MEMORANDUM FOR BUREAU PROCUREMENT CHIEFS

FROM: William N. Taylor II
Deputy Assistant Attorney General
for Management and Compliance
Senior Procurement Executive

SUBJECT: Class Deviation from the Federal Acquisition Regulation (FAR) Part 27 in support of Executive Order 14275 on Restoring Common Sense to Federal Procurement

1. PURPOSE

This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) Part 27 for purposes of implementing the Federal Acquisition Regulatory Council's (the Council's) model deviation text to FAR Part 27 available at <https://www.acquisition.gov/far-overhaul/far-part-deviation-guide/far-overhaul-part-27>.

2. BACKGROUND

Executive Order (E.O.) 14275, Restoring Common Sense to Federal Procurement, signed April 15, 2025, mandates a comprehensive review and simplification of the FAR. The FAR is being updated to:

- Eliminate non-statutory language
- Remove redundant or obsolete language
- Enhance clarity through plain language
- Align with the new FAR framework
- Preserve essential governmentwide acquisition standards

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

3. **SUMMARY OF CHANGES**

FAR Part 27, concerning patents, data, and copyrights, has been updated with important plain language updates, enhanced clarity, and improved readability. A high-level summary of the content updates, additions, and removals is as follows:

The following items are updated or retained:

- Statutory requirements retained in the RFO FAR Part 27 include, but may not be limited to, the following:
 - 10 U.S.C. § 3793, Copyrights, Patents, Designs
 - 15 U.S.C. § 638, Research and Development
 - 17 U.S.C. §§ 101 *et. seq.*, Copyrights
 - 18 U.S.C. § 798, Disclosure of Classified Information
 - 28 U.S.C. § 1498, Patent and Copyright Cases
 - 35 U.S.C. §§ 200 *et. seq.*, Patent Rights in Inventions Made with Federal Assistance
 - 41 U.S.C. § 2302, Rights in Technical Data
- Section 27.000, “Scope of Part” is retained with a minor plain language update.
- Section 27.001, “Definition” is unchanged.
- Subpart 27.1, “General” is retained and streamlined.
- Subpart 27.2, “Patents and Copyrights” is streamlined and continues to provide guidance regarding:
 - Patent and copyright infringement liability
 - Royalties
 - Security requirements for patent applications containing classified subject matter
- Section 27.202, “Royalties” has been significantly streamlined by reserving all procedural subsections (27.202-1 thru 27.202-4) and retaining only subsection 27.202-5, “Solicitation Provisions and contract clause”. Note, this section no longer references provision 52.227-7, Patents—Notice of Government Licensee, as the provision has been deleted.
- Subpart 27.3, “Patent Rights under Government Contracts” is retained and streamlined.
 - Section 27.304, “Procedures” is retained with minimal edits. This section provides critical guidance on application of the patent clauses.
- Subpart 27.4, “Rights in Data and Copyrights” is streamlined and retained. This subpart includes intellectual property rights anchored in law and provides important guidance to contracting officers on addressing these issues within a federal contract.
 - Section 27.405, “Other Data Rights Provisions” has been revised and the approach for special works (27.405-1) and existing works (27.405-2) has been fundamentally altered. The previous version prescribed the use of specific contract clauses (52.227-17 and 52.227-18). The revised section instead provides descriptive guidance, instructing that contracts "must specifically address the Government's rights" and that agencies are "authorized to specially negotiate"

terms.

- Section 27.407, “Rights to Technical Data in Successful Proposals” has been retained and completely updated. The former text prescribed the use of the clause at 52.227-23, “Rights to Proposal Data (Technical)”. This clause is removed, and the updated section consists of a single, broader sentence that highlights the Government’s discretion.
- The following provisions and clauses were retained with no changes in text:
 - 52.227-1 (Clause), Authorization and Consent.
 - 52.227-2 (Clause), Notice and Assistance Regarding Patent and Copyright Infringement
 - 52.227-3 (Clause), Patent Indemnity
 - 52.227-4 (Clause), Patent Indemnity—Construction Contracts
 - 52.227-5 (Clause), Waiver of Indemnity
 - 52.227-6 (Provision), Royalty Information
 - 52.227-8, remains “Reserved”
 - 52.227-9 (Clause), Refund of Royalties
 - 52.227-10 (Clause), Filing of Patent Applications—Classified Subject Matter
 - 52.227-11 (Clause), Patent Rights—Ownership by the Contractor
 - 52.227-12, remains “Reserved”
 - 52.227-13 (Clause), Patent Rights—Ownership by the Government
 - 52.227-14 (Clause), Rights in Data—General
 - 52.227-15 (Provision), Representation of Limited Rights Data and Restricted Computer Software
 - 52.227-16 (Clause), Additional Data Requirements
 - 52.227-17 (Clause), Rights in Data—Special Works
 - 52.227-20 (Clause), Rights in Data—SBIR Program
 - 52.227-21 (Clause), Technical Data Declaration, Revision, and Withholding of Payment—Major Systems
 - 52.227-22 (Clause), Major System—Minimum Rights

 - Section 27.406, “Acquisition of Data”
 - Section 27.408, “Cosponsored Research and Development Activities”
 - Subpart 27.5, “Foreign License and Technical Assistance Agreements”
- The FAR Companion is expected to include best practice information on the following retained content:
 - Subpart 27.4, treatment of “Rights in Data and Copyrights”

The following items have been removed:

- Section 27.302, “Policy”, which included unnecessary lengthy detail of the Government's comprehensive policy and objectives for patent rights and title under contracts, has been removed as it is not statutorily required.
- Subsection 27.304-1(a), “Status as small business concern or nonprofit organization”, has been removed. This content is duplicative of FAR part 19.
- Section 27.402, “Policy”, which explained the Government's need for data and the importance of balancing its needs with contractors' proprietary interests, has been removed as it is not statutorily required.
- Paragraphs (a) and (c) of Section 27.406-1, “General”, are removed, as it is not statutorily required.
