Subj: Class Deviation for FAR Part 27 in Support of Executive Order 14275 on Restoring  
Common Sense to Federal Procurement (VIEWS 13829916)

To: Heads of the Contracting Activities

**1. Purpose.** Deviate from Federal Acquisition Regulation (FAR) part 27 for purposes of implementing the Federal Regulatory Council's (the Council's) model deviation text to FAR part 27.

**2. Background.** [Executive Order \(E.O.\) 14275, Restoring Common Sense to Federal Procurement](#), signed April 15, 2025, mandates a comprehensive review and simplification of the FAR.

The FAR is being updated to:

- Eliminate non-statutory language,
- Remove redundant or obsolete language,
- Enhance clarity through plain language,
- Align with the new FAR framework,
- Preserve essential Governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

**3. Summary of Changes.** FAR part 27, Patents, Data, and Copyrights, governs intellectual property rights in Government contracts, explaining how parties acquire rights, how rights are licensed or shared, and how to protect both Government and contractor interests. It has been updated with important plain language updates, enhanced clarity, and improved readability.

Statutory requirements retained in the RFO FAR part 27 model deviation include, but are not limited to:

- 15 U.S.C. § 638, Research and Development,
- 17 U.S.C. §§ 101 *et. seq.*, Copyrights,
- 18 U.S.C. § 798, Disclosure of Classified Information,
- 28 U.S.C. § 1498, Patent and Copyright Cases,

Subj: Class Deviation for FAR Part 27 in Support of Executive Order on Restoring Common Sense to Federal Procurement (VIEWS 13829916)

- 35 U.S.C. §§ 200 *et. seq.*, Patent Rights in Inventions Made with Federal Assistance,
- 41 U.S.C. § 2302, Rights in Technical Data.
