Class Deviation PBGC-2026-0016

MEMORANDUM FOR PBGC ACQUISITION WORKFORCE

Date: February 3, 2026
From: Damon Q. McClure, Senior Procurement Executive
Subject: FAR Class Deviation for FAR Part 27 in Support of Executive Order on Restoring Common Sense to Federal Procurement

1. Purpose: This class deviation is issued in accordance with FAR 1.304 and pursuant to the Office of Federal Procurement Policy memorandum entitled, “Deviation Guidance to Support the Overhaul of the Federal Acquisition Regulation,” to provide contracting officers with revised FAR Part 27 language and implement the FAR Council’s model deviation to FAR Part 27.

2. Background: On April 15, 2025, [Executive Order \(E.O.\) 14275 on Restoring Common Sense to Federal Procurement](#) was signed. Section 2 of the E.O. establishes the policy that the FAR “should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed.”

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise the language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative.

3. Summary of Changes. FAR Part 27, Patents, Data, and Copyrights, governs intellectual property rights in government contracts, explaining how parties acquire rights, how rights are licensed or shared, and how to protect both government and contractor interests. It has been updated with important plain language updates, enhanced clarity, and improved readability.

Statutory requirements retained in the RFO FAR Part 27 model deviation include, but may not be limited to, the following:

- 10 U.S.C. § 3793, Copyrights, Patents, Designs
- 15 U.S.C. § 638, Research and Development
- 17 U.S.C. §§ 101 et. seq., Copyrights
- 18 U.S.C. § 798, Disclosure of Classified Information
- 28 U.S.C. § 1498, Patent and Copyright Cases
- 35 U.S.C. §§ 200 et. seq., Patent Rights in Inventions Made with Federal Assistance

- 41 U.S.C. § 2302, Rights in Technical Data
