Subj: Class Deviation for FAR Part 35 in Support of Executive Order on Restoring Common
Sense to Federal Procurement (VIEWS 13803927)

To: Heads of the Contracting Activities

1. Purpose. Deviate from Federal Acquisition Regulation (FAR) part 35 for purposes of implementing the Federal Regulatory Council's (the Council's) model deviation text to FAR part 35.

2. Background. [Executive Order \(E.O.\) 14275, Restoring Common Sense to Federal Procurement](#), signed April 15, 2025, mandates a comprehensive review and simplification of the FAR.

The FAR is being updated to:

- Eliminate non-statutory language
- Remove redundant or obsolete language
- Enhance clarity through plain language
- Align with the new FAR framework
- Preserve essential Governmentwide acquisition standards

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

3. Summary of Changes. FAR Part 35, Research and Development Contracting, moves away from a prescriptive, specialized regulatory framework for research and development (R&D) contracting toward a streamlined structure that empowers acquisition professionals and makes the federal R&D environment more attractive for innovative commercial firms.

The part is streamlined from 25 to 20 components (subparts, sections, subsections) that are reorganized in a more logical flow of the procurement lifecycle. This significant update greatly improves the usability of the content.

Statutory requirements retained in the RFO FAR part 35 model deviation include, but are not limited to, the following:

- 31 U.S.C. § 6303, Using Procurement Contracts
