer than three quotes are received from schedule contractors that can fulfill the requirements, the contracting officer shall document the file. The contracting officer shall prepare a written determination explaining that no additional contractors capable of fulfilling the requirements could be identified despite reasonable efforts to do so. The determination must clearly explain efforts made to obtain quotes from at least three schedule contractors.

(vi) The ordering activity contracting officer shall ensure all quotes received are fairly considered and award is made in accordance with the basis for selection in the RFQ. The ordering activity is responsible for considering the level of effort and the mix of labor proposed to perform, and for determining that the proposed price is reasonable.

(vii) The BPA must be established in accordance with paragraph (b)(2)(iv) or (v), and with paragraph (b)(2)(vi) of this section, unless the requirement is waived on the basis

of a justification that is prepared and approved in accordance with 8.405-6.

(viii) The ordering activity contracting officer shall establish the BPA with the schedule contractor(s) that represents the best value (see 8.404(d) and 8.405-4).

(3) After award, ordering activities should provide timely notification to unsuccessful offerors. If an unsuccessful offeror requests information on an award that was based on factors other than price alone, a brief explanation of the basis for the award decision shall be provided.

(c) *Ordering from BPAs.* The procedures in this paragraph (c) are not required for BPAs established on or before May 16, 2011. However, ordering activities are encouraged to use the procedures for such BPAs.

(1) *Single-award BPA.* If the ordering activity establishes a single-award BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

(2) *Multiple-award BPAs.*(i) Orders at or below the micro-purchase threshold. The ordering activity may place orders at or below the micro-purchase threshold with any BPA holder that can meet the agency needs. The ordering activity should attempt to distribute any such orders among the BPA holders.

(ii) *Orders exceeding the micro-purchase threshold but not exceeding the simplified acquisition threshold.*

(A) The ordering activity must provide each multiple-award BPA holder a fair opportunity to be considered for each order exceeding the micro-purchase threshold, but not exceeding the simplified acquisition threshold unless one of the exceptions at 8.405-6(a)(1)(i) applies.

(B) The ordering activity need not contact each of the multiple-award BPA holders before placing an order if information is available to ensure that each BPA holder is provided a fair opportunity to be considered for each order.

(C) The ordering activity contracting officer shall document the circumstances when restricting consideration to less than all multiple-award BPA holders offering the required supplies and services.

(iii) *Orders exceeding the simplified acquisition threshold.* (A) The ordering activity shall place an order in accordance with paragraphs (c)(2)(iii)(A)(1), (2) and (3) of this paragraph, unless the requirement is waived on the basis of a justification that is prepared and approved in accordance with 8.405-6. The ordering activity shall—

(1) Provide an RFQ to all BPA holders offering the required supplies or services under the multiple-award BPAs, to include a description of the supplies to be delivered or the services to be performed and the basis upon which the selection will be made;

(2) Afford all BPA holders responding to the RFQ an opportunity to submit a quote; and

(3) Fairly consider all responses received and make award in accordance with the selection procedures.

(B) The ordering activity shall document evidence of compliance with these procedures and the basis for the award decision.

(3) *BPA for hourly-rate services.* If the BPA is for hourly-rate services, the ordering activity shall develop a statement of work for each order covered by the BPA. Ordering activities should place these orders on a firm-fixed price basis to the maximum extent practicable. For time-and-materials and labor-hour orders, the contracting officer shall follow the procedures at [8.404\(h\)](#). All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

(d) *Duration of BPAs.* (1) Multiple-award BPAs generally should not exceed five years in length, but may do so to meet program requirements.

(2) A single-award BPA shall not exceed one year. It may have up to four one-year options. See paragraph (e) of this section for requirements associated with option exercise.

(3) Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

(e) *Review of BPAs.* (1) The ordering activity contracting officer shall review the BPA and determine in writing, at least once a year (e.g., at option exercise), whether—

(i) The schedule contract, upon which the BPA was established, is still in effect;

(ii) The BPA still represents the best value (see [8.404\(d\)](#)); and

(iii) Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

(2) The determination shall be included in the BPA file documentation.

(3) If a single-award BPA is established, the ordering activity contracting officer's annual determination must be approved by the ordering activity's competition advocate prior to the exercise of an option to extend the term of the BPA.

8.405-4 Price reductions.

Ordering activities may request a price reduction at any time before placing an order, establishing a BPA, or in conjunction with the annual BPA review. However, the ordering activity shall seek a price reduction when the order or BPA exceeds the simplified acquisition threshold. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order or BPA.

8.405-5 Small business.

(a) Although the preference programs of part [19](#) are not mandatory in this subpart, in accordance with section 1331 of Public Law 111-240 ([15 U.S.C. 644\(r\)](#))—

(1) Ordering activity contracting officers may, at their discretion—

(i) Set aside orders for any of the small business concerns identified in [19.000\(a\)\(3\)](#); and

(ii) Set aside BPAs for any of the small business concerns identified in [19.000\(a\)\(3\)](#).

(2) When setting aside orders and BPAs—

(i) Follow the ordering procedures for Federal Supply Schedules at [8.405-1](#), [8.405-2](#), and [8.405-3](#); and

(ii) The specific small business program eligibility requirements identified in part [19](#) apply.

(b) Orders placed against schedule contracts may be credited toward the ordering activity's small business goals. For purposes of reporting an order placed with a small business schedule contractor, an ordering agency may only take credit if the awardee meets a size standard that corresponds to the work performed. Ordering activities should rely on the small business representations made by schedule contractors at the contract level.

(c) Ordering activities may consider socio-economic status when identifying contractor(s) for consideration or competition for award of an order or BPA. At a minimum, ordering activities should consider, if available, at least one small business, veteran-owned small business, service disabled veteran-owned small business, HUBZone small business, women-owned small business, or small disadvantaged business schedule contractor(s). GSA Advantage! and Schedules e-Library at <http://www.gsa.gov/fas> contain information on the small business representations of Schedule contractors.

(d) For orders exceeding the micro-purchase threshold, ordering activities should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

8.405-6 Limiting sources.

Orders placed or BPAs established under Federal Supply Schedules are exempt from the requirements in part [6](#). However, an ordering activity must justify its action when restricting consideration in accordance with paragraphs (a) or (b) of this section—

(a) *Orders or BPAs exceeding the micro-purchase threshold based on a limited sources justification.* (1) *Circumstances justifying limiting the source.* (i) For a proposed order or BPA with an estimated value exceeding the micro-purchase threshold not placed or established in accordance with the procedures in [8.405-1](#), [8.405-2](#), or [8.405-3](#), the only circumstances that may justify the action are—

(A) An urgent and compelling need exists, and following the procedures would result in unacceptable delays;

(B) Only one source is capable of providing the supplies or services required at the level of quality required because the supplies or services are unique or highly specialized; or

(C) In the interest of economy and efficiency, the new work is a logical follow-on to an original Federal Supply Schedule order provided that the original order was placed in accordance with the applicable Federal Supply Schedule ordering procedures. The original order or BPA must not have been previously issued under sole-source or limited-sources procedures.

(ii) See [8.405-6\(c\)](#) for the content of the justification for an order or BPA exceeding the simplified acquisition threshold.

(2) *Posting.*(i) Within 14 days after placing an order or establishing a BPA exceeding the simplified acquisition threshold that is supported by a limited-sources justification permitted under any of the circumstances under paragraph (a)(1) of this section, the ordering activity shall—

(A) Publish a notice in accordance with [5.301](#); and

(B) Post the justification—

(1) At the GPE www.fedbizopps.gov;

(2) On the Web site of the ordering activity agency, which may provide access to the justification by linking to the GPE; and

(3) For a minimum of 30 days.

(ii) In the case of an order or BPA permitted under paragraph (a)(1)(i)(A) of this section, the justification shall be posted within 30 days after award.

(iii) Contracting officers shall carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before making the justifications available for public inspection. Contracting officers shall also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act ([5 U.S.C. 552](#)) and the prohibitions against disclosure in [24.202](#) in determining whether other data should be removed. Although the submitter notice process set out in Executive Order 12600 “Predisclosure Notification Procedures for Confidential Commercial Information” does not apply, if the justification appears to contain proprietary data, the contracting officer should provide the contractor that submitted the information an opportunity to review the justification for proprietary data before making the justification available for public inspection, redacted as necessary. This process must not prevent or delay the posting of the justification in accordance with the timeframes required in paragraphs (a)(2)(i) and (ii) of this section.

(iv) This posting requirement does not apply when disclosure would compromise the national security (e.g.,

would result in disclosure of classified information) or create other security risks.

(b) *Items peculiar to one manufacturer.* An item peculiar to one manufacturer can be a particular brand name, product, or a feature of a product, peculiar to one manufacturer. A brand name item, whether available on one or more schedule contracts, is an item peculiar to one manufacturer.

(1) Brand name specifications shall not be used unless the particular brand name, product, or feature is essential to the Government’s requirements, and market research indicates other companies’ similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency’s needs.

(2) *Documentation.*(i) For proposed orders or BPAs with an estimated value exceeding the micro-purchase threshold, but not exceeding the simplified acquisition threshold, the ordering activity contracting officer shall document the basis for restricting consideration to an item peculiar to one manufacturer.

(ii) For proposed orders or BPAs with an estimated value exceeding the simplified acquisition threshold, see paragraph (c) of this section.

(iii) The documentation or justification must be completed and approved at the time the requirement for a brand-name item is determined. In addition, the justification for a brand-name item is required at the order level when a justification for the brand-name item was not completed for the BPA or does not adequately cover the requirements in the order.

(3) *Posting.*(i) The ordering activity shall post the following information along with the Request for Quotation (RFQ) to e-Buy (<http://www.ebuy.gsa.gov>):

(A) For proposed orders or BPAs with an estimated value exceeding \$25,000, but not exceeding the simplified acquisition threshold, the documentation required by paragraph (b)(2)(i) of this section.

(B) For proposed orders or BPAs with an estimated value exceeding the simplified acquisition threshold, the justification required by paragraph (c) of this section.

(C) The documentation in paragraph (b)(2)(i) and the justification in paragraph (c) of this subsection is subject to the screening requirement in paragraph (a)(2)(iii) of this section.

(ii) The posting requirement of paragraph (b)(3)(i) of this section does not apply when—

(A) Disclosure would compromise the national security (e.g., would result in disclosure of classified information) or create other security risks. The fact that access to classified matter may be necessary to submit a proposal or perform the contract does not, in itself, justify use of this exception;

(B) The nature of the file (e.g., size, format) does not make it cost-effective or practicable for contracting officers to provide access through e-Buy; or

(C) The agency's senior procurement executive makes a written determination that access through e-Buy is not in the Government's interest.

(4) When applicable, the documentation and posting requirements in paragraphs (b)(2) and (3) of this subsection apply only to the portion of the order or BPA that requires a brand-name item. If the justification and approval is to cover only the portion of the acquisition which is brand-name, then it should so state; the approval level requirements will then only apply to that portion.

(c) *An order or BPA with an estimated value exceeding the simplified acquisition threshold.* (1) For a proposed order or BPA exceeding the simplified acquisition threshold, the requiring activity shall assist the ordering activity contracting officer in the preparation of the justification. The justification shall cite that the acquisition is conducted under the authority of the Multiple-Award Schedule Program (see [8.401](#)).

(2) At a minimum, each justification shall include the following information:

(i) Identification of the agency and the contracting activity, and specific identification of the document as a "Limited-Sources Justification."

(ii) Nature and/or description of the action being approved.

(iii) A description of the supplies or services required to meet the agency's needs (including the estimated value).

(iv) The authority and supporting rationale (see [8.405-6\(a\)\(1\)\(i\)](#) and (b)(1)) and, if applicable, a demonstration of the proposed contractor's unique qualifications to provide the required supply or service.

(v) A determination by the ordering activity contracting officer that the order represents the best value consistent with [8.404\(d\)](#).

(vi) A description of the market research conducted among schedule holders and the results or a statement of the reason market research was not conducted.

(vii) Any other facts supporting the justification.

(viii) A statement of the actions, if any, the agency may take to remove or overcome any barriers that led to the restricted consideration before any subsequent acquisition for the supplies or services is made.

(ix) The ordering activity contracting officer's certification that the justification is accurate and complete to the best of the contracting officer's knowledge and belief.

(x) Evidence that any supporting data that is the responsibility of technical or requirements personnel (e.g., verifying the Government's minimum needs or requirements or other rationale for limited sources) and which form a basis for the justification have been certified as complete and accurate by the technical or requirements personnel.

(xi) For justifications under [8.405-6\(a\)\(1\)](#), a written determination by the approving official identifying the circumstance that applies.

(d) *Justification approvals.* (1) For a proposed order or BPA with an estimated value exceeding the simplified acquisition threshold, but not exceeding \$650,000, the ordering activity contracting officer's certification that the justification is accurate and complete to the best of the ordering activity contracting officer's knowledge and belief will serve as approval, unless a higher approval level is established in accordance with agency procedures.

(2) For a proposed order or BPA with an estimated value exceeding \$650,000, but not exceeding \$12.5 million, the justification must be approved by the competition advocate of the activity placing the order, or by an official named in paragraph (d)(3) or (d)(4) of this section. This authority is not delegable.

(3) For a proposed order or BPA with an estimated value exceeding \$12.5 million, but not exceeding \$62.5 million (or, for DoD, NASA, and the Coast Guard, not exceeding \$85.5 million), the justification must be approved by—

(i) The head of the procuring activity placing the order;

(ii) A designee who—

(A) If a member of the armed forces, is a general or flag officer;

(B) If a civilian, is serving in a position in a grade above GS-15 under the General Schedule (or in a comparable or higher position under another schedule); or

(iii) An official named in paragraph (d)(4) of this section.

(4) For a proposed order or BPA with an estimated value exceeding \$62.5 million (or, for DoD, NASA, and the Coast Guard, over \$85.5 million), the justification must be approved by the senior procurement executive of the agency placing the order. This authority is not delegable, except in the case of the Under Secretary of Defense for Acquisition, Technology, and Logistics, acting as the senior procurement executive for the Department of Defense.

8.405-7 Payment.

Agencies may make payments for oral or written orders by any authorized means, including the Governmentwide commercial purchase card (but see [32.1108\(b\)\(2\)](#)).

8.406 Ordering activity responsibilities.

8.406-1 Order placement.

(a) Ordering activities may place orders orally, except for—

(1) Supplies and services not requiring a statement of work exceeding the simplified acquisition threshold;

(2) Services requiring a statement of work (SOW); and

(3) Orders containing brand-name specifications that exceed \$25,000.

(b) Ordering activities may use [Optional Form 347](#), an agency-prescribed form, or an established electronic commu-

nications format to order supplies or services from schedule contracts.

(c) The ordering activity shall place an order directly with the contractor in accordance with the terms and conditions of the pricelists (see [8.402\(b\)](#)). Prior to placement of the order, the ordering activity shall ensure that the regulatory and statutory requirements of the requiring agency have been applied.

(d) Orders shall include the following information in addition to any information required by the schedule contract:

- (1) Complete shipping and billing addresses.
- (2) Contract number and date.
- (3) Agency order number.
- (4) F.o.b. delivery point; *i.e.*, origin or destination.
- (5) Discount terms.
- (6) Delivery time or period of performance.
- (7) Special item number or national stock number.
- (8) A statement of work for services, when required, or a brief, complete description of each item (when ordering by model number, features and options such as color, finish, and electrical characteristics, if available, must be specified).
- (9) Quantity and any variation in quantity.
- (10) Number of units.
- (11) Unit price.
- (12) Total price of order.
- (13) Points of inspection and acceptance.
- (14) Other pertinent data; *e.g.*, delivery instructions or receiving hours and size-of-truck limitation.
- (15) Marking requirements.
- (16) Level of preservation, packaging, and packing.

8.406-2 Inspection and acceptance.

(a) *Supplies.* (1) Consignees shall inspect supplies at destination except when—

(i) The schedule contract indicates that mandatory source inspection is required by the schedule contracting agency; or

(ii) A schedule item is covered by a product description, and the ordering activity determines that the schedule contracting agency's inspection assistance is needed (based on the ordering volume, the complexity of the supplies, or the past performance of the supplier).

(2) When the schedule contracting agency performs the inspection, the ordering activity will provide two copies of the order specifying source inspection to the schedule contracting agency. The schedule contracting agency will notify the ordering activity of acceptance or rejection of the supplies.

(3) Material inspected at source by the schedule contracting agency, and determined to conform with the product description of the schedule, shall not be reinspected for the same purpose. The consignee shall limit inspection to kind, count, and condition on receipt.

(4) Unless otherwise provided in the schedule contract, acceptance is conclusive, except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

(b) *Services.* The ordering activity has the right to inspect all services in accordance with the contract requirements and as called for by the order. The ordering activity shall perform inspections and tests as specified in the order's quality assurance surveillance plan in a manner that will not unduly delay the work.

8.406-3 Remedies for nonconformance.

(a) If a contractor delivers a supply or service, but it does not conform to the order requirements, the ordering activity shall take appropriate action in accordance with the inspection and acceptance clause of the contract, as supplemented by the order.

(b) If the contractor fails to perform an order, or take appropriate corrective action, the ordering activity may terminate the order for cause or modify the order to establish a new delivery date (after obtaining consideration, as appropriate). Ordering activities shall follow the procedures at [8.406-4](#) when terminating an order for cause.

8.406-4 Termination for cause.

(a)(1) An ordering activity contracting officer may terminate individual orders for cause. Termination for cause shall comply with FAR [12.403](#), and may include charging the contractor with excess costs resulting from repurchase.

(2) The schedule contracting office shall be notified of all instances where an ordering activity contracting officer has terminated for cause an individual order to a Federal Supply Schedule contractor, or if fraud is suspected.

(b) If the contractor asserts that the failure was excusable, the ordering activity contracting officer shall follow the procedures at [8.406-6](#), as appropriate.

(c) If the contractor is charged excess costs, the following apply:

(1) Any repurchase shall be made at as low a price as reasonable, considering the quality required by the Government, delivery requirement, and administrative expenses. Copies of all repurchase orders, except the copy furnished to the contractor or any other commercial concern, shall include the notation:

Repurchase against the account of _____ [*insert contractor's name*] under Order _____ [*insert number*] under Contract _____ [*insert number*].

(2) When excess costs are anticipated, the ordering activity may withhold funds due the contractor as offset security. Ordering activities shall minimize excess costs to be charged against the contractor and collect or set-off any excess costs owed.

(3) If an ordering activity is unable to collect excess repurchase costs, it shall notify the schedule contracting office after final payment to the contractor.

(i) The notice shall include the following information about the terminated order:

(A) Name and address of the contractor.

(B) Schedule, contract, and order number.

(C) National stock or special item number(s), and a brief description of the item(s).

(D) Cost of schedule items involved.

(E) Excess costs to be collected.

(F) Other pertinent data.

(ii) The notice shall also include the following information about the purchase contract:

(A) Name and address of the contractor.

(B) Item repurchase cost.

(C) Repurchase order number and date of payment.

(D) Contract number, if any.

(E) Other pertinent data.

(d) Only the schedule contracting officer may modify the contract to terminate for cause any, or all, supplies or services covered by the schedule contract. If the schedule contracting officer has terminated any supplies or services covered by the schedule contract, no further orders may be placed for those items. Orders placed prior to termination for cause shall be fulfilled by the contractor, unless terminated for the convenience of the Government by the ordering activity contracting officer.

(e) *Reporting.* An ordering activity contracting officer, in accordance with agency procedures, shall ensure that information related to termination for cause notices and any amendments are reported. In the event the termination for cause is subsequently converted to a termination for convenience, or is otherwise withdrawn, the contracting officer shall ensure that a notice of the conversion or withdrawal is reported. All reporting shall be in accordance with [42.1503\(f\)](#).

8.406-5 Termination for the Government's convenience.

(a) An ordering activity contracting officer may terminate individual orders for the Government's convenience. Termi-

nations for the Government's convenience shall comply with FAR [12.403](#).

(b) Before terminating orders for the Government's convenience, the ordering activity contracting officer shall endeavor to enter into a "no cost" settlement agreement with the contractor.

(c) Only the schedule contracting officer may modify the schedule contract to terminate any, or all, supplies or services covered by the schedule contract for the Government's convenience.

8.406-6 Disputes.

(a) *Disputes pertaining to the performance of orders under a schedule contract.* (1) Under the Disputes clause of the schedule contract, the ordering activity contracting officer may—

(i) Issue final decisions on disputes arising from performance of the order (but see paragraph (b) of this section); or

(ii) Refer the dispute to the schedule contracting officer.

(2) The ordering activity contracting officer shall notify the schedule contracting officer promptly of any final decision.

(b) *Disputes pertaining to the terms and conditions of schedule contracts.* The ordering activity contracting officer shall refer all disputes that relate to the contract terms and conditions to the schedule contracting officer for resolution under the Disputes clause of the contract and notify the schedule contractor of the referral.

(c) *Appeals.* Contractors may appeal final decisions to either the Board of Contract Appeals servicing the agency that issued the final decision or the U.S. Court of Federal Claims.

(d) *Alternative dispute resolution.* The contracting officer should use the alternative dispute resolution (ADR) procedures, to the maximum extent practicable (see [33.204](#) and [33.214](#)).

8.406-7 Contractor Performance Evaluation.

Ordering activities must prepare an evaluation of contractor performance for each order that exceeds the simplified acquisition threshold in accordance with [42.1502\(c\)](#).

Subpart 9.4—Debarment, Suspension, and Ineligibility

9.400 Scope of subpart.

(a) This subpart—

(1) Prescribes policies and procedures governing the debarment and suspension of contractors by agencies for the causes given in [9.406-2](#) and [9.407-2](#);

(2) Provides for the listing of contractors debarred, suspended, proposed for debarment, and declared ineligible (see the definition of “ineligible” in [2.101](#)); and

(3) Sets forth the consequences of this listing.

(b) Although this subpart does cover the listing of ineligible contractors ([9.404](#)) and the effect of this listing ([9.405\(b\)](#)), it does not prescribe policies and procedures governing declarations of ineligibility.

9.401 Applicability.

In accordance with Public Law 103-355, Section 2455 ([31 U.S.C. 6101](#), note), and Executive Order 12689, any debarment, suspension or other Governmentwide exclusion initiated under the Nonprocurement Common Rule implementing Executive Order 12549 on or after August 25, 1995, shall be recognized by and effective for Executive Branch agencies as a debarment or suspension under this subpart. Similarly, any debarment, suspension, proposed debarment or other Governmentwide exclusion initiated on or after August 25, 1995, under this subpart shall also be recognized by and effective for those agencies and participants as an exclusion under the Nonprocurement Common Rule.

9.402 Policy.

(a) Agencies shall solicit offers from, award contracts to, and consent to subcontracts with responsible contractors only. Debarment and suspension are discretionary actions that, taken in accordance with this subpart, are appropriate means to effectuate this policy.

(b) The serious nature of debarment and suspension requires that these sanctions be imposed only in the public interest for the Government’s protection and not for purposes of punishment. Agencies shall impose debarment or suspension to protect the Government’s interest and only for the causes and in accordance with the procedures set forth in this subpart.

(c) Agencies are encouraged to establish methods and procedures for coordinating their debarment or suspension actions.

(d) When more than one agency has an interest in the debarment or suspension of a contractor, the Interagency Committee on Debarment and Suspension, established under Executive Order 12549, and authorized by Section 873 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417), shall resolve the lead agency issue and coordinate such resolution among all interested agencies prior

to the initiation of any suspension, debarment, or related administrative action by any agency.

(e) Agencies shall establish appropriate procedures to implement the policies and procedures of this subpart.

9.403 Definitions.

As used in this subpart—

“Affiliates.” Business concerns, organizations, or individuals are affiliates of each other if, directly or indirectly, (1) either one controls or has the power to control the other, or (2) a third party controls or has the power to control both. Indicia of control include, but are not limited to, interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the debarment, suspension, or proposed debarment of a contractor which has the same or similar management, ownership, or principal employees as the contractor that was debarred, suspended, or proposed for debarment.

“Agency” means any executive department, military department or defense agency, or other agency or independent establishment of the executive branch.

“Civil judgment” means a judgment or finding of a civil offense by any court of competent jurisdiction.

“Contractor” means any individual or other legal entity that—

(1) Directly or indirectly (*e.g.*, through an affiliate), submits offers for or is awarded, or reasonably may be expected to submit offers for or be awarded, a Government contract, including a contract for carriage under Government or commercial bills of lading, or a subcontract under a Government contract; or

(2) Conducts business, or reasonably may be expected to conduct business, with the Government as an agent or representative of another contractor.

“Debarring official” means—

(1) An agency head; or

(2) A designee authorized by the agency head to impose debarment.

“Indictment” means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense is given the same effect as an indictment.

“Legal proceedings” means any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term includes appeals from such proceedings.

“Nonprocurement Common Rule” means the procedures used by Federal Executive Agencies to suspend, debar, or exclude individuals or entities from participation in nonprocurement transactions under Executive Order 12549. Examples of nonprocurement transactions are grants, cooperative agreements, scholarships, fellowships, contracts of assistance, loans, loan guarantees, subsidies, insurance, payments for specified use, and donation agreements.

“Suspending official” means—

(1) An agency head; or

(2) A designee authorized by the agency head to impose suspension.

“Unfair trade practices” means the commission of any or the following acts by a contractor:

(1) A violation of Section 337 of the Tariff Act of 1930 ([19 U.S.C. 1337](#)) as determined by the International Trade Commission.

(2) A violation, as determined by the Secretary of Commerce, of any agreement of the group known as the “Coordination Committee” for purposes of the Export Administration Act of 1979 ([50 U.S.C. App. 2401](#), *et seq.*) or any similar bilateral or multilateral export control agreement.

(3) A knowingly false statement regarding a material element of a certification concerning the foreign content of an item of supply, as determined by the Secretary of the Department or the head of the agency to which such certificate was furnished.

9.404 Excluded Parties List System.

(a) The General Services Administration (GSA)—

(1) Operates the web-based Excluded Parties List System (EPLS);

(2) Provides technical assistance to Federal agencies in the use of the EPLS; and

(3) Includes in the list the name and telephone number of the official responsible for its maintenance and distribution.

(b) The EPLS includes the—

(1) Names and addresses of all contractors debarred, suspended, proposed for debarment, declared ineligible, or excluded or disqualified under the nonprocurement common rule, with cross-references when more than one name is involved in a single action;

(2) Name of the agency or other authority taking the action;

(3) Cause for the action (see [9.406-2](#) and [9.407-2](#) for causes authorized under this subpart) or other statutory or regulatory authority;

(4) Effect of the action;

(5) Termination date for each listing;

(6) DUNS No.;

(7) Social Security Number (SSN), Employer Identification Number (EIN), or other Taxpayer Identification Number (TIN), if available; and

(8) Name and telephone number of the agency point of contact for the action.

(c) Each agency must—

(1) Obtain password(s) from GSA to access the EPLS for data entry;

(2) Notify GSA in the event a password needs to be rescinded (*e.g.*, when an agency employee leaves or changes function);

(3) Enter the information required by paragraph (b) of this section within 3 working days after the action becomes effective;

(4) Determine whether it is legally permitted to enter the SSN, EIN, or other TIN, under agency authority to suspend or debar;

(5) Update EPLS, generally within 5 working days after modifying or rescinding an action;

(6) In accordance with internal retention procedures, maintain records relating to each debarment, suspension, or proposed debarment taken by the agency;

(7) Establish procedures to ensure that the agency does not solicit offers from, award contracts to, or consent to subcontracts with contractors whose names are in the EPLS, except as otherwise provided in this subpart;

(8) Direct inquiries concerning listed contractors to the agency or other authority that took the action; and

(9) Contact GSA for technical assistance with the EPLS, via the support e-mail address or on the technical support phone line available at the EPLS web site provided in paragraph (d) of this section.

(d) The EPLS is available via <https://www.acquisition.gov>.

9.405 Effect of listing.

(a) Contractors debarred, suspended, or proposed for debarment are excluded from receiving contracts, and agencies shall not solicit offers from, award contracts to, or consent to subcontracts with these contractors, unless the agency head determines that there is a compelling reason for such action (see [9.405-1\(b\)](#), [9.405-2](#), [9.406-1\(c\)](#), [9.407-1\(d\)](#), and [23.506\(e\)](#)). Contractors debarred, suspended, or proposed for debarment are also excluded from conducting business with the Government as agents or representatives of other contractors.

(b) Contractors included in the EPLS as having been declared ineligible on the basis of statutory or other regulatory procedures are excluded from receiving contracts, and if applicable, subcontracts, under the conditions and for the period set forth in the statute or regulation. Agencies shall not solicit offers from, award contracts to, or consent to subcontracts with these contractors under those conditions and for that period.

(c) Contractors debarred, suspended, or proposed for debarment are excluded from acting as individual sureties (see [Part 28](#)).

(d)(1) After the opening of bids or receipt of proposals, the contracting officer shall review the EPLS.

(2) Bids received from any listed contractor in response to an invitation for bids shall be entered on the abstract of bids, and rejected unless the agency head determines in writing that there is a compelling reason to consider the bid.

(3) Proposals, quotations, or offers received from any listed contractor shall not be evaluated for award or included in the competitive range, nor shall discussions be conducted with a listed offeror during a period of ineligibility, unless the agency head determines, in writing, that there is a compelling

(b) Brand name or equal purchase descriptions must include, in addition to the brand name, a general description of those salient physical, functional, or performance characteristics of the brand name item that an “equal” item must meet to be acceptable for award. Use brand name or equal descriptions when the salient characteristics are firm requirements.

11.105 Items peculiar to one manufacturer.

Agency requirements shall not be written so as to require a particular brand name, product, or a feature of a product, peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, unless—

(a)(1) The particular brand name, product, or feature is essential to the Government’s requirements, and market research indicates other companies’ similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency’s needs;

(2)(i) The authority to contract without providing for full and open competition is supported by the required justifications and approvals (see [6.302-1](#)); or

(ii) The basis for not providing for maximum practicable competition is documented in the file (see [13.106-1\(b\)](#)) or justified (see [13.501](#)) when the acquisition is awarded using simplified acquisition procedures.

(3) The documentation or justification is posted for acquisitions over \$25,000. (See [5.102\(a\)\(6\)](#).)

(b) For multiple award schedule orders, see [8.405-6](#).

(c) For orders under indefinite-quantity contracts, see [16.505\(a\)\(4\)](#).

11.106 Purchase descriptions for service contracts.

In drafting purchase descriptions for service contracts, agency requiring activities shall ensure that inherently gov-

ernmental functions (see [Subpart 7.5](#)) are not assigned to a contractor. These purchase descriptions shall—

(a) Reserve final determination for Government officials;

(b) Require proper identification of contractor personnel who attend meetings, answer Government telephones, or work in situations where their actions could be construed as acts of Government officials unless, in the judgment of the agency, no harm can come from failing to identify themselves; and

(c) Require suitable marking of all documents or reports produced by contractors.

11.107 Solicitation provision.

(a) Insert the provision at [52.211-6](#), Brand Name or Equal, when brand name or equal purchase descriptions are included in a solicitation.

(b) Insert the provision at [52.211-7](#), Alternatives to Government-Unique Standards, in solicitations that use Government-unique standards when the agency uses the transaction-based reporting method to report its use of voluntary consensus standards to the National Institute of Standards and Technology (see OMB Circular A-119, “Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities”). Use of the provision is optional for agencies that report their use of voluntary consensus standards to the National Institute of Standards and Technology using the categorical reporting method. Agencies that manage their specifications on a contract-by-contract basis use the transaction-based method of reporting. Agencies that manage their specifications centrally use the categorical method of reporting. Agency regulations regarding specification management describe which method is used.

Subpart 12.2—Special Requirements for the Acquisition of Commercial Items

12.201 General.

Public Law 103-355 establishes special requirements for the acquisition of commercial items intended to more closely resemble those customarily used in the commercial marketplace. This subpart identifies those special requirements as well as other considerations necessary for proper planning, solicitation, evaluation and award of contracts for commercial items.

12.202 Market research and description of agency need.

(a) Market research (see [10.001](#)) is an essential element of building an effective strategy for the acquisition of commercial items and establishes the foundation for the agency description of need (see [Part 11](#)), the solicitation, and resulting contract.

(b) The description of agency need must contain sufficient detail for potential offerors of commercial items to know which commercial products or services may be suitable. Generally, for acquisitions in excess of the simplified acquisition threshold, an agency's statement of need for a commercial item will describe the type of product or service to be acquired and explain how the agency intends to use the product or service in terms of function to be performed, performance requirement or essential physical characteristics. Describing the agency's needs in these terms allows offerors to propose methods that will best meet the needs of the Government.

(c) Follow the procedures in [Subpart 11.2](#) regarding the identification and availability of specifications, standards and commercial item descriptions.

(d) Requirements documents for electronic and information technology must comply with the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR Part 1194 (see [Subpart 39.2](#)).

(e) When acquiring information technology using Internet Protocol, agencies must include the appropriate Internet Protocol compliance requirements in accordance with [11.002\(g\)](#).

12.203 Procedures for solicitation, evaluation, and award.

Contracting officers shall use the policies unique to the acquisition of commercial items prescribed in this part in conjunction with the policies and procedures for solicitation, evaluation and award prescribed in [Part 13](#), Simplified Acquisition Procedures; [Part 14](#), Sealed Bidding; or [Part 15](#), Contracting by Negotiation, as appropriate for the particular acquisition. The contracting officer may use the streamlined procedure for soliciting offers for commercial items prescribed in [12.603](#). For acquisitions of commercial items

exceeding the simplified acquisition threshold but not exceeding \$6.5 million (\$12 million for acquisitions as described in [13.500\(e\)](#)), including options, contracting activities shall employ the simplified procedures authorized by [Subpart 13.5](#) to the maximum extent practicable.

12.204 Solicitation/contract form.

(a) The contracting officer shall use the [Standard Form 1449](#), Solicitation/Contract/Order for Commercial Items, if (1) the acquisition is expected to exceed the simplified acquisition threshold; (2) a paper solicitation or contract is being issued; and (3) procedures at [12.603](#) are not being used. Use of the [SF 1449](#) is nonmandatory but encouraged for commercial acquisitions not exceeding the simplified acquisition threshold.

(b) Consistent with the requirements at [5.203\(a\)](#) and (h), the contracting officer may allow fewer than 15 days before issuance of the solicitation.

12.205 Offers.

(a) Where technical information is necessary for evaluation of offers, agencies should, as part of market research, review existing product literature generally available in the industry to determine its adequacy for purposes of evaluation. If adequate, contracting officers shall request existing product literature from offerors of commercial items in lieu of unique technical proposals.

(b) Contracting officers should allow offerors to propose more than one product that will meet a Government need in response to solicitations for commercial items. The contracting officer shall evaluate each product as a separate offer.

(c) Consistent with the requirements at [5.203\(b\)](#), the contracting officer may allow fewer than 30 days response time for receipt of offers for commercial items, unless the acquisition is covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement (see [5.203\(h\)](#)).

12.206 Use of past performance.

Past performance should be an important element of every evaluation and contract award for commercial items. Contracting officers should consider past performance data from a wide variety of sources both inside and outside the Federal Government in accordance with the policies and procedures contained in [Subpart 9.1](#), [13.106](#), or [Subpart 15.3](#), as applicable.

12.207 Contract type.

(a) Except as provided in paragraph (b) of this section, agencies shall use firm-fixed-price contracts or fixed-price contracts with economic price adjustment for the acquisition of commercial items.

(b) (1) A time-and-materials contract or labor-hour contract (see [Subpart 16.6](#)) may be used for the acquisition of commercial services when—

(i) The service is acquired under a contract awarded using—

(A) Competitive procedures (*e.g.*, the procedures in [6.102](#), the set-aside procedures in [Subpart 19.5](#), or competition conducted in accordance with [Part 13](#));

(B) The procedures for other than full and open competition in 6.3 provided the agency receives offers that satisfy the Government's expressed requirement from two or more responsible offerors; or

(C) The fair opportunity procedures in [16.505](#) (including discretionary small business set-asides under [16.505\(b\)\(2\)\(i\)\(F\)](#)), if placing an order under a multiple-award delivery-order contract; and

(ii) The contracting officer—

(A) Executes a determination and findings (D&F) for the contract, in accordance with paragraph (b)(2) of this section (but see paragraph (c) of this section for indefinite-delivery contracts), that no other contract type authorized by this subpart is suitable;

(B) Includes a ceiling price in the contract or order that the contractor exceeds at its own risk; and

(C) Authorizes any subsequent change in the ceiling price only upon a determination, documented in the contract file, that it is in the best interest of the procuring agency to change the ceiling price.

(2) Each D&F required by paragraph (b)(1)(ii)(A) of this section shall contain sufficient facts and rationale to justify that no other contract type authorized by this subpart is suitable. At a minimum, the D&F shall—

(i) Include a description of the market research conducted (see [10.002\(e\)](#));

(ii) Establish that it is not possible at the time of placing the contract or order to accurately estimate the extent or duration of the work or to anticipate costs with any reasonable degree of confidence;

(iii) Establish that the requirement has been structured to maximize the use of firm-fixed-price or fixed-price with economic price adjustment contracts (*e.g.*, by limiting the value or length of the time-and-material/labor-hour contract or order; establishing fixed prices for portions of the requirement) on future acquisitions for the same or similar requirements; and

(iv) Describe actions planned to maximize the use of firm-fixed-price or fixed-price with economic price adjustment contracts on future acquisitions for the same requirements.

(3) See [16.601\(d\)\(1\)](#) for additional approval required for contracts expected to extend beyond three years.

(4) See [8.404\(h\)](#) for the requirement for determination and findings when using Federal Supply Schedules.

(c)(1) Indefinite-delivery contracts (see [Subpart 16.5](#)) may be used when—

(i) The prices are established based on a firm-fixed-price or fixed-price with economic price adjustment; or

(ii) Rates are established for commercial services acquired on a time-and-materials or labor-hour basis.

(2) When an indefinite-delivery contract is awarded with services priced on a time-and-materials or labor-hour basis, contracting officers shall, to the maximum extent practicable, also structure the contract to allow issuance of orders on a firm-fixed-price or fixed-price with economic price adjustment basis. For such contracts, the contracting officer shall execute the D&F required by paragraph (b)(2) of this section, for each order placed on a time-and-materials or labor-hour basis. Placement of orders shall be in accordance with [Subpart 8.4](#) or 16.5, as applicable.

(3) If an indefinite-delivery contract only allows for the issuance of orders on a time-and-materials or labor-hour basis, the D&F required by paragraph (b)(2) of this section shall be executed to support the basic contract and shall also explain why providing for an alternative firm-fixed-price or fixed-price with economic price adjustment pricing structure is not practicable. The D&F for this contract shall be approved one level above the contracting officer. Placement of orders shall be in accordance with [Subpart 16.5](#).

(d) The contract types authorized by this subpart may be used in conjunction with an award fee and performance or delivery incentives when the award fee or incentive is based solely on factors other than cost (see [16.202-1](#) and [16.203-1](#)).

(e) Use of any contract type other than those authorized by this subpart to acquire commercial items is prohibited.

12.208 Contract quality assurance.

Contracts for commercial items shall rely on contractors' existing quality assurance systems as a substitute for Government inspection and testing before tender for acceptance unless customary market practices for the commercial item being acquired include in-process inspection. Any in-process inspection by the Government shall be conducted in a manner consistent with commercial practice.

12.209 Determination of price reasonableness.

While the contracting officer must establish price reasonableness in accordance with [13.106-3](#), [14.408-2](#), or [Subpart 15.4](#), as applicable, the contracting officer should be aware of customary commercial terms and conditions when pricing commercial items. Commercial item prices are affected by factors that include, but are not limited to, speed of delivery, length and extent of warranty, limitations of seller's liability, quantities ordered, length of the performance period, and specific performance requirements. The contracting officer must ensure that contract terms, conditions, and prices are commensurate with the Government's need.

12.210 Contract financing.

Customary market practice for some commercial items may include buyer contract financing. The contracting officer may offer Government financing in accordance with the policies and procedures in [Part 32](#).

12.211 Technical data.

Except as provided by agency-specific statutes, the Government shall acquire only the technical data and the rights in that data customarily provided to the public with a commercial item or process. The contracting officer shall presume that data delivered under a contract for commercial items was developed exclusively at private expense. When a contract for commercial items requires the delivery of technical data, the contracting officer shall include appropriate provisions and clauses delineating the rights in the technical data in addenda to the solicitation and contract (see [Part 27](#) or agency FAR supplements).

12.212 Computer software.

(a) Commercial computer software or commercial computer software documentation shall be acquired under licenses customarily provided to the public to the extent such licenses are consistent with Federal law and otherwise satisfy the Government's needs. Generally, offerors and contractors shall not be required to—

(1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose commercial computer software or commercial computer software documentation except as mutually agreed to by the parties.

(b) With regard to commercial computer software and commercial computer software documentation, the Government shall have only those rights specified in the license con-

tained in any addendum to the contract. For additional guidance regarding the use and negotiation of license agreements for commercial computer software, see [27.405-3](#).

12.213 Other commercial practices.

It is a common practice in the commercial marketplace for both the buyer and seller to propose terms and conditions written from their particular perspectives. The terms and conditions prescribed in this part seek to balance the interests of both the buyer and seller. These terms and conditions are generally appropriate for use in a wide range of acquisitions. However, market research may indicate other commercial practices that are appropriate for the acquisition of the particular item. These practices should be considered for incorporation into the solicitation and contract if the contracting officer determines them appropriate in concluding a business arrangement satisfactory to both parties and not otherwise precluded by law or Executive order.

12.214 Cost Accounting Standards.

Cost Accounting Standards (CAS) do not apply to contracts and subcontracts for the acquisition of commercial items when these contracts and subcontracts are firm-fixed-price or fixed-price with economic price adjustment (provided that the price adjustment is not based on actual costs incurred). See [30.201-1](#) for CAS applicability to fixed-price with economic price adjustment contracts and subcontracts for commercial items when the price adjustment is based on actual costs incurred. When CAS applies, the contracting officer shall insert the appropriate provisions and clauses as prescribed in [30.201](#).

12.215 Notification of overpayment.

If the contractor notifies the contracting officer of a duplicate payment or that the Government has otherwise overpaid, the contracting officer shall follow the procedures at [32.604](#).

contracts or subcontracts not greater than the simplified acquisition threshold.

(c) The provisions of paragraph (b) of this section do not apply to laws that—

(1) Provide for criminal or civil penalties; or

(2) Specifically state that notwithstanding the language of Section 4101, Public Law 103-355, the enactment will be applicable to contracts or subcontracts in amounts not greater than the simplified acquisition threshold.

(d) Any individual may petition the Administrator, Office of Federal Procurement Policy (OFPP), to include any applicable provision of law not included on the list set forth in paragraph (a) of this section unless the FAR Council has already determined in writing that the law is applicable. The Administrator, OFPP, will include the law on the list in paragraph (a) of this section unless the FAR Council makes a determination that it is applicable within 60 days of receiving the petition.

13.006 Inapplicable provisions and clauses.

While certain statutes still apply, pursuant to Public Law 103-355, the following provisions and clauses are inapplicable to contracts and subcontracts at or below the simplified acquisition threshold:

(a) [52.203-5](#), Covenant Against Contingent Fees.

(b) [52.203-6](#), Restrictions on Subcontractor Sales to the Government.

(c) [52.203-7](#), Anti-Kickback Procedures.

(d) [52.215-2](#), Audits and Records—Negotiation, except as used with its Alternate I, when using funds appropriated or otherwise made available by the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5).

(e) [52.222-4](#), Contract Work Hours and Safety Standards Act—Overtime Compensation.

(f) [52.223-6](#), Drug-Free Workplace, except for individuals.

(g) [52.223-9](#), Estimate of Percentage of Recovered Material Content for EPA-Designated Items.

Subpart 13.1—Procedures

13.101 General.

(a) In making purchases, contracting officers shall—

(1) Comply with the policy in [7.202](#) relating to economic purchase quantities, when practicable;

(2) Satisfy the procedures described in [Subpart 19.6](#) with respect to Certificates of Competency before rejecting a quotation, oral or written, from a small business concern determined to be nonresponsible (see [Subpart 9.1](#)); and

(3) Provide for the inspection of supplies or services as prescribed in [46.404](#).

(b) In making purchases, contracting officers should—

(1) Include related items (such as small hardware items or spare parts for vehicles) in one solicitation and make award

on an “all-or-none” or “multiple award” basis provided suppliers are so advised when quotations or offers are requested;

(2) Incorporate provisions and clauses by reference in solicitations and in awards under requests for quotations, provided the requirements in [52.102](#) are satisfied;

(3) Make maximum effort to obtain trade and prompt payment discounts (see [14.408-3](#)). Prompt payment discounts shall not be considered in the evaluation of quotations; and

(4) Use bulk funding to the maximum extent practicable. Bulk funding is a system whereby the contracting officer receives authorization from a fiscal and accounting officer to obligate funds on purchase documents against a specified lump sum of funds reserved for the purpose for a specified period of time rather than obtaining individual obligational authority on each purchase document. Bulk funding is particularly appropriate if numerous purchases using the same type of funds are to be made during a given period.

13.102 Source list.

(a) Contracting officers should use the Central Contractor Registration database (see subpart [4.11](#)) via <https://www.acquisition.gov> as their primary sources of vendor information. Offices maintaining additional vendor source files or listings should identify the status of each source (when the status is made known to the contracting office) in the following categories:

(1) Small business.

(2) Small disadvantaged business.

(3) Women-owned small business concern, including economically disadvantaged women-owned small business concerns and women-owned small business concerns eligible under the Woman-owned Small Business (WOSB) Program.

(4) HUBZone small business.

(5) Service-disabled veteran-owned small business.

(6) Veteran-owned small business.

(b) The status information may be used as the basis to ensure that small business concerns are provided the maximum practicable opportunities to respond to solicitations issued using simplified acquisition procedures.

13.103 Use of standing price quotations.

Authorized individuals do not have to obtain individual quotations for each purchase. Standing price quotations may be used if—

(a) The pricing information is current; and

(b) The Government obtains the benefit of maximum discounts before award.

13.104 Promoting competition.

The contracting officer must promote competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the

Government, considering the administrative cost of the purchase.

(a) The contracting officer must not—

(1) Solicit quotations based on personal preference; or

(2) Restrict solicitation to suppliers of well-known and widely distributed makes or brands.

(b) If using simplified acquisition procedures and not providing access to the notice of proposed contract action and solicitation information through the Governmentwide point of entry (GPE), maximum practicable competition ordinarily can be obtained by soliciting quotations or offers from sources within the local trade area. Unless the contract action requires synopsis pursuant to [5.101](#) and an exception under [5.202](#) is not applicable, consider solicitation of at least three sources to promote competition to the maximum extent practicable. Whenever practicable, request quotations or offers from two sources not included in the previous solicitation.

13.105 Synopsis and posting requirements.

(a) The contracting officer must comply with the public display and synopsis requirements of [5.101](#) and [5.203](#) unless an exception in [5.202](#) applies.

(b) When acquiring commercial items or supplies or services procured in accordance with [12.102\(f\)\(1\)](#), the contracting officer may use a combined synopsis and solicitation. In these cases, a separate solicitation is not required. The contracting officer must include enough information to permit suppliers to develop quotations or offers.

(c) See [5.102\(a\)\(6\)](#) for the requirement to post a brand name justification or documentation required by [13.106-1\(b\)](#) or [13.501](#).

(d) When publicizing contract actions funded in whole or in part by the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5):

(1) Notices of proposed contract actions shall follow the procedures in [5.704](#) for posting orders.

(2) Award notices shall follow the procedures in [5.705](#).

13.106 Soliciting competition, evaluation of quotations or offers, award and documentation.

13.106-1 Soliciting competition.

(a) *Considerations.* In soliciting competition, the contracting officer shall consider the guidance in [13.104](#) and the following before requesting quotations or offers:

(1)(i) The nature of the article or service to be purchased and whether it is highly competitive and readily available in several makes or brands, or is relatively noncompetitive.

(ii) An electronic commerce method that employs widespread electronic public notice is not available; and

(iii) The urgency of the proposed purchase.

(iv) The dollar value of the proposed purchase.

(v) Past experience concerning specific dealers' prices.

(2) When soliciting quotations or offers, the contracting officer shall notify potential quoters or offerors of the basis on which award will be made (price alone or price and other factors, e.g., past performance and quality). Contracting officers are encouraged to use best value. Solicitations are not required to state the relative importance assigned to each evaluation factor and subfactor, nor are they required to include subfactors.

(b) *Soliciting from a single source.* (1) *For purchases not exceeding the simplified acquisition threshold.* (i) Contracting officers may solicit from one source if the contracting officer determines that the circumstances of the contract action deem only one source reasonably available (e.g., urgency, exclusive licensing agreements, brand-name or industrial mobilization).

(ii) Where a single source is identified to provide a portion of a purchase because that portion of the purchase specifies a particular brand-name item, the documentation in paragraph (b)(1)(i) of this section only applies to the portion of the purchase requiring the brand-name item. The documentation should state it is covering only the portion of the acquisition which is brand-name.

(2) *For purchases exceeding the simplified acquisition threshold.* The requirements at [13.501\(a\)](#) apply to sole-source (including brand-name) acquisitions of commercial items conducted pursuant to subpart [13.5](#).

(3) See [5.102\(a\)\(6\)](#) for the requirement to post the brand-name justification or documentation.

(c) *Soliciting orally.* (1) The contracting officer shall solicit quotations orally to the maximum extent practicable, if—

(i) The acquisition does not exceed the simplified acquisition threshold;

(ii) Oral solicitation is more efficient than soliciting through available electronic commerce alternatives; and

(iii) Notice is not required under [5.101](#).

(2) However, an oral solicitation may not be practicable for contract actions exceeding \$30,000 unless covered by an exception in [5.202](#).

(d) *Written solicitations.* If obtaining electronic or oral quotations is uneconomical or impracticable, the contracting officer should issue paper solicitations for contract actions likely to exceed \$30,000. The contracting officer shall issue a written solicitation for construction requirements exceeding \$2,000.

(e) *Use of options.* Options may be included in solicitations, provided the requirements of [Subpart 17.2](#) are met and the aggregate value of the acquisition and all options does not exceed the dollar threshold for use of simplified acquisition procedures.

(f) *Inquiries.* An agency should respond to inquiries received through any medium (including electronic commerce) if doing so would not interfere with the efficient conduct of the acquisition.

13.106-2 Evaluation of quotations or offers.

(a) *General.*(1) The contracting officer shall evaluate quotations or offers—

- (i) In an impartial manner; and
- (ii) Inclusive of transportation charges from the shipping point of the supplier to the delivery destination.

(2) Quotations or offers shall be evaluated on the basis established in the solicitation.

(3) All quotations or offers shall be considered (see paragraph (b) of this subsection).

(b) *Evaluation procedures.*(1) The contracting officer has broad discretion in fashioning suitable evaluation procedures. The procedures prescribed in [Parts 14](#) and [15](#) are not mandatory. At the contracting officer's discretion, one or more, but not necessarily all, of the evaluation procedures in [Part 14](#) or [15](#) may be used.

(2) If telecommuting is not prohibited, agencies shall not unfavorably evaluate an offer because it includes telecommuting unless the contracting officer executes a written determination in accordance with FAR [7.108\(b\)](#).

(3) If using price and other factors, ensure that quotations or offers can be evaluated in an efficient and minimally burdensome fashion. Formal evaluation plans and establishing a competitive range, conducting discussions, and scoring quotations or offers are not required. Contracting offices may conduct comparative evaluations of offers. Evaluation of other factors, such as past performance—

(i) Does not require the creation or existence of a formal data base; and

(ii) May be based on one or more of the following:

(A) The contracting officer's knowledge of and previous experience with the supply or service being acquired;

(B) Customer surveys, and past performance questionnaire replies;

(C) The Governmentwide Past Performance Information Retrieval System (PPIRS) at www.ppirs.gov; or

(D) Any other reasonable basis.

(4) For acquisitions conducted using a method that permits electronic response to the solicitation, the contracting officer may—

(i) After preliminary consideration of all quotations or offers, identify from all quotations or offers received one that is suitable to the user, such as the lowest priced brand name product, and quickly screen all lower priced quotations or offers based on readily discernible value indicators, such as past performance, warranty conditions, and maintenance availability; or

(ii) Where an evaluation is based only on price and past performance, make an award based on whether the lowest priced of the quotations or offers having the highest past performance rating possible represents the best value when compared to any lower priced quotation or offer.

13.106-3 Award and documentation.

(a) *Basis for award.* Before making award, the contracting officer must determine that the proposed price is fair and reasonable.

(1) Whenever possible, base price reasonableness on competitive quotations or offers.

(2) If only one response is received, include a statement of price reasonableness in the contract file. The contracting officer may base the statement on—

(i) Market research;

(ii) Comparison of the proposed price with prices found reasonable on previous purchases;

(iii) Current price lists, catalogs, or advertisements. However, inclusion of a price in a price list, catalog, or advertisement does not, in and of itself, establish fairness and reasonableness of the price;

(iv) A comparison with similar items in a related industry;

(v) The contracting officer's personal knowledge of the item being purchased;

(vi) Comparison to an independent Government estimate; or

(vii) Any other reasonable basis.

(3) Occasionally an item can be obtained only from a supplier that quotes a minimum order price or quantity that either unreasonably exceeds stated quantity requirements or results in an unreasonable price for the quantity required. In these instances, the contracting officer should inform the requiring activity of all facts regarding the quotation or offer and ask it to confirm or alter its requirement. The file shall be documented to support the final action taken.

(b) *File documentation and retention.* Keep documentation to a minimum. Purchasing offices shall retain data supporting purchases (paper or electronic) to the minimum extent and duration necessary for management review purposes (see [Subpart 4.8](#)). The following illustrate the extent to which quotation or offer information should be recorded:

(1) *Oral solicitations.* The contracting office should establish and maintain records of oral price quotations in order to reflect clearly the propriety of placing the order at the price paid with the supplier concerned. In most cases, this will consist merely of showing the names of the suppliers contacted and the prices and other terms and conditions quoted by each.

(2) *Written solicitations* (see [2.101](#)). For acquisitions not exceeding the simplified acquisition threshold, limit written records of solicitations or offers to notes or abstracts to show prices, delivery, references to printed price lists used, the supplier or suppliers contacted, and other pertinent data.

(3) *Special situations.* Include additional statements—

(i) Explaining the absence of competition (see [13.106-1](#) for brand name purchases) if only one source is solicited and the acquisition does not exceed the simplified acquisition threshold (does not apply to an acquisition of utility services available from only one source); or

(ii) Supporting the award decision if other than price-related factors were considered in selecting the supplier.

(c) *Notification.* For acquisitions that do not exceed the simplified acquisition threshold and for which automatic notification is not provided through an electronic commerce method that employs widespread electronic public notice, notification to unsuccessful suppliers shall be given only if requested or required by [5.301](#).

(d) *Request for information.* If a supplier requests information on an award that was based on factors other than price

alone, a brief explanation of the basis for the contract award decision shall be provided (see 15.503(b)(2)).

(e) *Taxpayer Identification Number.* If an oral solicitation is used, the contracting officer shall ensure that the copy of the award document sent to the payment office is annotated with the contractor's Taxpayer Identification Number (TIN) and type of organization (see [4.203](#)), unless this information will be obtained from some other source (e.g., centralized database). The contracting officer shall disclose to the contractor that the TIN may be used by the Government to collect and report on any delinquent amounts arising out of the contractor's relationship with the Government ([31 U.S.C. 7701\(c\)\(3\)](#)).

Subpart 13.5—Test Program for Certain Commercial Items

13.500 General.

(a) This subpart authorizes, as a test program, use of simplified procedures for the acquisition of supplies and services in amounts greater than the simplified acquisition threshold but not exceeding \$6.5 million (\$12 million for acquisitions as described in 13.500(e)), including options, if the contracting officer reasonably expects, based on the nature of the supplies or services sought, and on market research, that offers will include only commercial items. Under this test program, contracting officers may use any simplified acquisition procedure in this part, subject to any specific dollar limitation applicable to the particular procedure. The purpose of this test program is to vest contracting officers with additional procedural discretion and flexibility, so that commercial item acquisitions in this dollar range may be solicited, offered, evaluated, and awarded in a simplified manner that maximizes efficiency and economy and minimizes burden and administrative costs for both the Government and industry ([10 U.S.C. 2304\(g\)](#) and 2305 and [41 U.S.C. 253\(g\)](#) and 253a and 253b).

(b) For the period of this test, contracting activities must employ the simplified procedures authorized by the test to the maximum extent practicable.

(c) When acquiring commercial items using the procedures in this part, the requirements of [Part 12](#) apply subject to the order of precedence provided at 12.102(c). This includes use of the provisions and clauses in [Subpart 12.3](#).

(d) The authority to issue solicitations under this subpart expires on January 1, 2012. Contracting officers may award contracts after the expiration of this authority for solicitations issued before the expiration of the authority.

(e) Under [41 U.S.C. 428a](#), the simplified acquisition procedures authorized by this test program may be used for acquisitions that do not exceed \$12 million when—

(1) The acquisition is for commercial items that, as determined by the head of the agency, are to be used in support of a contingency operation or to facilitate the defense against or recovery from nuclear, biological, chemical, or radiological attack; or

(2) The acquisition will be treated as an acquisition of commercial items in accordance with 12.102(f)(1).

13.501 Special documentation requirements.

(a) *Sole source (including brand name) acquisitions.*
(1) Acquisitions conducted under simplified acquisition procedures are exempt from the requirements in [Part 6](#). However, contracting officers must—

(i) Conduct sole source acquisitions, as defined in [2.101](#), (including brand name) under this subpart only if the need to do so is justified in writing and approved at the levels specified in paragraph (a)(2) of this section;

(ii) Prepare sole source (including brand name) justifications using the format at [6.303-2](#), modified to reflect an acquisition under the authority of the test program for commercial items (section 4202 of the Clinger-Cohen Act of 1996) or the authority of the Services Acquisition Reform Act of 2003 ([41 U.S.C. 428a](#));

(iii) Make publicly available the justifications (excluding brand name) required by [6.305\(a\)](#) within 14 days after contract award or in the case of unusual and compelling urgency within 30 days after contract award, in accordance with [6.305](#) procedures at paragraphs (b), (d), (e), and (f); and

(iv) Make publicly available brand name justifications with the solicitation, in accordance with [5.102\(a\)\(6\)](#).

(2) Justifications and approvals are required under this subpart for sole-source (including brand-name) acquisitions or portions of an acquisition requiring a brand-name. If the justification is to cover only the portion of the acquisition which is brand-name, then it should so state; the approval level requirements will then only apply to that portion.

(i) For a proposed contract exceeding \$150,000, but not exceeding \$650,000, the contracting officer's certification that the justification is accurate and complete to the best of the contracting officer's knowledge and belief will serve as approval, unless a higher approval level is established in accordance with agency procedures.

(ii) For a proposed contract exceeding \$650,000, but not exceeding \$12.5 million, the competition advocate for the procuring activity, designated pursuant to [6.501](#); or an official described in [6.304\(a\)\(3\)](#) or (a)(4) must approve the justification and approval. This authority is not delegable.

(iii) For a proposed contract exceeding \$12.5 million but not exceeding \$62.5 million or, for DoD, NASA, and the Coast Guard, not exceeding \$85.5 million, the head of the procuring activity or the official described in [6.304\(a\)\(3\)](#) or (a)(4) must approve the justification and approval. This authority is not delegable.

(iv) For a proposed contract exceeding \$62.5 million or, for DoD, NASA, and the Coast Guard, \$85.5 million, the official described in [6.304\(a\)\(4\)](#) must approve the justifica-

tion and approval. This authority is not delegable except as provided in [6.304\(a\)\(4\)](#).

(b) *Contract file documentation.* The contract file must include—

(1) A brief written description of the procedures used in awarding the contract, including the fact that the test procedures in FAR [Subpart 13.5](#) were used;

- (2) The number of offers received;
- (3) An explanation, tailored to the size and complexity of the acquisition, of the basis for the contract award decision; and
- (4) Any justification approved under paragraph (a) of this section.

Subpart 16.2—Fixed-Price Contracts

16.201 General.

(a) Fixed-price types of contracts provide for a firm price or, in appropriate cases, an adjustable price. Fixed-price contracts providing for an adjustable price may include a ceiling price, a target price (including target cost), or both. Unless otherwise specified in the contract, the ceiling price or target price is subject to adjustment only by operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances. The contracting officer shall use firm-fixed-price or fixed-price with economic price adjustment contracts when acquiring commercial items, except as provided in [12.207\(b\)](#).

(b) Time-and-materials contracts and labor-hour contracts are not fixed-price contracts.

16.202 Firm-fixed-price contracts.

16.202-1 Description.

A firm-fixed-price contract provides for a price that is not subject to any adjustment on the basis of the contractor's cost experience in performing the contract. This contract type places upon the contractor maximum risk and full responsibility for all costs and resulting profit or loss. It provides maximum incentive for the contractor to control costs and perform effectively and imposes a minimum administrative burden upon the contracting parties. The contracting officer may use a firm-fixed-price contract in conjunction with an award-fee incentive (see [16.404](#)) and performance or delivery incentives (see [16.402-2](#) and [16.402-3](#)) when the award fee or incentive is based solely on factors other than cost. The contract type remains firm-fixed-price when used with these incentives.

16.202-2 Application.

A firm-fixed-price contract is suitable for acquiring commercial items (see [Parts 2](#) and [12](#)) or for acquiring other supplies or services on the basis of reasonably definite functional or detailed specifications (see [Part 11](#)) when the contracting officer can establish fair and reasonable prices at the outset, such as when—

- (a) There is adequate price competition;
- (b) There are reasonable price comparisons with prior purchases of the same or similar supplies or services made on a competitive basis or supported by valid certified cost or pricing data;
- (c) Available cost or pricing information permits realistic estimates of the probable costs of performance; or
- (d) Performance uncertainties can be identified and reasonable estimates of their cost impact can be made, and the contractor is willing to accept a firm fixed price representing assumption of the risks involved.

16.203 Fixed-price contracts with economic price adjustment.

16.203-1 Description.

(a) A fixed-price contract with economic price adjustment provides for upward and downward revision of the stated contract price upon the occurrence of specified contingencies. Economic price adjustments are of three general types:

(1) *Adjustments based on established prices.* These price adjustments are based on increases or decreases from an agreed-upon level in published or otherwise established prices of specific items or the contract end items.

(2) *Adjustments based on actual costs of labor or material.* These price adjustments are based on increases or decreases in specified costs of labor or material that the contractor actually experiences during contract performance.

(3) *Adjustments based on cost indexes of labor or material.* These price adjustments are based on increases or decreases in labor or material cost standards or indexes that are specifically identified in the contract.

(b) The contracting officer may use a fixed-price contract with economic price adjustment in conjunction with an award-fee incentive (see [16.404](#)) and performance or delivery incentives (see [16.402-2](#) and [16.402-3](#)) when the award fee or incentive is based solely on factors other than cost. The contract type remains fixed-price with economic price adjustment when used with these incentives.

16.203-2 Application.

A fixed-price contract with economic price adjustment may be used when (i) there is serious doubt concerning the stability of market or labor conditions that will exist during an extended period of contract performance, and (ii) contingencies that would otherwise be included in the contract price can be identified and covered separately in the contract. Price adjustments based on established prices should normally be restricted to industry-wide contingencies. Price adjustments based on labor and material costs should be limited to contingencies beyond the contractor's control. For use of economic price adjustment in sealed bid contracts, see [14.408-4](#).

(a) In establishing the base level from which adjustment will be made, the contracting officer shall ensure that contingency allowances are not duplicated by inclusion in both the base price and the adjustment requested by the contractor under economic price adjustment clause.

(b) In contracts that do not require submission of certified cost or pricing data, the contracting officer shall obtain adequate data to establish the base level from which adjustment will be made and may require verification of data submitted.

16.203-3 Limitations.

A fixed-price contract with economic price adjustment shall not be used unless the contracting officer determines that it is necessary either to protect the contractor and the Government against significant fluctuations in labor or material costs or to provide for contract price adjustment in the event of changes in the contractor's established prices.

16.203-4 Contract clauses.

(a) *Adjustment based on established prices—standard supplies.* (1) The contracting officer shall, when contracting by negotiation, insert the clause at [52.216-2](#), Economic Price Adjustment—Standard Supplies, or an agency-prescribed clause as authorized in paragraph (a)(2) of this subsection, in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) The requirement is for standard supplies that have an established catalog or market price.

(iii) The contracting officer has made the determination specified in [16.203-3](#).

(2) If all the conditions in paragraph (a)(1) of this subsection apply and the contracting officer determines that the use of the clause at [52.216-2](#) is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at [52.216-2](#).

(3) If the negotiated unit price reflects a net price after applying a trade discount from a catalog or list price, the contracting officer shall document in the contract file both the catalog or list price and the discount. (This does not apply to prompt payment or cash discounts.)

(b) *Adjustment based on established prices—semistandard supplies.* (1) The contracting officer shall, when contracting by negotiation, insert the clause at [52.216-3](#), Economic Price Adjustment—Semistandard Supplies, or an agency-prescribed clause as authorized in paragraph (b)(2) of this section, in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) The requirement is for semistandard supplies for which the prices can be reasonably related to the prices of nearly equivalent standard supplies that have an established catalog or market price.

(iii) The contracting officer has made the determination specified in [16.203-3](#).

(2) If all conditions in paragraph (b)(1) of this subsection apply and the contracting officer determines that the use of the clause at [52.216-3](#) is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at [52.216-3](#).

(3) If the negotiated unit price reflects a net price after applying a trade discount from a catalog or list price, the contracting officer shall document in the contract file both the cat-

alog or list price and the discount. (This does not apply to prompt payment or cash discounts.)

(4) Before entering into the contract, the contracting officer and contractor must agree in writing on the identity of the standard supplies and the corresponding contract line items to which the clause applies.

(5) If the supplies are standard, except for preservation, packaging, and packing requirements, the clause prescribed in [16.203-4\(a\)](#) shall be used rather than this clause.

(c) *Adjustments based on actual cost of labor or material.*

(1) The contracting officer shall, when contracting by negotiation, insert a clause that is substantially the same as the clause at [52.216-4](#), Economic Price Adjustment—Labor and Material, or an agency-prescribed clause as authorized in subparagraph (c)(2) of this section, in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) There is no major element of design engineering or development work involved.

(iii) One or more identifiable labor or material cost factors are subject to change.

(iv) The contracting officer has made the determination specified in [16.203-3](#).

(2) If all conditions in paragraph (c)(1) of this section apply and the contracting officer determines that the use of the clause at [52.216-4](#) is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at [52.216-4](#).

(3) The contracting officer shall describe in detail in the contract Schedule—

(i) The types of labor and materials subject to adjustment under the clause;

(ii) The labor rates, including fringe benefits (if any) and unit prices of materials that may be increased or decreased; and

(iii) The quantities of the specified labor and materials allocable to each unit to be delivered under the contract.

(4) In negotiating adjustments under the clause, the contracting officer shall—

(i) Consider work in process and materials on hand at the time of changes in labor rates, including fringe benefits (if any) or material prices;

(ii) Not include in adjustments any indirect cost (except fringe benefits as defined in [31.205-6\(m\)](#)) or profit; and

(iii) Consider only those fringe benefits specified in the contract Schedule.

(d) *Adjustments based on cost indexes of labor or material.* The contracting officer should consider using an economic price adjustment clause based on cost indexes of labor or material under the circumstances and subject to approval as described in paragraphs (d)(1) and (d)(2) of this section.

orders in those areas will be awarded on a sole-source basis; however, each awardee need not be capable of performing every requirement as well as any other awardee under the contracts. The contracting officer should consider the following when determining the number of contracts to be awarded:

(1) The scope and complexity of the contract requirement.

(2) The expected duration and frequency of task or delivery orders.

(3) The mix of resources a contractor must have to perform expected task or delivery order requirements.

(4) The ability to maintain competition among the awardees throughout the contracts' period of performance.

(B) The contracting officer must not use the multiple award approach if—

(1) Only one contractor is capable of providing performance at the level of quality required because the supplies or services are unique or highly specialized;

(2) Based on the contracting officer's knowledge of the market, more favorable terms and conditions, including pricing, will be provided if a single award is made;

(3) The expected cost of administration of multiple contracts outweighs the expected benefits of making multiple awards;

(4) The projected task orders are so integrally related that only a single contractor can reasonably perform the work;

(5) The total estimated value of the contract is less than the simplified acquisition threshold; or

(6) Multiple awards would not be in the best interests of the Government.

(C) The contracting officer must document the decision whether or not to use multiple awards in the acquisition plan or contract file. The contracting officer may determine that a class of acquisitions is not appropriate for multiple awards (see [Subpart 1.7](#)).

(D) (1) No task or delivery order contract in an amount estimated to exceed \$103 million (including all options) may be awarded to a single source unless the head of the agency determines in writing that—

(i) The task or delivery orders expected under the contract are so integrally related that only a single source can reasonably perform the work;

(ii) The contract provides only for firm-fixed price (see [16.202](#)) task or delivery orders for—

(A) Products for which unit prices are established in the contract; or

(B) Services for which prices are established in the contract for the specific tasks to be performed;

(iii) Only one source is qualified and capable of performing the work at a reasonable price to the Government; or

(iv) It is necessary in the public interest to award the contract to a single source due to exceptional circumstances.

(2) The head of the agency must notify Congress within 30 days after any determination under paragraph (c)(1)(ii)(D)(1)(iv) of this section.

(3) The requirement for a determination for a single-award contract greater than \$103 million:

(i) Is in addition to any applicable requirements of [Subpart 6.3](#).

(ii) Is not applicable for architect-engineer services awarded pursuant to [Subpart 36.6](#).

(2) *Contracts for advisory and assistance services.*

(i) Except as provided in paragraph (c)(2)(ii) of this section, if an indefinite-quantity contract for advisory and assistance services exceeds 3 years and \$12.5 million, including all options, the contracting officer must make multiple awards unless—

(A) The contracting officer or other official designated by the head of the agency determines in writing, as part of acquisition planning, that multiple awards are not practicable. The contracting officer or other official must determine that only one contractor can reasonably perform the work because either the scope of work is unique or highly specialized or the tasks so integrally related;

(B) The contracting officer or other official designated by the head of the agency determines in writing, after the evaluation of offers, that only one offeror is capable of providing the services required at the level of quality required; or

(C) Only one offer is received.

(ii) The requirements of paragraph (c)(2)(i) of this section do not apply if the contracting officer or other official designated by the head of the agency determines that the advisory and assistance services are incidental and not a significant component of the contract.

16.505 Ordering.

(a) *General.* (1) In general, the contracting officer does not synopsise orders under indefinite-delivery contracts; except see [16.505](#)(a)(4) and (11), and [16.505](#)(b)(2)(ii)(D).

(2) Individual orders shall clearly describe all services to be performed or supplies to be delivered so the full cost or price for the performance of the work can be established when the order is placed. Orders shall be within the scope, issued within the period of performance, and be within the maximum value of the contract.

(3) Performance-based acquisition methods must be used to the maximum extent practicable, if the contract or order is for services (see [37.102](#)(a) and [Subpart 37.6](#)).

(4) The following requirements apply when procuring items peculiar to one manufacturer:

(i) The contracting officer must justify restricting consideration to an item peculiar to one manufacturer (*e.g.*, a

particular brand-name, product, or a feature of a product that is peculiar to one manufacturer). A brand-name item, even if available on more than one contract, is an item peculiar to one manufacturer. Brand-name specifications shall not be used unless the particular brand-name, product, or feature is essential to the Government's requirements and market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency's needs.

(ii) Requirements for use of items peculiar to one manufacturer shall be justified and approved using the format(s) and requirements from paragraphs (b)(2)(ii)(A), (B), and (C) of this section, modified to show the brand-name justification. A justification is required unless a justification covering the requirements in the order was previously approved for the contract in accordance with [6.302-1\(c\)](#) or unless the base contract is a single-award contract awarded under full and open competition. Justifications for the use of brand-name specifications must be completed and approved at the time the requirement for a brand-name is determined.

(iii)(A) For an order in excess of \$25,000, the contracting officer shall—

(1) Post the justification and supporting documentation on the agency website used (if any) to solicit offers for orders under the contract; or

(2) Provide the justification and supporting documentation along with the solicitation to all contract awardees.

(B) The justifications for brand-name acquisitions may apply to the portion of the acquisition requiring the brand-name item. If the justification is to cover only the portion of the acquisition which is brand-name, then it should so state; the approval level requirements will then only apply to that portion.

(C) The requirements in paragraph (a)(4)(iii)(A) of this section do not apply when disclosure would compromise the national security (e.g., would result in disclosure of classified information) or create other security risks.

(D) The justification is subject to the screening requirement in paragraph (b)(2)(ii)(D)(4) of this section.

(5) When acquiring information technology and related services, consider the use of modular contracting to reduce program risk (see [39.103\(a\)](#)).

(6) Orders may be placed by using any medium specified in the contract.

(7) Orders placed under indefinite-delivery contracts must contain the following information:

(i) Date of order.

(ii) Contract number and order number.

(iii) For supplies and services, contract item number and description, quantity, and unit price or estimated cost or fee.

(iv) Delivery or performance schedule.

(v) Place of delivery or performance (including consignee).

(vi) Any packaging, packing, and shipping instructions.

(vii) Accounting and appropriation data.

(viii) Method of payment and payment office, if not specified in the contract (see [32.1110\(e\)](#)).

(8) Orders placed under a task-order contract or delivery-order contract awarded by another agency (i.e., a Governmentwide acquisition contract, or multi-agency contract)—

(i) Are not exempt from the development of acquisition plans (see [Subpart 7.1](#)), and an information technology acquisition strategy (see [Part 39](#));

(ii) May not be used to circumvent conditions and limitations imposed on the use of funds (e.g., [31 U.S.C. 1501\(a\)\(1\)](#)); and

(iii) Must comply with all FAR requirements for a bundled contract when the order meets the definition of "bundled contract" (see [2.101\(b\)](#)).

(9) In accordance with section 1427(b) of Public Law 108-136, orders placed under multi-agency contracts for services that substantially or to a dominant extent specify performance of architect-engineer services, as defined in [2.101](#), shall—

(i) Be awarded using the procedures at [Subpart 36.6](#); and

(ii) Require the direct supervision of a professional architect or engineer licensed, registered or certified in the State, Federal District, or outlying area, in which the services are to be performed.

(10) (i) No protest under [Subpart 33.1](#) is authorized in connection with the issuance or proposed issuance of an order under a task-order contract or delivery-order contract, except for—

(A) A protest on the grounds that the order increases the scope, period, or maximum value of the contract; or

(B) A protest of an order valued in excess of \$10 million. Protests of orders in excess of \$10 million may only be filed with the Government Accountability Office, in accordance with the procedures at [33.104](#).

(ii) The authority to protest the placement of an order under this subpart expires on September 30, 2016, for DoD, NASA and the Coast Guard ([10 U.S.C. 2304a\(d\)](#) and [2304c\(e\)](#)), and on May 27, 2011, for other agencies ([41 U.S.C. 4103\(d\)](#) and [4106\(f\)](#)).

(11) Publicize orders funded in whole or in part by the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5) as follows:

(i) Notices of proposed orders shall follow the procedures in [5.704](#) for posting orders.

(ii) Award notices for orders shall follow the procedures in [5.705](#).

(12) When using the Governmentwide commercial purchase card as a method of payment, orders at or below the micro-purchase threshold are exempt from verification in the Central Contractor Registration (CCR) database as to whether the contractor has a delinquent debt subject to collection under the Treasury Offset Program (TOP).

(b) *Orders under multiple-award contracts*—(1) *Fair opportunity.*(i) The contracting officer must provide each awardee a fair opportunity to be considered for each order exceeding \$3,000 issued under multiple delivery-order contracts or multiple task-order contracts, except as provided for in paragraph (b)(2) of this section.

(ii) The contracting officer may exercise broad discretion in developing appropriate order placement procedures. The contracting officer should keep submission requirements to a minimum. Contracting officers may use streamlined procedures, including oral presentations. If the order does not exceed the simplified acquisition threshold, the contracting officer need not contact each of the multiple awardees under the contract before selecting an order awardee if the contracting officer has information available to ensure that each awardee is provided a fair opportunity to be considered for each order. The competition requirements in [Part 6](#) and the policies in [Subpart 15.3](#) do not apply to the ordering process. However, the contracting officer must—

(A) Develop placement procedures that will provide each awardee a fair opportunity to be considered for each order and that reflect the requirement and other aspects of the contracting environment;

(B) Not use any method (such as allocation or designation of any preferred awardee) that would not result in fair consideration being given to all awardees prior to placing each order;

(C) Tailor the procedures to each acquisition;

(D) Include the procedures in the solicitation and the contract; and

(E) Consider price or cost under each order as one of the factors in the selection decision.

(iii) *Orders exceeding the simplified acquisition threshold.* (A) Each order exceeding the simplified acquisition threshold shall be placed on a competitive basis in accordance with paragraph (b)(1)(iii)(B) of this section, unless supported by a written determination that one of the circumstances described at [16.505\(b\)\(2\)\(i\)](#) applies to the order and the requirement is waived on the basis of a justification that is prepared in accordance with [16.505\(b\)\(2\)\(ii\)\(B\)](#);

(B) The contracting officer shall—

(1) Provide a fair notice of the intent to make a purchase, including a clear description of the supplies to be delivered or the services to be performed and the basis upon which the selection will be made to all contractors offering the required supplies or services under the multiple-award contract; and

(2) Afford all contractors responding to the notice a fair opportunity to submit an offer and have that offer fairly considered.

(iv) *Orders exceeding \$5 million.* For task or delivery orders in excess of \$5 million, the requirement to provide all awardees a fair opportunity to be considered for each order shall include, at a minimum—

(A) A notice of the task or delivery order that includes a clear statement of the agency's requirements;

(B) A reasonable response period;

(C) Disclosure of the significant factors and sub-factors, including cost or price, that the agency expects to consider in evaluating proposals, and their relative importance;

(D) Where award is made on a best value basis, a written statement documenting the basis for award and the relative importance of quality and price or cost factors; and

(E) An opportunity for a postaward debriefing in accordance with paragraph (b)(4) of this section.

(v) The contracting officer should consider the following when developing the procedures:

(A) (1) Past performance on earlier orders under the contract, including quality, timeliness and cost control.

(2) Potential impact on other orders placed with the contractor.

(3) Minimum order requirements.

(4) The amount of time contractors need to make informed business decisions on whether to respond to potential orders.

(5) Whether contractors could be encouraged to respond to potential orders by outreach efforts to promote exchanges of information, such as—

(i) Seeking comments from two or more contractors on draft statements of work;

(ii) Using a multiphased approach when effort required to respond to a potential order may be resource intensive (e.g., requirements are complex or need continued development), where all contractors are initially considered on price considerations (e.g., rough estimates), and other considerations as appropriate (e.g., proposed conceptual approach, past performance). The contractors most likely to submit the highest value solutions are then selected for one-on-one sessions with the Government to increase their understanding of the requirements, provide suggestions for refining requirements, and discuss risk reduction measures.

(B) Formal evaluation plans or scoring of quotes or offers are not required.

(2) *Exceptions to the fair opportunity process.*(i) The contracting officer shall give every awardee a fair opportunity to be considered for a delivery-order or task-order exceeding \$3,000 unless one of the following statutory exceptions applies:

(A) The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

(B) Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized.

(C) The order must be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order.

(D) It is necessary to place an order to satisfy a minimum guarantee.

(E) For orders exceeding the simplified acquisition threshold, a statute expressly authorizes or requires that the purchase be made from a specified source.

(F) In accordance with section 1331 of Public Law 111-240 ([15 U.S.C. 644\(r\)](#)), contracting officers may, at their discretion, set aside orders for any of the small business concerns identified in [19.000\(a\)\(3\)](#). When setting aside orders for small business concerns, the specific small business program eligibility requirements identified in part [19](#) apply.

(ii) The justification for an exception to fair opportunity shall be in writing as specified in paragraphs (b)(2)(ii)(A) or (B) of this section. No justification is needed for the exception described in paragraph (b)(2)(i)(F) of this section.

(A) *Orders exceeding \$3,000, but not exceeding the simplified acquisition threshold.* The contracting officer shall document the basis for using an exception to the fair opportunity process. If the contracting officer uses the logical follow-on exception, the rationale shall describe why the relationship between the initial order and the follow-on is logical (*e.g.*, in terms of scope, period of performance, or value).

(B) Orders exceeding the simplified acquisition threshold. As a minimum, each justification shall include the following information and be approved in accordance with paragraph (b)(2)(ii)(C) of this section:

(1) Identification of the agency and the contracting activity, and specific identification of the document as a “Justification for an Exception to Fair Opportunity.”

(2) Nature and/or description of the action being approved.

(3) A description of the supplies or services required to meet the agency’s needs (including the estimated value).

(4) Identification of the exception to fair opportunity (see [16.505\(b\)\(2\)](#)) and the supporting rationale, including a demonstration that the proposed contractor’s unique qualifications or the nature of the acquisition requires use of the exception cited. If the contracting officer uses the logical follow-on exception, the rationale shall describe why

the relationship between the initial order and the follow-on is logical (*e.g.*, in terms of scope, period of performance, or value).

(5) A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

(6) Any other facts supporting the justification.

(7) A statement of the actions, if any, the agency may take to remove or overcome any barriers that led to the exception to fair opportunity before any subsequent acquisition for the supplies or services is made.

(8) The contracting officer’s certification that the justification is accurate and complete to the best of the contracting officer’s knowledge and belief.

(9) Evidence that any supporting data that is the responsibility of technical or requirements personnel (*e.g.*, verifying the Government’s minimum needs or requirements or other rationale for an exception to fair opportunity) and which form a basis for the justification have been certified as complete and accurate by the technical or requirements personnel.

(10) A written determination by the approving official that one of the circumstances in (b)(2)(i)(A) through (E) of this section applies to the order.

(C) *Approval.*(1) For proposed orders exceeding the simplified acquisition threshold, but not exceeding \$650,000, the ordering activity contracting officer’s certification that the justification is accurate and complete to the best of the ordering activity contracting officer’s knowledge and belief will serve as approval, unless a higher approval level is established in accordance with agency procedures.

(2) For a proposed order exceeding \$650,000, but not exceeding \$12.5 million, the justification must be approved by the competition advocate of the activity placing the order, or by an official named in paragraph (b)(2)(ii)(C)(3) or (4) of this section. This authority is not delegable.

(3) For a proposed order exceeding \$12.5 million, but not exceeding \$62.5 million (or, for DoD, NASA, and the Coast Guard, not exceeding \$85.5 million), the justification must be approved by—

(i) The head of the procuring activity placing the order;

(ii) A designee who—

(A) If a member of the armed forces, is a general or flag officer;

(B) If a civilian, is serving in a position in a grade above GS-15 under the General Schedule (or in a comparable or higher position under another schedule); or

(iii) An official named in paragraph (b)(2)(ii)(C)(4) of this section.

(4) For a proposed order exceeding \$62.5 million (or, for DoD, NASA, and the Coast Guard, over \$85.5

million), the justification must be approved by the senior procurement executive of the agency placing the order. This authority is not delegable, except in the case of the Under Secretary of Defense for Acquisition, Technology, and Logistics, acting as the senior procurement executive for the Department of Defense.

(D) *Posting.* (1) Except as provided in paragraph (b)(2)(ii)(D)(5) of this section, within 14 days after placing an order exceeding the simplified acquisition threshold that does not provide for fair opportunity in accordance with [16.505\(b\)](#), the contract officer shall—

- (i) Publish a notice in accordance with [5.301](#); and
- (ii) Make publicly available the justification required at (b)(2)(ii)(B) of this section.

(2) The justification shall be made publicly available—

- (i) At the GPE www.fedbizopps.gov;
- (ii) On the Web site of the agency, which may provide access to the justifications by linking to the GPE; and
- (iii) Must remain posted for a minimum of 30 days.

(3) In the case of an order permitted under paragraph (b)(2)(i)(A) of this subsection, the justification shall be posted within 30 days after award of the order.

(4) Contracting officers shall carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before making the justifications available for public inspection. Contracting officers shall also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act ([5 U.S.C. 552](#)) and the prohibitions against disclosure in [24.202](#) in determining whether other data should be removed. Although the submitter notice process set out in Executive Order 12600 “Predisclosure Notification Procedures for Confidential Commercial Information” does not apply, if the justification appears to contain proprietary data, the contracting officer should provide the contractor that submitted the information an opportunity to review the justification for proprietary data before making the justification available for public inspection, redacted as necessary. This process must not prevent or delay the posting of the justification in accordance with the timeframes required in paragraphs (1) and (3).

(5) The posting requirement of this section does not apply—

- (i) When disclosure would compromise the national security (e.g., would result in disclosure of classified information) or create other security risks; or
- (ii) To a small business set-aside under paragraph (b)(2)(i)(F).

(3) *Pricing orders.* If the contract did not establish the price for the supply or service, the contracting officer must establish prices for each order using the policies and methods in Subpart 15.4.

(4) *Postaward Notices and Debriefing of Awardees for Orders Exceeding \$5 million.* The contracting officer shall notify unsuccessful awardees when the total price of a task or delivery order exceeds \$5 million.

(i) The procedures at [15.503\(b\)\(1\)](#) shall be followed when providing postaward notification to unsuccessful awardees.

(ii) The procedures at [15.506](#) shall be followed when providing postaward debriefing to unsuccessful awardees.

(iii) A summary of the debriefing shall be included in the task or delivery order file.

(5) *Decision documentation for orders.* (i) The contracting officer shall document in the contract file the rationale for placement and price of each order, including the basis for award and the rationale for any tradeoffs among cost or price and non-cost considerations in making the award decision. This documentation need not quantify the tradeoffs that led to the decision.

(ii) The contract file shall also identify the basis for using an exception to the fair opportunity process (see paragraph (b)(2))

(6) *Task-order and delivery-order ombudsman.* The head of the agency shall designate a task-order and delivery-order ombudsman. The ombudsman must review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures in the contract. The ombudsman must be a senior agency official who is independent of the contracting officer and may be the agency’s competition advocate.

(c) *Limitation on ordering period for task-order contracts for advisory and assistance services.* (1) Except as provided for in paragraphs (c)(2) and (c)(3), the ordering period of a task-order contract for advisory and assistance services, including all options or modifications, normally may not exceed 5 years.

(2) The 5-year limitation does not apply when—

(i) A longer ordering period is specifically authorized by a statute; or

(ii) The contract is for an acquisition of supplies or services that includes the acquisition of advisory and assistance services and the contracting officer, or other official designated by the head of the agency, determines that the advisory and assistance services are incidental and not a significant component of the contract.

(3) The contracting officer may extend the contract on a sole-source basis only once for a period not to exceed 6 months if the contracting officer, or other official designated by the head of the agency, determines that—

(i) The award of a follow-on contract is delayed by circumstances that were not reasonably foreseeable at the time the initial contract was entered into; and

(ii) The extension is necessary to ensure continuity of services, pending the award of the follow-on contract.

16.506 Solicitation provisions and contract clauses.

(a) Insert the clause at [52.216-18](#), Ordering, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(b) Insert a clause substantially the same as the clause at [52.216-19](#), Order Limitations, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(c) Insert the clause at [52.216-20](#), Definite Quantity, in solicitations and contracts when a definite-quantity contract is contemplated.

(d)(1) Insert the clause at [52.216-21](#), Requirements, in solicitations and contracts when a requirements contract is contemplated.

(2) If the contract is for nonpersonal services and related supplies and covers estimated requirements that exceed a specific Government activity's internal capability to produce or perform, use the clause with its Alternate I.

(3) If the contract includes subsistence for both Government use and resale in the same Schedule, and similar products may be acquired on a brand-name basis, use the clause with its Alternate II (but see paragraph (d)(5) of this section).

(4) If the contract involves a partial small business set-aside, use the clause with its Alternate III (but see paragraph (d)(5) of this section).

(5) If the contract—

(i) Includes subsistence for Government use and resale in the same schedule and similar products may be acquired on a brand-name basis; and

(ii) Involves a partial small business set-aside, use the clause with its Alternate IV.

(e) Insert the clause at [52.216-22](#), Indefinite Quantity, in solicitations and contracts when an indefinite-quantity contract is contemplated.

(f) Insert the provision at [52.216-27](#), Single or Multiple Awards, in solicitations for indefinite-quantity contracts that may result in multiple contract awards. Modify the provision to specify the estimated number of awards. Do not use this provision for advisory and assistance services contracts that exceed 3 years and \$12.5 million (including all options).

(g) Insert the provision at [52.216-28](#), Multiple Awards for Advisory and Assistance Services, in solicitations for task-order contracts for advisory and assistance services that exceed 3 years and \$12.5 million (including all options), unless a determination has been made under [16.504\(c\)\(2\)\(i\)\(A\)](#). Modify the provision to specify the estimated number of awards.

(h) See [10.001\(d\)](#) for insertion of the clause at [52.210-1](#), Market Research, when the contract is over \$5 million for the procurement of items other than commercial items.

Subpart 16.6—Time-and-Materials, Labor-Hour, and Letter Contracts

16.600 Scope.

Time-and-materials contracts and labor-hour contracts are not fixed-price contracts.

16.601 Time-and-materials contracts.

(a) Definitions for the purposes of Time-and-Materials Contracts.

“Direct materials” means those materials that enter directly into the end product, or that are used or consumed directly in connection with the furnishing of the end product or service.

“Hourly rate” means the rate(s) prescribed in the contract for payment for labor that meets the labor category qualifications of a labor category specified in the contract that are—

- (1) Performed by the contractor;
- (2) Performed by the subcontractors; or
- (3) Transferred between divisions, subsidiaries, or affiliates of the contractor under a common control.

“Materials” means—

(1) Direct materials, including supplies transferred between divisions, subsidiaries, or affiliates of the contractor under a common control;

(2) Subcontracts for supplies and incidental services for which there is not a labor category specified in the contract;

(3) Other direct costs (*e.g.*, incidental services for which there is not a labor category specified in the contract, travel, computer usage charges, etc.); and

(4) Applicable indirect costs.

(b) *Description.* A time-and-materials contract provides for acquiring supplies or services on the basis of—

(1) Direct labor hours at specified fixed hourly rates that include wages, overhead, general and administrative expenses, and profit; and

(2) Actual cost for materials (except as provided for in [31.205-26\(e\)](#) and (f)).

(c) *Application.* A time-and-materials contract may be used only when it is not possible at the time of placing the contract to estimate accurately the extent or duration of the work or to anticipate costs with any reasonable degree of confidence. See [12.207\(b\)](#) for the use of time-and-material contracts for certain commercial services.

(1) *Government surveillance.* A time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, appropriate Government surveillance of contractor performance is required to give reasonable assurance that efficient methods and effective cost controls are being used.

(2) *Fixed hourly rates.* (i) The contract shall specify separate fixed hourly rates that include wages, overhead, general and administrative expenses, and profit for each category of labor (see [16.601\(e\)\(1\)](#)).

(ii) For acquisitions of noncommercial items awarded without adequate price competition (see [15.403-1\(c\)\(1\)](#)), the contract shall specify separate fixed hourly rates that include wages, overhead, general and administrative expenses, and profit for each category of labor to be performed by—

(A) The contractor;

(B) Each subcontractor; and

(C) Each division, subsidiary, or affiliate of the contractor under a common control.

(iii) For contract actions that are not awarded using competitive procedures, unless exempt under paragraph (c)(2)(iv) of this section, the fixed hourly rates for services transferred between divisions, subsidiaries, or affiliates of the contractor under a common control—

(A) Shall not include profit for the transferring organization; but

(B) May include profit for the prime contractor.

(iv) For contract actions that are not awarded using competitive procedures, the fixed hourly rates for services that meet the definition of commercial item at [2.101](#) that are transferred between divisions, subsidiaries, or affiliates of the contractor under a common control may be the established catalog or market rate when—

(A) It is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary or affiliate of the contractor under a common control; and

(B) The contracting officer has not determined the price to be unreasonable.

(3) *Material handling costs.* When included as part of material costs, material handling costs shall include only costs clearly excluded from the labor-hour rate. Material handling costs may include all appropriate indirect costs allocated to direct materials in accordance with the contractor's usual accounting procedures consistent with [Part 31](#).

(d) *Limitations.* A time-and-materials contract may be used only if—

(1) The contracting officer prepares a determination and findings that no other contract type is suitable. The determination and finding shall be—

(i) Signed by the contracting officer prior to the execution of the base period or any option periods of the contracts; and

(ii) Approved by the head of the contracting activity prior to the execution of the base period when the base period plus any option periods exceeds three years; and

(2) The contract includes a ceiling price that the contractor exceeds at its own risk. The contracting officer shall document the contract file to justify the reasons for and amount of any subsequent change in the ceiling price. Also see [12.207\(b\)](#) for further limitations on use of Time-and-

Materials or Labor Hour contracts for acquisition of commercial items.

(e) *Solicitation provisions.* (1) The contracting officer shall insert the provision at [52.216-29](#), Time-and-Materials/Labor-Hour Proposal Requirements—Non-Commercial Item Acquisitions With Adequate Price Competition, in solicitations contemplating use of a Time-and-Materials or Labor-Hour type of contract for noncommercial items, if the price is expected to be based on adequate price competition. If authorized by agency procedures, the contracting officer may amend the provision to make mandatory one of the three approaches in paragraph (c) of the provision, and/or to require the identification of all subcontractors, divisions, subsidiaries, or affiliates included in a blended labor rate.

(2) The contracting officer shall insert the provision at [52.216-30](#), Time-and-Materials/Labor-Hour Proposal Requirements—Non-Commercial Item Acquisitions without Adequate Price Competition, in solicitations for noncommercial items contemplating use of a Time-and-Materials or Labor-Hour type of contract if the price is not expected to be based on adequate price competition.

(3) The contracting officer shall insert the provision at [52.216-31](#), Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisitions, in solicitations contemplating use of a Commercial Time-and-Materials or Labor-Hour contract.

16.602 Labor-hour contracts.

Description. A labor-hour contract is a variation of the time-and-materials contract, differing only in that materials are not supplied by the contractor. See [12.207\(b\)](#), [16.601\(c\)](#), and [16.601\(d\)](#) for application and limitations, for time-and-materials contracts that also apply to labor-hour contracts. See [12.207\(b\)](#) for the use of labor-hour contracts for certain commercial services.

16.603 Letter contracts.

16.603-1 Description.

A letter contract is a written preliminary contractual instrument that authorizes the contractor to begin immediately manufacturing supplies or performing services.

16.603-2 Application.

(a) A letter contract may be used when (1) the Government's interests demand that the contractor be given a binding commitment so that work can start immediately and (2) negotiating a definitive contract is not possible in sufficient time to meet the requirement. However, a letter contract should be as complete and definite as feasible under the circumstances.

(b) When a letter contract award is based on price competition, the contracting officer shall include an overall price ceiling in the letter contract.

(c) Each letter contract shall, as required by the clause at [52.216-25](#), Contract Definitization, contain a negotiated definitization schedule including (1) dates for submission of the contractor's price proposal, required certified cost or pricing data and data other than certified cost or pricing data; and, if required, make-or-buy and subcontracting plans, (2) a date for the start of negotiations, and (3) a target date for definitization, which shall be the earliest practicable date for definitization. The schedule will provide for definitization of the contract within 180 days after the date of the letter contract or before completion of 40 percent of the work to be performed, whichever occurs first. However, the contracting officer may, in extreme cases and according to agency procedures, authorize an additional period. If, after exhausting all reasonable efforts, the contracting officer and the contractor cannot negotiate a definitive contract because of failure to reach agreement as to price or fee, the clause at [52.216-25](#) requires the contractor to proceed with the work and provides that the contracting officer may, with the approval of the head of the contracting activity, determine a reasonable price or fee in accordance with [Subpart 15.4](#) and [Part 31](#), subject to appeal as provided in the Disputes clause.

(d) The maximum liability of the Government inserted in the clause at [52.216-24](#), Limitation of Government Liability, shall be the estimated amount necessary to cover the contractor's requirements for funds before definitization. However, it shall not exceed 50 percent of the estimated cost of the definitive contract unless approved in advance by the official that authorized the letter contract.

(e) The contracting officer shall assign a priority rating to the letter contract if it is appropriate under [11.604](#).

16.603-3 Limitations.

A letter contract may be used only after the head of the contracting activity or a designee determines in writing that no other contract is suitable. Letter contracts shall not—

(a) Commit the Government to a definitive contract in excess of the funds available at the time the letter contract is executed;

(b) Be entered into without competition when competition is required by [Part 6](#); or

(c) Be amended to satisfy a new requirement unless that requirement is inseparable from the existing letter contract. Any such amendment is subject to the same requirements and limitations as a new letter contract.

16.603-4 Contract clauses.

(a) The contracting officer shall include in each letter contract the clauses required by this regulation for the type of

definitive contract contemplated and any additional clauses known to be appropriate for it.

(b) In addition, the contracting officer shall insert the following clauses in solicitations and contracts when a letter contract is contemplated:

(1) The clause at [52.216-23](#), Execution and Commencement of Work, except that this clause may be omitted from letter contracts awarded on [SF 26](#);

(2) The clause at [52.216-24](#), Limitation of Government Liability, with dollar amounts completed in a manner consistent with [16.603-2\(d\)](#); and

(3) The clause at [52.216-25](#), Contract Definitization, with its paragraph (b) completed in a manner consistent with [16.603-2\(c\)](#). If at the time of entering into the letter contract,

the contracting officer knows that the definitive contract will be based on adequate price competition or will otherwise meet the criteria of [15.403-1](#) for not requiring submission of certified cost or pricing data, the words “and certified cost or pricing data in accordance with FAR 15.408, Table 15-2 supporting its proposal” may be deleted from paragraph (a) of the clause. If the letter contract is being awarded on the basis of price competition, the contracting officer shall use the clause with its Alternate I.

(c) The contracting officer shall also insert the clause at [52.216-26](#), Payments of Allowable Costs Before Definitization, in solicitations and contracts if a cost-reimbursement definitive contract is contemplated, unless the acquisition involves conversion, alteration, or repair of ships.

Subpart 17.5—Interagency Acquisitions

17.500 Scope of subpart.

(a) This subpart prescribes policies and procedures applicable to all interagency acquisitions under any authority, except as provided for in paragraph (c) of this section.

(b) This subpart applies to interagency acquisitions, see 2.101 for definition, when—

(1) An agency needing supplies or services obtains them using another agency's contract; or

(2) An agency uses another agency to provide acquisition assistance, such as awarding and administering a contract, a task order, or delivery order.

(c) This subpart does not apply to—

(1) Interagency reimbursable work performed by Federal employees (other than acquisition assistance), or interagency activities where contracting is incidental to the purpose of the transaction; or

(2) Orders of \$500,000 or less issued against Federal Supply Schedules.

17.501 General.

(a) Interagency acquisitions are commonly conducted through indefinite-delivery contracts, such as task- and delivery-order contracts. The indefinite-delivery contracts used most frequently to support interagency acquisitions are Federal Supply Schedules (FSS), Governmentwide acquisition contracts (GWACs), and multi-agency contracts (MACs).

(b) An agency shall not use an interagency acquisition to circumvent conditions and limitations imposed on the use of funds.

(c) An interagency acquisition is not exempt from the requirements of subpart 7.3, Contractor Versus Government Performance.

(d) An agency shall not use an interagency acquisition to make acquisitions conflicting with any other agency's authority or responsibility (for example, that of the Administrator of General Services under [title 40, United States Code](#), "Public Buildings, Property and Works" and title III of the Federal Property and Administrative Services Act of 1949.)

17.502 Procedures.

17.502-1 General.

(a) *Determination of best procurement approach.*

(1) *Assisted acquisitions.* Prior to requesting that another agency conduct an acquisition on its behalf, the requesting agency shall make a determination that the use of an interagency acquisition represents the best procurement approach. As part of the best procurement approach determination, the requesting agency shall obtain the concurrence of the requesting agency's responsible contracting office in accordance

with internal agency procedures. At a minimum, the determination shall include an analysis of procurement approaches, including an evaluation by the requesting agency that using the acquisition services of another agency—

(i) Satisfies the requesting agency's schedule, performance, and delivery requirements (taking into account factors such as the servicing agency's authority, experience, and expertise as well as customer satisfaction with the servicing agency's past performance);

(ii) Is cost effective (taking into account the reasonableness of the servicing agency's fees); and

(iii) Will result in the use of funds in accordance with appropriation limitations and compliance with the requesting agency's laws and policies.

(2) *Direct acquisitions.* Prior to placing an order against another agency's indefinite-delivery vehicle, the requesting agency shall make a determination that use of another agency's contract vehicle is the best procurement approach and shall obtain the concurrence of the requesting agency's responsible contracting office. At a minimum, the determination shall include an analysis, including factors such as:

(i) The suitability of the contract vehicle;

(ii) The value of using the contract vehicle, including—

(A) The administrative cost savings from using an existing contract;

(B) Lower prices, greater number of vendors, and reasonable vehicle access fees; and

(iii) The expertise of the requesting agency to place orders and administer them against the selected contract vehicle throughout the acquisition lifecycle.

(b) *Written agreement on responsibility for management and administration.* (1) *Assisted acquisitions.* (i) Prior to the issuance of a solicitation, the servicing agency and the requesting agency shall both sign a written interagency agreement that establishes the general terms and conditions governing the relationship between the parties, including roles and responsibilities for acquisition planning, contract execution, and administration and management of the contract(s) or order(s). The requesting agency shall provide to the servicing agency any unique terms, conditions, and applicable agency-specific statutes, regulations, directives, and other applicable requirements for incorporation into the order or contract; for patent rights, see [27.304-2](#). In preparing interagency agreements to support assisted acquisitions, agencies should review the Office of Federal Procurement Policy guidance, Interagency Acquisitions, available at http://www.whitehouse.gov/omb/assets/procurement/iac_revised.pdf.

(ii) Each agency's file shall include the interagency agreement between the requesting and servicing agency, and shall include sufficient documentation to ensure an adequate audit consistent with [4.801\(b\)](#).

(2) *Direct acquisitions.* The requesting agency administers the order; therefore, no written agreement with the servicing agency is required.

(c) *Business-case analysis requirements for multi-agency contracts and governmentwide acquisition contracts.* In order to establish a multi-agency or governmentwide acquisition contract, a business-case analysis must be prepared by the servicing agency and approved in accordance with the Office of Federal Procurement Policy (OFPP) business case guidance, available at <http://www.whitehouse.gov/sites/default/files/omb/procurement/memo/development-review-and-approval-of-business-cases-for-certain-interagency-and-agency-specific-acquisitions-memo.pdf>. The business-case analysis shall—

(1) Consider strategies for the effective participation of small businesses during acquisition planning (see 7.103(u));

(2) Detail the administration of such contract, including an analysis of all direct and indirect costs to the Government of awarding and administering such contract;

(3) Describe the impact such contract will have on the ability of the Government to leverage its purchasing power, *e.g.*, will it have a negative effect because it dilutes other existing contracts;

(4) Include an analysis concluding that there is a need for establishing the multi-agency contract; and

(5) Document roles and responsibilities in the administration of the contract.

17.502-2 The Economy Act.

(a) The Economy Act ([31 U.S.C. 1535](#)) authorizes agencies to enter into agreements to obtain supplies or services from another agency. The FAR applies when one agency uses another agency's contract to obtain supplies or services. If the interagency business transaction does not result in a contract or an order, then the FAR does not apply. The Economy Act also provides authority for placement of orders between major organizational units within an agency; procedures for such intra-agency transactions are addressed in agency regulations.

(b) The Economy Act applies when more specific statutory authority does not exist. Examples of more specific authority are [40 U.S.C. 501](#) for the Federal Supply Schedules (subpart 8.4), and [40 U.S.C. 11302](#)(e) for Governmentwide acquisition contracts (GWACs).

(c) *Requirements for determinations and findings.*

(1) Each Economy Act order to obtain supplies or services by interagency acquisition shall be supported by a determination and findings (D&F). The D&F shall—

(i) State that use of an interagency acquisition is in the best interest of the Government;

(ii) State that the supplies or services cannot be obtained as conveniently or economically by contracting directly with a private source; and

(iii) Include a statement that at least one of the following circumstances applies:

(A) The acquisition will appropriately be made under an existing contract of the servicing agency, entered into before placement of the order, to meet the requirements of the servicing agency for the same or similar supplies or services.

(B) The servicing agency has the capability or expertise to enter into a contract for such supplies or services that is not available within the requesting agency.

(C) The servicing agency is specifically authorized by law or regulation to purchase such supplies or services on behalf of other agencies.

(2) The D&F shall be approved by a contracting officer of the requesting agency with authority to contract for the supplies or services to be ordered, or by another official designated by the agency head, except that, if the servicing agency is not covered by the FAR, approval of the D&F may not be delegated below the senior procurement executive of the requesting agency.

(3) The requesting agency shall furnish a copy of the D&F to the servicing agency with the request for order.

(d) *Payment.* (1) *The servicing agency may ask the requesting agency, in writing, for advance payment for all or part of the estimated cost of furnishing the supplies or services. Adjustment on the basis of actual costs shall be made as agreed to by the agencies.*

(2) If approved by the servicing agency, payment for actual costs may be made by the requesting agency after the supplies or services have been furnished.

(3) Bills rendered or requests for advance payment shall not be subject to audit or certification in advance of payment.

(4) In no event shall the servicing agency require, or the requesting agency pay, any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) of entering into and administering the contract or other agreement under which the order is filled.

17.503 Ordering procedures.

(a) Before placing an order for supplies or services with another Government agency, the requesting agency shall follow the procedures in [17.502-1](#) and, if under the Economy Act, also [17.502-2](#).

(b) The order may be placed on any form or document that is acceptable to both agencies. The order should include—

(1) A description of the supplies or services required;

(2) Delivery requirements;

(3) A funds citation;

(4) A payment provision (see [17.502-2](#)(d) for Economy Act orders); and

(5) Acquisition authority as may be appropriate (see [17.503](#)(d)).

(c) The requesting and servicing agencies should agree to procedures for the resolution of disagreements that may arise under interagency acquisitions, including, in appropriate circumstances, the use of a third-party forum. If a third party is proposed, consent of the third party should be obtained in writing.

(d) When an interagency acquisition requires the servicing agency to award a contract, the following procedures also apply:

(1) If a justification and approval or a D&F (other than the requesting agency's D&F required in [17.502-2\(c\)](#)) is required by law or regulation, the servicing agency shall execute and issue the justification and approval or D&F. The requesting agency shall furnish the servicing agency any information needed to make the justification and approval or D&F.

(2) The requesting agency shall also be responsible for furnishing other assistance that may be necessary, such as providing information or special contract terms needed to comply with any condition or limitation applicable to the funds of the requesting agency.

(3) The servicing agency is responsible for compliance with all other legal or regulatory requirements applicable to the contract, including—

(i) Having adequate statutory authority for the contractual action; and

(ii) Complying fully with the competition requirements of part 6 (see [6.002](#)). However, if the servicing agency is not subject to the Federal Acquisition Regulation, the requesting agency shall verify that contracts utilized to meet its requirements contain provisions protecting the Government from inappropriate charges (for example, provisions mandated for FAR agencies by part [31](#)), and that adequate contract administration will be provided.

(e) Nonsponsoring Federal agencies may use a Federally Funded Research and Development Center (FFRDC) only if the terms of the FFRDC's sponsoring agreement permit work from other than a sponsoring agency. Work placed with the FFRDC is subject to the acceptance by the sponsor and must fall within the purpose, mission, general scope of effort, or special competency of the FFRDC. (See [35.017](#); see also [6.302](#) for procedures to follow where using other than full and open competition.) The nonsponsoring agency shall provide to the sponsoring agency necessary documentation that the requested work would not place the FFRDC in direct competition with domestic private industry.

17.504 Reporting requirements.

The senior procurement executive for each executive agency shall submit to the Director of OMB an annual report on interagency acquisitions, as directed by OMB.

This page intentionally left blank.

18.000 Scope of part.

(a) This part identifies acquisition flexibilities that are available for emergency acquisitions. These flexibilities are specific techniques or procedures that may be used to streamline the standard acquisition process. This part includes—

- (1) Generally available flexibilities; and
- (2) Emergency acquisition flexibilities that are available only under prescribed circumstances.

(b) The acquisition flexibilities in this part are not exempt from the requirements and limitations set forth in FAR [Part 3](#), Improper Business Practices and Personal Conflicts of Interest.

(c) Additional flexibilities may be authorized in an executive agency supplement to the FAR.

18.001 Definition.

“Emergency acquisition flexibilities”, as used in this part, means flexibilities provided with respect to any acquisition of supplies or services by or for an executive agency that, as determined by the head of an executive agency, may be used—

- (a) In support of a contingency operation as defined in [2.101](#);
- (b) To facilitate the defense against or recovery from nuclear, biological, chemical, or radiological attack against the United States; or
- (c) When the President issues an emergency declaration, or a major disaster declaration.

Subpart 18.1—Available Acquisition Flexibilities

18.101 General.

The FAR includes many acquisition flexibilities that are available to the contracting officer when certain conditions are met. These acquisition flexibilities do not require an emergency declaration or designation of contingency operation.

18.102 Central contractor registration.

Contractors are not required to be registered in the Central Contractor Registration (CCR) database for contracts awarded to support unusual and compelling needs or emergency acquisitions. (See [4.1102](#)). However, contractors are required to register with CCR in order to gain access to the Disaster Response Registry. Contracting officers shall consult the Disaster Response Registry via <https://www.acquisition.gov> to determine the availability of contractors for debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities inside the United States and outlying areas. (See [26.205](#)).

18.103 Synopses of proposed contract actions.

Contracting officers need not submit a synopsis notice when there is an unusual and compelling urgency and the Government would be seriously injured if the agency complied with the notice time periods. (See [5.202](#)(a)(2).)

18.104 Unusual and compelling urgency.

Agencies may limit the number of sources and full and open competition need not be provided for contracting actions involving urgent requirements. (See [6.302-2](#).)

18.105 Federal Supply Schedules (FSSs), multi-agency blanket purchase agreements (BPAs), and multi-agency indefinite delivery contracts.

Streamlined procedures and a broad range of goods and services may be available under Federal Supply Schedule contracts (see [Subpart 8.4](#)), multi-agency BPAs (see [8.405-3](#)(a)(6)), or multi-agency, indefinite-delivery contracts (see [16.505](#)(a)(8)). These contracting methods may offer agency advance planning, pre-negotiated line items, and special terms and conditions that permit rapid response.

18.106 Acquisitions from Federal Prison Industries, Inc. (FPI).

Purchase from FPI is not mandatory and a waiver is not required if public exigency requires immediate delivery or performance (see [8.605](#)(b)).

18.107 AbilityOne specification changes.

Contracting officers are not held to the notification required when changes in AbilityOne specifications or descriptions are required to meet emergency needs. (See [8.712](#)(d).)

18.108 Qualifications requirements.

Agencies may determine not to enforce qualification requirements when an emergency exists. (See [9.206-1](#).)

18.109 Priorities and allocations.

The Defense Priorities and Allocations System (DPAS) supports approved national defense, emergency preparedness, and energy programs and was established to facilitate rapid industrial mobilization in case of a national emergency. (See [Subpart 11.6](#).)

18.110 Soliciting from a single source.

For purchases not exceeding the simplified acquisition threshold, contracting officers may solicit from one source under certain circumstances. (See [13.106-1](#)(b).)

18.111 Oral requests for proposals.

Oral requests for proposals are authorized under certain conditions. (See [15.203](#)(f).)

18.112 Letter contracts.

Letter contracts may be used when contract performance must begin immediately. (See [16.603](#).)

18.113 Interagency acquisitions.

Interagency acquisitions are authorized under certain conditions. (See [Subpart 17.5](#).)

18.114 Contracting with the Small Business**Administration (The 8(a) Program).**

Contracts may be awarded to the Small Business Administration (SBA) for performance by eligible 8(a) firms on either a sole source or competitive basis. (See [Subpart 19.8](#).)

18.115 HUBZone sole source awards.

Contracts may be awarded to Historically Underutilized Business Zone (HUBZone) small business concerns on a sole source basis. (See [19.1306](#).)

18.116 Service-disabled Veteran-owned Small Business (SDVOSB) sole source awards.

Contracts may be awarded to Service-disabled Veteran-owned Small Business (SDVOSB) concerns on a sole source basis. (See [19.1406](#).)

18.117 Awards to economically disadvantaged women-owned small business (EDWOSB) concerns and women-owned small business (WOSB) concerns eligible under the WOSB Program.

Contracts may be awarded to EDWOSB concerns and WOSB concerns on a competitive basis. (See subpart [19.15](#).)

18.118 Overtime approvals.

Overtime approvals may be retroactive if justified by emergency circumstances. (See [22.103-4\(i\)](#).)

18.119 Trade agreements.

The policies and procedures of FAR [25.4](#) may not apply to acquisitions not awarded under full and open competition (see [25.401\(a\)\(5\)](#)).

18.120 Use of patented technology under the North American Free Trade Agreement.

Requirement to obtain authorization prior to use of patented technology may be waived in circumstances of extreme urgency or national emergency. (See [27.204-1](#).)

18.121 Bid guarantees.

The chief of the contracting office may waive the requirement to obtain a bid guarantee for emergency acquisitions when a performance bond or a performance bond and payment bond is required. (See [28.101-1\(c\)](#).)

18.122 Advance payments.

Agencies may authorize advance payments to facilitate the national defense for actions taken under Public Law 85-804 (see [Subpart 50.1](#), Extraordinary Contractual Actions). These advance payments may be made at or after award of sealed bid contracts, as well as negotiated contracts. (See [32.405](#).)

18.123 Assignment of claims.

The use of the no-setoff provision may be appropriate to facilitate the national defense in the event of a national emergency or natural disaster. (See [32.803\(d\)](#).)

18.124 Electronic funds transfer.

Electronic funds transfer payments may be waived for acquisitions to support unusual and compelling needs or emergency acquisitions. (See [32.1103\(e\)](#).)

18.125 Protest to GAO.

When urgent and compelling circumstances exist, agency protest override procedures allow the head of the contracting activity to determine that the contracting process may continue after GAO has received a protest. (See [33.104\(b\)](#) and (c).)

18.126 Contractor rent-free use of Government property.

Rental requirements do not apply to items of Government production and research property that are part of a general program approved by the Federal Emergency Management Agency and meet certain criteria. (See [45.301](#).)

18.127 Extraordinary contractual actions.

[Subpart 50.1](#) prescribes policies and procedures for entering into, amending, or modifying contracts in order to facilitate the national defense under the extraordinary emergency authority granted by Public Law 85-804 ([50 U.S.C. 1431-1434](#)). This includes—

(a) Amending contracts without consideration (see [50.103-2\(a\)](#));

(b) Correcting or mitigating mistakes in a contract (see [50.103-2\(b\)](#)); and

(c) Formalizing informal commitments (See [50.103-2\(c\)](#)).

activities for which sanctions may be imposed on or after July 1, 2010—

(i) Knowingly making an investment of \$20,000,000 or more, or a combination of investments of \$5,000,000 or more that equal or exceed \$20,000,000 in a 12-month period, that directly and significantly contribute to the enhancement of Iran's ability to develop petroleum resources.

(ii) Knowingly selling, leasing or providing to Iran goods, services, technology, information, or support with a fair market value of \$1,000,000 or more, or during a 12-month period with an aggregate fair market value of \$5,000,000 or more, that could directly and significantly facilitate the maintenance or expansion of Iran's domestic production of refined petroleum products, including any direct and significant assistance with respect to the construction, modernization, or repair of petroleum refineries.

(iii) Knowingly selling or providing to Iran refined petroleum products with a fair market value of \$1,000,000 or more, or during a 12-month period with an aggregate fair market value of \$5,000,000 or more.

(iv) Knowingly selling, leasing, or providing to Iran goods, services, technology, information, or support with a fair market value of \$1,000,000 or more, or during a 12-month period with an aggregate fair market value of \$5,000,000 or more, that could directly and significantly contribute to the enhancement of Iran's ability to import refined petroleum products, including—

(B) Providing ships or shipping services to deliver refined petroleum products to Iran.

(v) Exporting, transferring, or otherwise providing to Iran any goods, services, technology or other items knowing that it would contribute materially to the ability of Iran to acquire or develop chemical, biological, or nuclear weapons or related technologies, or acquire or develop destabilizing numbers and types of advanced conventional weapons.

(b) *Remedies.* Upon the determination of a false certification under paragraph (a) of this subsection, the agency shall take one or more of the following actions:

(1) The contracting officer may terminate the contract in accordance with procedures in part [19](#), or for commercial items, [12.403](#).

(2) The suspending official may suspend the contractor in accordance with the procedures in subpart [9.4](#).

(3) The debarring official may debar the contractor for a period not to exceed 3 years in accordance with the procedures in subpart [9.4](#).

(c) *Exception for trade agreements.* The certification requirements of paragraph (a) of this subsection do not apply with respect to the procurement of eligible products, as defined in section 308(4) of the Trade Agreements Act of

1974 ([19 U.S.C. 2518\(4\)](#)), of any foreign country or instrumentality designated under section 301(b) of that Act ([19 U.S.C. 2511\(b\)](#)) (see subpart [25.4](#)).

25.703-3 Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010, section 106.

(a) The head of an executive agency may not enter into or extend a contract for the procurement of goods or services with a person that exports certain sensitive technology to Iran, as determined by the President and listed on the Excluded Parties List System via <https://www.acquisition.gov>.

(b) Each offeror must represent that it does not export any sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf of or at the direction of, the government of Iran.

(c) *Exception for trade agreements.* The representation requirement of paragraph (b) of this subsection does not apply with respect to the procurement of eligible products, as defined in section 308(4) of the Trade Agreements Act of 1974 ([19 U.S.C. 2518\(4\)](#)), of any foreign country or instrumentality designated under section 301(b) of that Act ([19 U.S.C. 2511\(b\)](#)) (see subpart [25.4](#)).

25.703-4 Waiver.

(a) An agency or contractor seeking a waiver of these requirements, consistent with section 6(b)(5) of the Iran Sanctions Act or section 401(b) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Pub. L. 111-195), and the Presidential Memorandum of September 23, 2010 (75 FR 67025), shall submit the request to the Office of Federal Procurement Policy, allowing sufficient time for review and approval.

(b) Agencies may request a waiver on an individual or class basis; however, waivers are not indefinite and can be cancelled, if warranted.

(1) A class waiver may be requested only when the class of supplies or equipment is not available from any other source and it is in the national interest.

(2) Prior to submitting the waiver request, the request must be reviewed and cleared by the agency head.

(c) In general, all waiver requests should include the following information:

(1) Agency name, complete mailing address, and point of contact name, telephone number, and e-mail address.

(2) Offeror's name, complete mailing address, and point of contact name, telephone number, and e-mail address.

(3) Description/nature of product or service.

(4) The total cost and length of the contract.

(5) Justification, with market research demonstrating that no other offeror can provide the product or service and stating why the product or service must be procured from this offeror, as well as why it is in the national interest for the Pres-

ident to waive the prohibition on contracting with this offeror that—

(i) Conducts activities for which sanctions may be imposed under section 5 of the Iran Sanctions Act; or

(ii) Exports sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf or at the direction of, the government of Iran.

(6) Documentation regarding the offeror's past performance and integrity (see the Past Performance Information Retrieval System and the Federal Awardee Performance Information and Integrity System at www.ppirs.gov, and any other relevant information).

(7) Information regarding the offeror's relationship or connection with other firms that—

(i) Conduct activities for which sanctions may be imposed under section 5 of the Iran Sanctions Act; or

(ii) Export sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf or at the direction of, the government of Iran.

(8) Describe—

(i) The activities in which the offeror is engaged for which sanctions may be imposed under section 5 of the Iran Sanctions Act; or

(ii) The sensitive technology and the entity or individual to which it was exported (*i.e.*, the government of Iran or an entity or individual owned or controlled by, or acting on behalf or at the direction of, the government of Iran).

Subpart 26.2—Disaster or Emergency Assistance Activities

26.200 Scope of subpart.

This subpart implements the Robert T. Stafford Disaster Relief and Emergency Assistance Act ([42 U.S.C. 5150](#)), which provides a preference for local organizations, firms, and individuals when contracting for major disaster or emergency assistance activities.

26.201 Definitions.

“Emergency response contract” means a contract with private entities that supports assistance activities in a major disaster or emergency area, such as debris clearance, distribution of supplies, or reconstruction.

“Local firm” means a private organization, firm, or individual residing or doing business primarily in a major disaster or emergency area.

“Major disaster or emergency area” means the area included in the official Presidential declaration(s) and any additional areas identified by the Department of Homeland Security. Major disaster declarations and emergency declarations are published in the Federal Register and are available at <http://www.fema.gov/news/disasters.fema>.

26.202 Local area preference.

When awarding emergency response contracts during the term of a major disaster or emergency declaration by the President of the United States under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act ([42 U.S.C. 5121](#), *et seq.*), preference shall be given, to the extent feasible and practicable, to local firms. Preference may be given through a local area set-aside or an evaluation preference.

26.202-1 Local area set-aside.

The contracting officer may set aside solicitations to allow only local firms within a specific geographic area to compete (see [6.208](#)).

(a) The contracting officer, in consultation with the requirements office, shall define the specific geographic area for the local set-aside.

(b) A major disaster or emergency area may span counties in several contiguous States. The set-aside area need not include all the counties in the declared disaster/emergency area(s), but cannot go outside it.

(c) The contracting officer shall also determine whether a local area set-aside should be further restricted to small business concerns in the set-aside area (see [Part 19](#)).

26.202-2 Evaluation preference.

The contracting officer may use an evaluation preference, when authorized in agency regulations or procedures.

26.203 Transition of work.

(a) In anticipation of potential emergency response requirements, agencies involved in response planning should consider awarding emergency response contracts before a major disaster or emergency occurs to ensure immediate response and relief. These contracts should be structured to respond to immediate emergency response needs, and should not be structured in any way that may inhibit the transition of emergency response work to local firms (*e.g.*, unnecessarily broad scopes of work or long periods of performance).

(b) [42 U.S.C. 5150\(b\)\(2\)](#) requires that agencies performing response, relief, and reconstruction activities transition to local firms any work performed under contracts in effect on the date on which the President declares a major disaster or emergency, unless the head of such agency determines in writing that it is not feasible or practicable. This determination may be made on an individual contract or class basis. The written determination shall be prepared within a reasonable time given the circumstances of the emergency.

(c) In effecting the transition, agencies are not required to terminate or renegotiate existing contracts. Agencies should transition the work at the earliest practical opportunity after consideration of the following:

(1) The potential duration of the disaster or emergency.

(2) The severity of the disaster or emergency.

(3) The scope and structure of the existing contract, including its period of performance and the milestone(s) at which a transition is reasonable (*e.g.*, before exercising an option).

(4) The potential impact of a transition, including safety, national defense, and mobilization.

(5) The expected availability of qualified local offerors who can provide the products or services at a reasonable price.

(d) The agency shall transition the work to local firms using the local area set-aside identified in [26.202-1](#).

26.204 Justification for expenditures to other than local firms.

(a) [42 U.S.C. 5150\(b\)\(1\)](#) requires that, subsequent to any Presidential declaration of a major disaster or emergency, any expenditure of Federal funds, under an emergency response contract not awarded to a local firm, must be justified in writing in the contract file. The justification should include consideration for the scope of the major disaster or emergency and the immediate requirements or needs of supplies and services to ensure life is protected, victims are cared for, and property is protected.

(b) The justification may be made on an individual or class basis. The contracting officer approves the justification.

26.205 Disaster Response Registry.

(a) Contracting officers shall consult the Disaster Response Registry via <https://www.acquisition.gov> to deter-

mine the availability of contractors for debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities inside the United States and outlying areas.

(b) A list of prospective vendors voluntarily participating in the Disaster Response Registry can be retrieved using the CCR Search tool, which can be accessed via <https://www.acquisition.gov>. These vendors may be identified by selecting the criteria for “Disaster Response Contractors”. Contractors are required to register with CCR in order to gain access to the Disaster Response Registry.

26.206 Solicitation provision and contract clauses.

(a) The contracting officer shall insert the provision at [52.226-3](#), Disaster or Emergency Area Representation, in solicitations involving the local area set-aside. For commercial items, see [12.301](#)(e)(4).

(b) The contracting officer shall insert the clause at [52.226-4](#), Notice of Disaster or Emergency Area Set-aside in solicitations and contracts involving local area set-asides.

(c) The contracting officer shall insert the clause at [52.226-5](#), Restrictions on Subcontracting Outside Disaster or Emergency Area, in all solicitations and contracts that involve local area set-asides.

within reasonable limits of accuracy; *e.g.*, anticipated costs of rejects and defective work. Contingencies of this category are to be included in the estimates of future costs so as to provide the best estimate of performance cost.

(2) Those that may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; *e.g.*, results of pending litigation. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately (including the basis upon which the contingency is computed) to facilitate the negotiation of appropriate contractual coverage. (See, for example, [31.205-6\(g\)](#) and [31.205-19](#).)

31.205-8 Contributions or donations.

Contributions or donations, including cash, property and services, regardless of recipient, are unallowable, except as provided in [31.205-1\(e\)\(3\)](#).

31.205-9 [Reserved]

31.205-10 Cost of money.

(a) *General.* Cost of money—

(1) Is an imputed cost that is not a form of interest on borrowings (see [31.205-20](#));

(2) Is an “incurred cost” for cost-reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts; and

(3) Refers to—

(i) Facilities capital cost of money (48 CFR 9904.414); and

(ii) Cost of money as an element of the cost of capital assets under construction (48 CFR 9904.417).

(b) Cost of money is allowable, provided—

(1) It is measured, assigned, and allocated to contracts in accordance with 48 CFR 9904.414 or measured and added to the cost of capital assets under construction in accordance with 48 CFR 9904.417, as applicable;

(2) The requirements of [31.205-52](#), which limit the allowability of cost of money, are followed; and

(3) The estimated facilities capital cost of money is specifically identified and proposed in cost proposals relating to the contract under which the cost is to be claimed.

(c) Actual interest cost in lieu of the calculated imputed cost of money is unallowable.

31.205-11 Depreciation.

(a) Depreciation on a contractor’s plant, equipment, and other capital facilities is an allowable contract cost, subject to the limitations contained in this cost principle. For tangible personal property, only estimated residual values that exceed 10 percent of the capitalized cost of the asset need be used in establishing depreciable costs. Where either the declining balance method of depreciation or the class life asset depreciation

range system is used, the residual value need not be deducted from capitalized cost to determine depreciable costs. Depreciation cost that would significantly reduce the book value of a tangible capital asset below its residual value is unallowable.

(b) Contractors having contracts subject to 48 CFR 9904.409, Depreciation of Tangible Capital Assets, shall adhere to the requirement of that standard for all fully CAS-covered contracts and may elect to adopt the standard for all other contracts. All requirements of 48 CFR 9904.409 are applicable if the election is made, and contractors must continue to follow it until notification of final acceptance of all deliverable items on all open negotiated Government contracts.

(c) For contracts to which 48 CFR 9904.409 is not applied, except as indicated in paragraphs (g) and (h) of this subsection, allowable depreciation shall not exceed the amount used for financial accounting purposes, and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same segment on non-Government business.

(d) Depreciation, rental, or use charges are unallowable on property acquired from the Government at no cost by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(e) The depreciation on any item which meets the criteria for allowance at price under [31.205-26\(e\)](#) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(f) No depreciation or rental is allowed on property fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control. However, a reasonable charge for using fully depreciated property may be agreed upon and allowed (but, see [31.109\(h\)\(2\)](#)). In determining the charge, consideration shall be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(g) Whether or not the contract is otherwise subject to CAS the following apply:

(1) The requirements of [31.205-52](#) shall be observed.

(2) In the event of a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances, allowable depreciation of the impaired assets is limited to the amounts that would have been allowed had the assets not been written down (see [31.205-16\(g\)](#)). However, this does not preclude a change in depreciation resulting from other causes such as permissible changes in estimates of service life, consumption of services, or residual value.

(3) (i) In the event the contractor reacquires property involved in a sale and leaseback arrangement, allowable depreciation of reacquired property shall be based on the net book value of the asset as of the date the contractor originally

became a lessee of the property in the sale and leaseback arrangement—

(A) Adjusted for any allowable gain or loss determined in accordance with [31.205-16\(b\)](#); and

(B) Less any amount of depreciation expense included in the calculation of the amount that would have been allowed had the contractor retained title under [31.205-11\(h\)\(1\)](#) and [31.205-36\(b\)\(2\)](#).

(ii) As used in this paragraph (g)(3), “reacquired property” is property that generated either any depreciation expense or any cost of money considered in the calculation of the limitations under [31.205-11\(h\)\(1\)](#) and [31.205-36\(b\)\(2\)](#) during the most recent accounting period prior to the date of reacquisition.

(h) A “capital lease,” as defined in Financial Accounting Standards Board’s Accounting Standards Codification (FASB ASC) 840, Leases, is subject to the requirements of this cost principle. (See [31.205-36](#) for Operating Leases.) FASB ASC 840 requires that capital leases be treated as purchased assets, *i.e.*, be capitalized, and the capitalized value of such assets be distributed over their useful lives as depreciation charges or over the leased life as amortization charges, as appropriate, except that—

(1) Lease costs under a sale and leaseback arrangement are allowable only up to the amount that would be allowed if the contractor retained title, computed based on the net book value of the asset on the date the contractor becomes a lessee of the property adjusted for any gain or loss recognized in accordance with [31.205-16\(b\)](#); and

(2) If it is determined that the terms of the capital lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges are not allowable in excess of those that would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

31.205-12 Economic planning costs.

Economic planning costs are the costs of general long-range management planning that is concerned with the future overall development of the contractor’s business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business. Economic planning costs are allowable. Economic planning costs do not include organization or reorganization costs covered by [31.205-27](#). See [31.205-38](#) for market planning costs other than economic planning costs.

31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and employee performance (less income generated by these activities) are allowable, subject to the limitations contained in this subsection. Some examples of allowable activities are—

(1) House publications;

(2) Health clinics;

(3) Wellness/fitness centers;

(4) Employee counseling services; and

(5) Food and dormitory services for the contractor’s employees at or near the contractor’s facilities. These services include—

(i) Operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations; and

(ii) Similar types of services.

(b) Costs of gifts are unallowable. (Gifts do not include awards for performance made pursuant to [31.205-6\(f\)](#) or awards made in recognition of employee achievements pursuant to an established contractor plan or policy.)

(c) Costs of recreation are unallowable, except for the costs of employees’ participation in company sponsored sports teams or employee organizations designed to improve company loyalty, team work, or physical fitness.

(d)(1) The allowability of food and dormitory losses are determined by the following factors:

(i) Losses from operating food and dormitory services are allowable only if the contractor’s objective is to operate such services on a break-even basis.

(ii) Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to the accomplishment of the objective in paragraph (d)(1)(i) of this subsection are not allowable, except as described in paragraph (d)(1)(iii) of this subsection.

(iii) A loss may be allowed to the extent that the contractor can demonstrate that unusual circumstances exist such that even with efficient management, operating the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. The following are examples of unusual circumstances:

(A) The contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available.

(B) The contractor’s charged (but unproductive) labor costs would be excessive if the services were not available.

(C) If cessation or reduction of food or dormitory operations will not otherwise yield net cost savings.

(2) Costs of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(e) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor’s plant, and retain the profits, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (f) of this subsection).

(3) The costs must not be otherwise unallowable under [Subpart 31.2](#).

(4) Amounts to be reimbursed shall not exceed the employee’s actual expenses, except as provided for in paragraphs (b)(5) and (b)(6) of this subsection.

(5) For miscellaneous costs of the type discussed in paragraph (a)(5) of this subsection, a lump-sum amount, not to exceed \$5,000, may be allowed in lieu of actual costs.

(6)(i) Reimbursement on a lump-sum basis may be allowed for any of the following relocation costs when adequately supported by data on the individual elements (e.g., transportation, lodging, and meals) comprising the build-up of the lump-sum amount to be paid based on the circumstances of the particular employee’s relocation:

(A) Costs of finding a new home, as discussed in paragraph (a)(2) of this subsection.

(B) Costs of travel to the new location, as discussed in paragraph (a)(1) of this subsection (but not costs for the transportation of household goods).

(C) Costs of temporary lodging, as discussed in paragraph (a)(2) of this subsection.

(ii) When reimbursement on a lump-sum basis is used, any adjustments to reflect actual costs are unallowable.

(c) The following types of costs are unallowable:

(1) Loss on the sale of a home.

(2) Costs incident to acquiring a home in the new location as follows:

(i) Real estate brokers’ fees and commissions.

(ii) Costs of litigation.

(iii) Real and personal property insurance against damage or loss of property.

(iv) Mortgage life insurance.

(v) Owner’s title policy insurance when such insurance was not previously carried by the employee on the old residence. (However, the cost of a mortgage title policy is allowable.)

(vi) Property taxes and operating or maintenance costs.

(3) Continuing mortgage principal payments on a residence being sold.

(4) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed either as an allocable indirect or direct cost, and the employee resigns within 12 months for reasons within the employee’s control, the contractor shall refund or credit the relocation costs to the Government.

(e) Subject to the requirements of paragraphs (a) through (d) of this section, the costs of family movements and of personnel movements of a special or mass nature are allowable. The cost, however, should be assigned on the basis of work (contracts) or time period benefited.

(f) Relocation costs (both outgoing and return) of employees who are hired for performance on specific contracts or long-term field projects are allowable if—

(1) The term of employment is 12 months or more;

(2) The employment agreement specifically limits the duration of employment to the time spent on the contract or field project for which the employee is hired;

(3) The employment agreement provides for return relocation to the employee’s permanent and principal home immediately prior to the outgoing relocation, or other location of equal or lesser cost; and

(4) The relocation costs are determined under the rules of paragraphs (a) through (d) of this section. However, the costs to return employees, who are released from employment upon completion of field assignments pursuant to their employment agreements, are not subject to the refund or credit requirement of paragraph (d).

31.205-36 Rental costs.

(a) This subsection is applicable to the cost of renting or leasing real or personal property acquired under “operating leases” as defined in Financial Accounting Standards Board’s Accounting Standards Codification (FASB ASC) 840, Leases. (See [31.205-11](#) for Capital Leases.)

(b) The following costs are allowable:

(1) Rental costs under operating leases, to the extent that the rates are reasonable at the time of the lease decision, after consideration of—

(i) Rental costs of comparable property, if any;

(ii) Market conditions in the area;

(iii) The type, life expectancy, condition, and value of the property leased;

(iv) Alternatives available; and

(v) Other provisions of the agreement.

(2) Rental costs under a sale and leaseback arrangement only up to the amount the contractor would be allowed if the contractor retained title, computed based on the net book value of the asset on the date the contractor becomes a lessee of the property adjusted for any gain or loss recognized in accordance with [31.205-16\(b\)](#).

(3) Charges in the nature of rent for property between any divisions, subsidiaries, or organizations under common control, to the extent that they do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, facilities capital cost of money, and maintenance (excluding interest or other unallowable costs pursuant to [Part 31](#)), provided that no part of such costs shall duplicate any other allowed cost. Rental cost of personal property leased from any division, subsidiary, or affiliate of the contractor under common control, that has an established practice of leasing the same or similar property to unaffiliated lessees shall be allowed in accordance with paragraph (b)(1) of this subsection.

(c) The allowability of rental costs under unexpired leases in connection with terminations is treated in [31.205-42\(e\)](#).

31.205-37 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of purchasing a patent or patent rights necessary for the proper performance of the contract and applicable to contract products or processes are allowable unless—

- (1) The Government has a license or the right to a free use of the patent;
- (2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;
- (3) The patent is considered to be unenforceable; or
- (4) The patent is expired.

(b) Care should be exercised in determining reasonableness when the royalties may have been arrived at as a result of less-than-arm's-length bargaining; e.g., royalties—

- (1) Paid to persons, including corporations, affiliated with the contractor;
- (2) Paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or
- (3) Paid under an agreement entered into after the contract award.

(c) In any case involving a patent formerly owned by the contractor, the royalty amount allowed should not exceed the cost which would have been allowed had the contractor retained title.

(d) See [31.109](#) regarding advance agreements.

31.205-38 Selling costs.

(a) “Selling” is a generic term encompassing all efforts to market the contractor’s products or services, some of which are covered specifically in other subsections of [31.205](#). The costs of any selling efforts other than those addressed in this cost principle are unallowable.

(b) Selling activity includes the following broad categories:

(1) *Advertising*. Advertising is defined at [31.205-1\(b\)](#), and advertising costs are subject to the allowability provisions of [31.205-1\(d\)](#) and (f).

(2) *Corporate image enhancement*. Corporate image enhancement activities, including broadly targeted sales efforts, other than advertising, are included within the definition of public relations at [31.205-1\(a\)](#), and the costs of such efforts are subject to the allowability provisions at [31.205-1\(e\)](#) and (f).

(3) *Bid and proposal costs*. Bid and proposal costs are defined at [31.205-18](#) and are subject to the allowability provisions of that subsection.

(4) *Market planning*. Market planning involves market research and analysis and general management planning concerned with development of the contractor’s business. Long-

range market planning costs are subject to the allowability provisions of [31.205-12](#). Other market planning costs are allowable.

(5) *Direct selling*. Direct selling efforts are those acts or actions to induce particular customers to purchase particular products or services of the contractor. Direct selling is characterized by person-to-person contact and includes such efforts as familiarizing a potential customer with the contractor’s products or services, conditions of sale, service capabilities, etc. It also includes negotiation, liaison between customer and contractor personnel, technical and consulting efforts, individual demonstrations, and any other efforts having as their purpose the application or adaptation of the contractor’s products or services for a particular customer’s use. The cost of direct selling efforts is allowable.

(c) Notwithstanding any other provision of this subsection, sellers’ or agents’ compensation, fees, commissions, percentages, retainer or brokerage fees, whether or not contingent upon the award of contracts, are allowable only when paid to bona fide employees or established commercial or selling agencies maintained by the contractor for the purpose of securing business.

31.205-39 Service and warranty costs.

Service and warranty costs include those arising from fulfillment of any contractual obligation of a contractor to provide services such as installation, training, correcting defects in the products, replacing defective parts, and making refunds in the case of inadequate performance. When not inconsistent with the terms of the contract, service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

31.205-40 Special tooling and special test equipment costs.

(a) The terms “special tooling” and “special test equipment” are defined in [2.101\(b\)](#).

(b) The cost of special tooling and special test equipment used in performing one or more Government contracts is allowable and shall be allocated to the specific Government contract or contracts for which acquired, except that the cost of—

(1) Items acquired by the contractor before the effective date of the contract (or replacement of such items), whether or not altered or adapted for use in performing the contract, and

(2) Items which the contract schedule specifically excludes, shall be allowable only as depreciation or amortization.

(c) When items are disqualified as special tooling or special test equipment because with relatively minor expense they can be made suitable for general purpose use and have a value as such commensurate with their value as special tooling or special test equipment, the cost of adapting the items for

(a) Existing alternative sources for satisfying agency requirements cannot effectively meet the special research or development needs.

(b) The notices required for publication (see [5.205\(b\)](#)) are placed as required.

(c) There is sufficient Government expertise available to adequately and objectively evaluate the work to be performed by the FFRDC.

(d) The Executive Office of the President, Office of Science and Technology Policy, Washington, DC 20506, is notified.

(e) Controls are established to ensure that the costs of the services being provided to the Government are reasonable.

(f) The basic purpose and mission of the FFRDC is stated clearly enough to enable differentiation between work which should be performed by the FFRDC and that which should be performed by non-FFRDC's.

(g) A reasonable continuity in the level of support to the FFRDC is maintained, consistent with the agency's need for the FFRDC and the terms of the sponsoring agreement.

(h) The FFRDC is operated, managed, or administered by an autonomous organization or as an identifiably separate operating unit of a parent organization, and is required to operate in the public interest, free from organizational conflict of interest, and to disclose its affairs (as an FFRDC) to the primary sponsor.

(i) Quantity production or manufacturing is not performed unless authorized by legislation.

(j) Approval is received from the head of the sponsoring agency.

35.017-3 Using an FFRDC.

(a) All work placed with the FFRDC must be within the purpose, mission, general scope of effort, or special competency of the FFRDC.

(b) Where the use of the FFRDC by a nonsponsor is permitted by the sponsor, the sponsor shall be responsible for compliance with paragraph (a) of this subsection.

(1) The nonsponsoring agency shall prepare a determination in accordance with [17.502-1\(a\)](#) and provide the documentation required by [17.503\(e\)](#) to the sponsoring agency.

(2) When a D&F is required pursuant to [17.502-2\(c\)](#), the nonsponsoring agency may incorporate the determination required by [17.502-1\(a\)](#) into the D&F and provide the documentation required by [17.503\(e\)](#) to the sponsoring agency.

(3) When permitted by the sponsor, a Federal agency may contract directly with the FFRDC, in which case that Federal agency is responsible for compliance with part [6](#).

35.017-4 Reviewing FFRDC's.

(a) The sponsor, prior to extending the contract or agreement with an FFRDC, shall conduct a comprehensive review of the use and need for the FFRDC. The review will be coor-

minated with any co-sponsors and may be performed in conjunction with the budget process. If the sponsor determines that its sponsorship is no longer appropriate, it shall apprise other agencies which use the FFRDC of the determination and afford them an opportunity to assume sponsorship.

(b) Approval to continue or terminate the sponsorship shall rest with the head of the sponsoring agency. This determination shall be based upon the results of the review conducted in accordance with paragraph (c) of this subsection.

(c) An FFRDC review should include the following:

(1) An examination of the sponsor's special technical needs and mission requirements that are performed by the FFRDC to determine if and at what level they continue to exist.

(2) Consideration of alternative sources to meet the sponsor's needs.

(3) An assessment of the efficiency and effectiveness of the FFRDC in meeting the sponsor's needs, including the FFRDC's ability to maintain its objectivity, independence, quick response capability, currency in its field(s) of expertise, and familiarity with the needs of its sponsor.

(4) An assessment of the adequacy of the FFRDC management in ensuring a cost-effective operation.

(5) A determination that the criteria for establishing the FFRDC continue to be satisfied and that the sponsoring agreement is in compliance with [35.017-1](#).

35.017-5 Terminating an FFRDC.

When a sponsor's need for the FFRDC no longer exists, the sponsorship may be transferred to one or more Government agencies, if appropriately justified. If the FFRDC is not transferred to another Government agency, it shall be phased out.

35.017-6 Master list of FFRDC's.

The National Science Foundation (NSF) maintains a master Government list of FFRDC's. Primary sponsors will provide information on each FFRDC, including sponsoring agreements, mission statements, funding data, and type of R&D being performed, to the NSF upon its request for such information.

35.017-7 Limitation on the creation of new FFRDC's.

Pursuant to [10 U.S.C. 2367](#), the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Transportation, and the Administrator of the National Aeronautics and Space Administration may not obligate or expend amounts appropriated to the Department of Defense for purposes of operating an FFRDC that was not in existence before June 2, 1986, until—

(a) The head of the agency submits to Congress a report with respect to such center that describes the purpose, mission, and general scope of effort of the center; and

(b) A period of 60 days, beginning on the date such report is received by Congress, has elapsed.

Subpart 36.6—Architect-Engineer Services

36.600 Scope of subpart.

This subpart prescribes policies and procedures applicable to the acquisition of architect-engineer services, including orders for architect-engineer services under multi-agency contracts (see [16.505\(a\)\(9\)](#)).

36.601 Policy.

36.601-1 Public announcement.

The Government shall publicly announce all requirements for architect-engineer services and negotiate contracts for these services based on the demonstrated competence and qualifications of prospective contractors to perform the services at fair and reasonable prices. (See [40 U.S.C. 1101 et seq.](#))

36.601-2 Competition.

Acquisition of architect-engineer services in accordance with the procedures in this subpart will constitute a competitive procedure. (See [6.102\(d\)\(1\)](#).)

36.601-3 Applicable contracting procedures.

(a)(1) For facility design contracts, the statement of work shall require that the architect-engineer specify, in the construction design specifications, use of the maximum practicable amount of recovered materials consistent with the performance requirements, availability, price reasonableness, and cost-effectiveness. Where appropriate, the statement of work also shall require the architect-engineer to consider energy conservation, pollution prevention, and waste reduction to the maximum extent practicable in developing the construction design specifications.

(2) Facility design solicitations and contracts that include the specification of energy-consuming products must comply with the requirements at [Subpart 23.2](#).

(b) Sources for contracts for architect-engineer services shall be selected in accordance with the procedures in this subpart rather than the solicitation or source selection procedures prescribed in [Parts 13, 14, and 15](#) of this regulation.

(c) When the contract statement of work includes both architect-engineer services and other services, the contracting officer shall follow the procedures in this subpart if the statement of work, substantially or to a dominant extent, specifies performance or approval by a registered or licensed architect or engineer. If the statement of work does not specify such performance or approval, the contracting officer shall follow the procedures in [Parts 13, 14, or 15](#).

(d) Other than “incidental services” as specified in the definition of architect-engineer services in [2.101](#) and in [36.601-4\(a\)\(3\)](#), services that do not require performance by a registered or licensed architect or engineer, notwithstanding

the fact that architect-engineers also may perform those services, should be acquired pursuant to [Parts 13, 14, and 15](#).

36.601-4 Implementation.

(a) Contracting officers should consider the following services to be “architect-engineer services” subject to the procedures of this subpart:

(1) Professional services of an architectural or engineering nature, as defined by applicable State law, which the State law requires to be performed or approved by a registered architect or engineer.

(2) Professional services of an architectural or engineering nature associated with design or construction of real property.

(3) Other professional services of an architectural or engineering nature or services incidental thereto (including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals and other related services) that logically or justifiably require performance by registered architects or engineers or their employees.

(4) Professional surveying and mapping services of an architectural or engineering nature. Surveying is considered to be an architectural and engineering service and shall be procured pursuant to section [36.601](#) from registered surveyors or architects and engineers. Mapping associated with the research, planning, development, design, construction, or alteration of real property is considered to be an architectural and engineering service and is to be procured pursuant to section [36.601](#). However, mapping services that are not connected to traditionally understood or accepted architectural and engineering activities, are not incidental to such architectural and engineering activities or have not in themselves traditionally been considered architectural and engineering services shall be procured pursuant to provisions in [Parts 13, 14, and 15](#).

(b) Contracting officers may award contracts for architect-engineer services to any firm permitted by law to practice the professions of architecture or engineering.

36.602 Selection of firms for architect-engineer contracts.

36.602-1 Selection criteria.

(a) Agencies shall evaluate each potential contractor in terms of its—

(1) Professional qualifications necessary for satisfactory performance of required services;

(2) Specialized experience and technical competence in the type of work required, including, where appropriate, expe-

rience in energy conservation, pollution prevention, waste reduction, and the use of recovered materials;

(3) Capacity to accomplish the work in the required time;

(4) Past performance on contracts with Government agencies and private industry in terms of cost control, quality of work, and compliance with performance schedules;

(5) Location in the general geographical area of the project and knowledge of the locality of the project; provided, that application of this criterion leaves an appropriate number of qualified firms, given the nature and size of the project; and

(6) Acceptability under other appropriate evaluation criteria.

(b) When the use of design competition is approved by the agency head or a designee, agencies may evaluate firms on the basis of their conceptual design of the project. Design competition may be used when—

(1) Unique situations exist involving prestige projects, such as the design of memorials and structures of unusual national significance;

(2) Sufficient time is available for the production and evaluation of conceptual designs; and

(3) The design competition, with its costs, will substantially benefit the project.

(c) Hold discussions with at least three of the most highly qualified firms regarding concepts, the relative utility of alternative methods and feasible ways to prescribe the use of recovered materials and achieve waste reduction and energy-efficiency in facility design (see [Part 23](#)).

36.602-2 Evaluation boards.

(a) When acquiring architect-engineer services, an agency shall provide for one or more permanent or ad hoc architect-engineer evaluation boards (which may include preselection boards when authorized by agency regulations) to be composed of members who, collectively, have experience in architecture, engineering, construction, and Government and related acquisition matters. Members shall be appointed from among highly qualified professional employees of the agency or other agencies, and if authorized by agency procedure, private practitioners of architecture, engineering, or related professions. One Government member of each board shall be designated as the chairperson.

(b) No firm shall be eligible for award of an architect-engineer contract during the period in which any of its principals or associates are participating as members of the awarding agency's evaluation board.

36.602-3 Evaluation board functions.

Under the general direction of the head of the contracting activity, an evaluation board shall perform the following functions:

(a) Review the current data files on eligible firms and responses to a public notice concerning the particular project (see [36.603](#)).

(b) Evaluate the firms in accordance with the criteria in [36.602-1](#).

(c) Hold discussions with at least three of the most highly qualified firms regarding concepts and the relative utility of alternative methods of furnishing the required services.

(d) Prepare a selection report for the agency head or other designated selection authority recommending, in order of preference, at least three firms that are considered to be the most highly qualified to perform the required services. The report shall include a description of the discussions and evaluation conducted by the board to allow the selection authority to review the considerations upon which the recommendations are based.

36.602-4 Selection authority.

(a) The final selection decision shall be made by the agency head or a designated selection authority.

(b) The selection authority shall review the recommendations of the evaluation board and shall, with the advice of appropriate technical and staff representatives, make the final selection. This final selection shall be a listing, in order of preference, of the firms considered most highly qualified to perform the work. If the firm listed as the most preferred is not the firm recommended as the most highly qualified by the evaluation board, the selection authority shall provide for the contract file a written explanation of the reason for the preference. All firms on the final selection list are considered "selected firms" with which the contracting officer may negotiate in accordance with [36.606](#).

(c) The selection authority shall not add firms to the selection report. If the firms recommended in the report are not deemed to be qualified or the report is considered inadequate for any reason, the selection authority shall record the reasons and return the report through channels to the evaluation board for appropriate revision.

(d) The board shall be promptly informed of the final selection.

36.602-5 Short selection process for contracts not to exceed the simplified acquisition threshold.

When authorized by the agency, either or both of the short processes described in this subsection may be used to select firms for contracts not expected to exceed the simplified acquisition threshold. Otherwise, the procedures prescribed in [36.602-3](#) and [36.602-4](#) shall be followed.

(a) *Selection by the board.* The board shall review and evaluate architect-engineer firms in accordance with [36.602-3](#), except that the selection report shall serve as the final selection list and shall be provided directly to the contracting officer. The report shall serve as an authorization for the con-

52.204-6 Data Universal Numbering System (DUNS)**Number.**

52.204-7 Central Contractor Registration.

As prescribed in [4.1105](#), use the following clause:

CENTRAL CONTRACTOR REGISTRATION (FEB 2012)

(a) Definitions. As used in this clause—

“Central Contractor Registration (CCR) database” means the primary Government repository for Contractor informa-

tion required for the conduct of business with the Government.

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at [Subpart 32.11](#)) for the same concern.

“Registered in the CCR database” means that—

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and

(2) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record “Active”. The Contractor will be required to provide consent for TIN validation to the Government as a part of the CCR registration process.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “DUNS” or “DUNS +4” followed by the DUNS or DUNS +4 number that identifies the offeror’s name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number—

(i) Via the Internet at <http://fedgov.dnb.com/webform> or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The offeror should indicate that it is an offeror for a U.S. Government contract when contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

- (iii) Company Physical Street Address, City, State, and ZIP Code.
- (iv) Company Mailing Address, City, State and ZIP Code (if separate from physical).
- (v) Company Telephone Number.
- (vi) Date the company was started.
- (vii) Number of employees at your location.
- (viii) Chief executive officer/key manager.
- (ix) Line of business (industry).
- (x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government’s reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g) (1) (i) If a Contractor has legally changed its business name, “doing business as” name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in [Subpart 42.12](#), the Contractor shall provide the responsible Contracting Officer a minimum of one business day’s written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of [Subpart 42.12](#) of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR [Subpart 32.8](#), Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor’s CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the “Suspension of payment” paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via CCR accessed through <https://www.acquisition.gov> or by calling 1-888-227-2423, or 269-961-5757.

(End of clause)

“Executive” means officers, managing partners, or any other employees in management positions.

“First-tier subcontract” means a subcontract awarded directly by a Contractor to furnish supplies or services (including construction) for performance of a prime contract, but excludes supplier agreements with vendors, such as long-term arrangements for materials or supplies that would normally be applied to a Contractor’s general and administrative expenses or indirect cost.

52.212-1 Instructions to Offerors—Commercial Items.

As prescribed in [12.301\(b\)\(1\)](#), insert the following provision:

INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS
(FEB 2012)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet ([SF 1449](#)). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) “Remit to” address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR [52.212-3](#) (see FAR [52.212-3\(b\)](#) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) *Late submissions, modifications, revisions, and withdrawals of offers.* (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation

on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) *Availability of requirements documents cited in the solicitation*. (1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to—

The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS+4" followed by the DUNS or DUNS+4 number that identifies the offeror's name and address. (1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.* (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products (Executive Order 13126)*. Listed End Product	Listed Countries of Origin

(2) *Certification.* [*If the Contracting Officer has identified end products and countries of origin in paragraph (i)(1) of this provision, then the offeror must certify to either (i)(2)(i) or (i)(2)(ii) by checking the appropriate block.*]

(i) The offeror will not supply any end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product.

(ii) The offeror may supply an end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any such end product furnished under this contract. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(j) *Place of manufacture.* (Does not apply unless the solicitation is predominantly for the acquisition of manufactured end products.) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

(2) Outside the United States.

(k) *Certificates regarding exemptions from the application of the Service Contract Act.* (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [*The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.*]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR [22.1003-4\(c\)\(1\)](#). The offeror does does not certify that—

(i) The items of equipment to be serviced under this contract are used regularly for other than Governmental purposes and are sold or traded by the offeror (or subcontractor in the case of an exempt subcontract) in substantial quantities to the general public in the course of normal business operations;

(ii) The services will be furnished at prices which are, or are based on, established catalog or market prices (see FAR [22.1003-4\(c\)\(2\)\(ii\)](#)) for the maintenance, calibration, or repair of such equipment; and

(6) Notwithstanding paragraphs (a)(4) and (5) above, the Government may at any time require the Contractor to remedy by correction or replacement, without cost to the Government, any failure by the Contractor to comply with the requirements of this contract, if the failure is due to—

(i) Fraud, lack of good faith, or willful misconduct on the part of the Contractor's managerial personnel; or

(ii) The conduct of one or more of the Contractor's employees selected or retained by the Contractor after any of the Contractor's managerial personnel has reasonable grounds to believe that the employee is habitually careless or unqualified.

(7) This clause applies in the same manner and to the same extent to corrected or replacement materials or services as to materials and services originally delivered under this contract.

(8) The Contractor has no obligation or liability under this contract to correct or replace materials and services that at time of delivery do not meet contract requirements, except as provided in this clause or as may be otherwise specified in the contract.
